Wattle Grove Cell 9 DCP Review

Cell 9 Wattle Grove Local Structure Plan

At the time of subdivision the shire will recommend to the Western Australian Planning Commission that a notification be placed on the certificate of title on lots within the 20-25 ANEF contour that the lot is subject to aircraft noise.

Proposed residential Lots located in close proximity to railway line may currently or in the future be affected by noise from freight transportation on the railway line.

Proposed residential Lots located in close proximity to Perth Airport are currently affected or may in the future by aircraft noise. Noise exposure levels are likely to increase in the future as a result of increases in numbers of aircraft using the airport, changes in aircraft type or other operational changes, such as construction of the parallel runway.
