Do you need food assistance?

We aren't an emergency relief, but join our private FB group to see what food is available in your area.

The easiest way to know is to:

1. Create a post, requesting a hamper, in what suburb - one of our team leaders or admins will tag the volunteer most closest to you.
2. In the search bar, search for your suburb or surrounding suburbs to see what comes up

We have over 500 volunteers in Perth and abroad who selflessly collect surplus food to distribute to those in need.

Hope to see you in our group!

Sharing a Hills Christmas

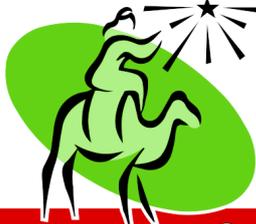

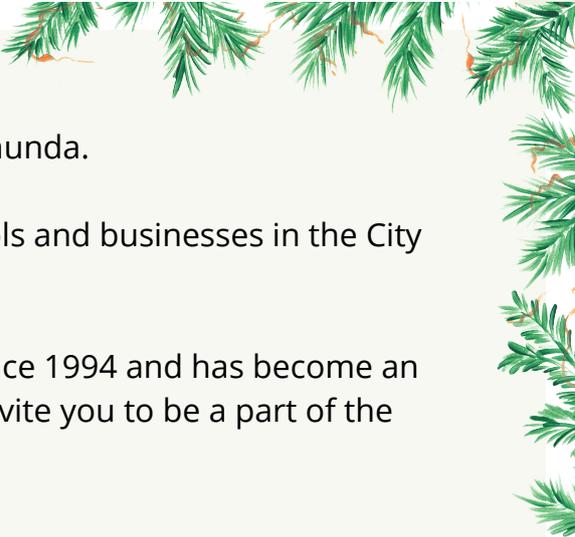

For people in need at Christmas time living in the City of Kalamunda.

Organised by the combined Churches and supported by schools and businesses in the City of Kalamunda.

Sharing a Hills Christmas has been operating in Kalamunda since 1994 and has become an integral part of the community's Christmas celebrations. We invite you to be a part of the blessing.

Each year the team provide food hampers to 250 – 300 families who are going through difficult times, as well as gifts for all members of each family and gift bags to residents of our aged hostels.

Please contact **0448 812 534** or email sharingahillschristmas@gmail.com for further information and details.

Relationships Australia

Safe from violence: A guide for women leaving or separating

<https://www.relationshipswa.org.au/relationshipswa/media/documents/booklets/safe-from-violence.pdf>

- Adolescent family violence
- Violence against Indigenous women
- Violence against people who identify as LGBTIQ
- Women from culturally and linguistically diverse backgrounds
- Women with disabilities
- Children's responses to family violence

DV Prevention Tips

- If threats are made against you or your family, contact 000 or 13 1444. Make sure you keep all text messages as this is evidence.
- Make sure you know where in your house you can and can't get reception for your mobile phone.
- It is important that there is someone in your workplace who knows what is happening to you. You can be selective about how much to tell them. In a large workplace, this could be your manager or HR Officer. Make sure people in the workplace is aware not to give out your contact details.
- Have deadlocks installed. Do not deadlock yourself in at night; you need to be able to leave the building in case of an emergency such as fire.
- Keep torches and spare batteries in an easy-to-reach place.
- Your local Safe At Home Program can carry out a safety audit of your home.

CODE WORDS

- Choose a code word that you can use without attracting attention e.g. on the phone. You can say to the person using abuse that you have to call your friend or family member to cancel catching up for a coffee that day otherwise they will come over. Then use the code word (e.g. raincheck on our coffee today). This will alert your friend or family member to contact police. Make sure you let at least five family members or friends know that when they hear the word it means that a crisis is occurring and you need police assistance immediately

Domestic Violence

Safety apps can help increase your safety when using digital devices like mobile phones, iPads, and tablets

Positive Pathways

A personal safety 'call for help' app within the smokescreen of a women's wellness app.

It is designed specifically for women in danger of domestic and family violence in Western Australia.

Its main purpose is for use in emergencies, with audio recording, automatic help messages, GPS location, and a one-touch 000 call function.

In Daily Thoughts the user can write and store journal entries and share them with trusted contacts. In Help and Plan, there are 3 options: Help Options, Saved Recordings and Positive Pathways. Developed by the Zonta House Refugee Association

For more information on [Positive Pathways](#):

Daisy

A mobile app that connects women to family violence services in Australia.

Download Daisy from www.1800respect.org.au/daisy

Sunny

Sunny is 1800RESPECT's app for people with disability who have experienced violence and abuse. Sunny has been co-designed with women with disability to make sure it provides the best support for the people who use it.

Arc

Arc can help people to track details of abusive behaviour, record their experiences and tell their stories. Users can upload photos, videos, audio, and diary entries to record what has happened, when it happened and how it made them feel.

Help Me

An app designed to help keep kids safe but can also help people of all ages, covering all personal emergencies. The app has a 'Help Me' button that sounds like a warning and lets you send an SMS to those in your safety network. It also has resources to educate kids and parents on how to stay safe.

Domestic Violence

Safety apps continued:

Emergency+

The Emergency+ app helps you call Triple Zero (000) quickly and communicates your location to emergency call-takers. Emergency+ also includes SES and Police Assistance Line numbers as options, so non-emergency calls are made to the most appropriate number.

Empower You

This app helps people to record incidents of abusive behaviour. It also provides contact information for more than 900 local support services.

I'm Safe – Women's Safety App

The I'm Safe app helps women alert their trusted contacts using SOS Sirens, record incidents of abusive behaviour, provide contact information for local support services, and connect them with experts via its "Ask for help" feature.

- Track me feature allows you to share your location with your loved ones by updating them on when and where you are in real-time.
- SOS feature sends out alerts to all your trusted contacts. This feature shares your location, captures photographs, and records audio clips.
- The app also has a "Fake Call" feature to help women leave uncomfortable situations.

Domestic Pets

Domestic Pet Crisis Services

The City acknowledges that domestic pets are an important part of people's lives and that they contribute to enhanced wellbeing.

While it's the owner's responsibility for their pet's welfare loved family pets can sometimes be affected in the event of a family crisis.

Should you be experiencing a crisis situation and require crisis support for your family pets either short term or long-term housing there are a number of animal welfare agencies that may be able to assist.

Listed below are just some of the support agencies available.

If you are unable to keep your dog/cat, in the first instance speak with family/friends to see if there is any possibility of them looking after your pets short-term. If this is not an option, consider kennel establishments, advertising for a new home for them on social media or contacting the major rehoming charities in Perth to see if they can assist.

City SMS Register

The City of Kalamunda has established an SMS System to help notify residents of the latest bushfire danger ratings and total fire ban information. The SMS system is for out-bound messages only and is not a method for contacting the City.

Residents are advised that the SMS System is a supplementary service only and should not be relied upon for emergency planning or in the place of emergency broadcasts. Residents are still responsible for ensuring they remain up-to-date on all fire danger ratings and bushfire emergencies, restrictions and alerts. Emergency WA is the State's official website for community warnings and other emergency management information.

Extreme Weather

The SES

Phone: **132 500**

The Western Australian State Emergency Service (SES) is a Volunteer based division of the Department Fire and Emergency Services of Western Australia (DFES). The SES provide emergency assistance if you or your property is affected by a flood or storm for urgent property repairs that you cannot fix yourself.

Storm Alerts and Warnings

DFES and the **Bureau of Meteorology (BoM)** work together to inform the community when there is a severe storm risk.

Once BoM issues a Severe Weather or Severe Thunderstorm Warning, DFES will provide alerts and warnings on **Emergency WA**.

Travelling During a Storm

During a severe storm it's best that you stay indoors, avoid being on the road and park your car undercover. If you must travel:

- Slow down, turn your lights on and keep a safe distance from other drivers.
- Do not drive into water of unknown depth and current.
- Be alert and watch for hazards on the road such as fallen powerlines and loose debris.
- If visibility is poor, pull over and park with your hazard lights on until conditions improve.
- Obey road closure signs and never go through road closures.
- If you are in the country, be careful driving on gravel roads as surfaces will be slippery and muddy and vehicles could become bogged.
- If there is lightning, remain in your vehicle but avoid trees and powerlines. You will be safer in your car.
- If there is large hail, try to find shelter to protect yourself and your vehicle.

Stay Informed

DFES will provide storm warning updates as the information changes.

Always have your battery powered AM/FM radio with you and listen for emergency broadcasts on local ABC Radio.

Extreme Weather

Heatwaves

The WA Department of Health outline how to prepare and stay healthy during a heatwave:

- Keep hydrated by drinking plenty of fluids. Fluids include water, diluted juice (mixed with water) and low sugar sports drinks.
- Limit or avoid alcohol and caffeinated drinks (including tea, coffee and energy drinks) as these can increase dehydration.
- Stay indoors with your air-conditioner or fan on (ensure adequate ventilation if using a fan). If you do not have air-conditioning or a fan, close windows and doors shutting off rooms you do not need access to block out the heat.
- Limit time outdoors. If you need to go outside, try to do so in the early morning or late evening. If you do go outside make sure to put on a hat and sunglasses, apply sunscreen and try to stay in the shade.
- Take care when you buy, store and handle food in hot weather to reduce the risk of food poisoning.
- Wear lightweight, light-coloured and loose-fitting clothing. Use natural fibre fabrics; cotton, linen and silk work best in absorbing sweat and allow the skin to breath.

Read through the full list of preparation, during and post-heatwave advice:

https://www.healthywa.wa.gov.au/Articles/F_I/Heatwave-be-prepared-for-extreme-heat

Smoke and Air Quality

The Bureau of Meteorology will include information about smoke haze on forecasts when this is expected to be significant – this should prompt you to check for more information from your local authority.

After an Emergency: What to look out for

<https://www.dfes.wa.gov.au/emergencywa/recovery>

Provides information on the following:

- Household Cleanup - disposing of waste, dealing with dirt, mould and mildew.
- Fire Recovery - smouldering stumps, accommodation, utilities testing.
- Hazards - stagnant water, protective gear, chemical spills.
- Food Safety - lost power on perishable food, contamination of edible garden items.
- Water Safety - drinking water, water tanks and swimming pools can become polluted following a fire, flood or other emergency.
- Wastewater - Wastewater after cyclones or floods may enter your septic tank and cause your toilet to block up and can cause pungent smells.
