PURPOSE

1. To consider the recommendations of the Kalamunda Aged Care Advisory Committee (KACAC).

BACKGROUND

2. The Council has approved the establishment, pursuant to the provisions of section 5.8 of the *Local Government Act 1995* (the Act), of the KACAC including its Terms Of Reference.

DETAILS

3. At a meeting of KACAC on 22 June 2016 several requests were made for action to be taken by the Shire.
4. The Committee request the City of Swan be contacted to enquire as to available information regarding any redevelopment proposals for the former Swan Districts Hospital.

Motion

Request that Council request the Chief Executive Officer contact the City of Swan requesting information on any proposals for the redevelopment of the site previously housing the Swan Districts Hospital and in particular if consideration would be given to aged care.

Moved: Malcolm Roberts
Seconded: Iris Jones
Vote: Carried (8/0)

5. The Committee enquired as to any action taken to investigate the reserve land in Forrestfield.

Motion

Request that Council request the Chief Executive Officer instigate a process to investigate the use of the reserve land at Cambridge Road Reserve – York Street in Forrestfield for the purpose of an Aged Care development.

26. Synthetic Bowling Green Replacement – Kalamunda Club Inc.

Previous Items	OCM 34/2016
Responsible Officer	Director Corporate & Community Services
Service Area	Community Development
File Reference	
Applicant	Kalamunda Club Inc.
Owner	N/A

PURPOSE

1. To consider a renewed funding proposal from the Kalamunda Club Inc. (the Club) for replacement of a synthetic bowling green surface.

BACKGROUND

2. The following Council resolution was carried at the Ordinary Council Meeting held in March 2016.

That Council:

1. *Endorses a Community Sport and Recreation Facilities Fund Small Grant application from the Kalamunda Club Inc. towards a proposed replacement synthetic surface for Green A at the Kalamunda Club.*
2. *Following the success of the Community Sport and Recreation Facilities Funding the cost contribution will be:*

<i>Organisation</i>	<i>Contributions ex GST</i>
<i>CSRFF</i>	<i>\$66,531</i>
<i>Shire of Kalamunda</i>	<i>\$66,531</i>
<i>Kalamunda Club Inc.</i>	<i>\$66,533</i>
<i>Total Project Cost</i>	<i>\$199,595</i>

3. *Notes in the event of a successful Community Sport and Recreation Facilities Fund application, an amount of \$66,531 will be considered as part of the 2016/17 annual budget deliberation process.*
4. *Notes that the project will not proceed until the Clubs funds have been received and a financial agreement has been entered into stipulating responsibilities of both parties; and*
5. *That any variations to the final contract sum shall be the responsibility of the Kalamunda Club Inc.*

3. The Shire of Kalamunda submitted an application for the complete replacement of the synthetic surface to one of the two Bowling Greens at the club. It was proposed the project be managed by the Shire of Kalamunda, working in conjunction with the Club's project committee.
4. The aim of the project is to replace the current failed synthetic surface and sub base on Green A, with a new surface allowing the Club to better provide for their membership and also the wider bowls community.
5. The main reasons why the current surface has failed is due to UV stabilisation breakdown on the stretched surface causing the surface to tear, and the contractors who installed the current surface believed the existing sub base and drainage would be satisfactory. This has since proven not to be the case, as the surface water does not drain away quickly enough and the sub moisture has damaged the underfelt.
6. The Shire and the Club have recently been advised the Community Sport and Recreation Facilities Fund (CSRFF) grant application was unsuccessful, due to the Department of Sport and Recreation (DSR) only having \$500,000 available in the Small Grants program and the DSR had previously supported this Club with synthetic surface installation funding in 2007.

DETAILS

7. The Club have now reconsidered its position and as this project is seen as vital to the long term survival of the Club. They have offered to fund two thirds of the costs required to complete the project, with the remaining one third (\$66,531) to be funded by the Shire as originally intended within the 2016/2017 budget.
8. The latest project cost information provided by the Club now includes a 5% contingency and additional plant and equipment requirements, such as a sprinkler system and replacement of the synthetic grass apron. This now brings the total project costs to \$240,138.
9. The sprinkler system was not included in the original grant application in order to keep the total project cost under the \$200,000 threshold for CSRFF small grants. A sprinkler system is beneficial on sand filled greens to help compact the sand before some of the higher level competition games.
10. The Club are now requesting the Shire to continue its funding support by confirming its one third contribution towards the project will be retained in the 2016/2017 budget. They are also seeking advice as to who will manage the project.

STATUTORY AND LEGAL CONSIDERATIONS

POLICY CONSIDERATIONS

COMMUNITY ENGAGEMENT REQUIREMENTS

13. Nil.

FINANCIAL CONSIDERATION

14. The Shire of Kalamunda's contribution towards the proposed project is currently included within the 2016/2017 CAPEX Budget. The adjusted funding proposal as submitted by the Club would see the project funded in the following manner.

Organisation	Contributions ex GST
Shire of Kalamunda	\$66,531
Kalamunda Club Inc.	\$173,607
Total Project	\$240,138

The Club intends to fund their contribution by way of existing sinking funds and savings accounts of \$140,000 and a member's loan of \$35,000.

15. Any financial agreement to be entered into with the Club will include a clause making the Club fully responsible for any variation to costs incurred over and above the total contract sum. The agreement will also include payment milestones and require performance standards for the workmanship to be met before the Shire's payment is made.

STRATEGIC COMMUNITY PLAN

Strategic Planning Alignment

16. *Kalamunda Advancing: Strategic Community Plan to 2023*

OBJECTIVE 1.9 - To provide high quality community facilities to meet the needs of our current and our future community.

SUSTAINABILITY

Social Implications

17. The provision of high quality community sport and recreation facilities is essential in fostering a positive sense of community health and wellbeing.

Economic Implications

18. Nil.

Environmental Implications

19. Nil.

RISK MANAGEMENT CONSIDERATIONS

20.

Risk	Likelihood	Consequence	Rating	Action/Strategy
That the new surface does not meet performance standard and fails again.	Unlikely	Major	Medium	The Club to have a design brief and technical specifications prepared and carry out a thorough due diligence on synthetic green products. The project team to closely monitor the quality of the appointed contractor's workmanship.
Project is not completed in a timely manner.	Possible	Minor	Medium	Project is managed and monitored within stipulated timelines.
That the Club do not cover their full contribution towards the project.	Unlikely	Minor	Low	A financial agreement will be entered into with the Club to ensure the responsibilities of both parties is clearly understood.

OFFICER COMMENT

21. The Club received CSRFF funding in 2007 to replace the two natural turf greens with synthetic surfaces. This project was completed in Winter 2009. The surface of Green A has since deteriorated to the point where it requires replacing.
22. The failure of the surface has seen the Club limited in its ability to host pennant competitions as one rink failed to meet the standard required by Bowls WA. This has also seen the Club limited in the competitions it can offer to the wider community.
23. As the green continues to deteriorate the total failure of the surface will impact on the Club's ability to serve the wider community through its school programs, its popular corporate bowls competitions and the local members.
24. The Club has set aside sufficient funds to replace this green at the normal end of life for such a surface, which is estimated to be between 10 to 12 years. However, the sooner than expected deterioration of this green has brought forward this replacement program.
25. The DSR expect clubs will set aside sufficient funds to cover this replacement cost over the expected life of the surface. They are considered a low priority for CSRFF funding, as once established, surface replacements do not increase participation in sport and recreation.

-
26. The second synthetic green was laid at the same time as Green A (2009) and will shortly need replacing. However, all the Club's sinking funds will be used for replacement of Green A. Therefore, it is unlikely that the Club will have sufficient funds for the future works.
 27. The Club has an existing Self Supporting Loan with the Shire expiring in 2019 and will need to consider its future funding strategy agreement with the Shire in order to replace this green.
 28. The Club's sustainability is heavily dependent upon their facilities and ability to attract members to their club. With the Stirk Park Master Plan consultation process underway, there is an opportunity to investigate long term options for the Club so that future sustainability can be assured.
 29. With this in mind, there presents an opportunity to look at the best long term location for the Club, therefore it may be appropriate to commence investigations into whether Stirk Park is the best location for the Club, or would a more modern co-location facility be in the best interest of the Club and the community in the future.
 30. The Club have expressed the need to have the green replaced prior to the next pennant bowls season commencing towards the end of October 2016. The works take approximately three to four weeks to complete, therefore would need to commence no later than early October to meet this timeframe.
 31. If the project was to commence later than this, then the Club would have to go through the process of contracting Bowls WA to gain approval to reschedule all home games while the works are carried out. This would affect the Club's revenue, as home games attract a large number of players.
 32. The Club have expressed a desire to manage the procurement process and supervise the works to minimise the project timeframe. The Shire supports the project being managed by the Club, subject to the following conditions:
 - a) The Club to provide a design brief and site specific technical specifications for the project.
 - b) The above documents to be signed off by the project tem prior to the Club seeking quotes from various suppliers.
 - c) After selection of the preferred supplier, the project team to approve the contract document.
 - d) An appropriately experienced member of the project tem is to supervise the project and sign off on the works before contract payments are made.
 33. If the Shire was to undertake the design, develop specifications and call tenders, followed by tender evaluation and consideration of tender award, it would mean that the Club's timelines would not be achieved.
 34. Officers believe that a more collaborative approach to managing this project can result in both parties achieving their objectives.
-

Voting Requirements: Simple Majority

OFFICER RECOMMENDATION (C&C 26/2016)

That Council:

1. Notes that the Kalamunda Club Inc. was unsuccessful in receiving a Community Sporting and Recreation Facilities Fund grant for the replacement of the synthetic surface for Green A.
2. Supports the adjusted funding proposal as submitted by the Kalamunda Club Inc. for the replacement of the synthetic surface for Green A.

Organisation	Contributions ex GST
Shire of Kalamunda	\$66,531
Kalamunda Club Inc.	\$173,607
Total Project	\$240,138

3. Requests the Chief Executive Officer to develop a MOU and financial agreement between the Shire of Kalamunda and the Kalamunda Club Inc. stipulating the responsibilities of both parties in relation to funding and oversight of the project.
4. Notes that any variation to costs incurred over and above the total contract sum shall be the responsibility of the Kalamunda Club Inc.
5. Notes that the Kalamunda Club Inc. and the Shire of Kalamunda will jointly manage the project by establishing a project tem comprising of representatives from Kalamunda Club Inc. and Shire of Kalamunda officers.
6. Notes that the methodology for delivery of the project will include:
 - a) The Club to provide a design brief and site specific technical specifications for the project.
 - b) The above documents to be signed off by the project tem prior to the Club seeking quotes from various suppliers.
 - c) After selection of the preferred supplier, the project team to approve the contract document.
 - d) An appropriately experienced member of the project tem is to supervise the project and sign off on the works before contract payments are made.
7. Requests the Chief Executive Officer to undertake consultation with the Kalamunda Club Inc. on their long term future.

6.0 CORRESPONDENCE

Scott Reserve Pavilion – External Security Lights

Letter to User groups from Shire of Kalamunda Manager of Financial Services. Letter details position of Shire of Kalamunda in regards to the recent installation of a sub meter at the pavilion for the external security lights and the costs associated with the lighting. Shire of Kalamunda will assume all costs moving forward, however, no retrospective concessions will be made. This issue was discussed at item 8.1.

7.0 ITEMS FOR COMMITTEE CONSIDERATION

7.1 Dogs On Reserves

User groups are still concerned with the amount of people walking dogs on the reserve both during the week and the weekend. Despite the patrols that take place and the campaigns that are run by the Shire, it appears that the message is not getting through. User groups noted that at weekends both their own club members as well as visiting club members bring dogs to the reserves and are concerned that as Rangers are "On Call" only at weekends, the opportunity to educate or fine the offenders may be missed.

Cr O'Connor suggested that perhaps rolling patrols could be scheduled over weekends of all sporting reserves, this would however be costly and would have to be presented to Council for consideration.

Manager Infrastructure Services has been approached to review and update all signage on Sporting reserves regarding the walking of dogs, as current signage is inadequate and ineffective.

Current Council Policy advocates education first over fines, however, the Committee would like Rangers to consider strategies that they may put in place to assist with alleviating the problem on weekends.

COMMITTEE RECOMMENDATION:

That comment and suggestions be sought from Ranger Services regarding strategies that the Shire can employ, in partnership with the user groups, to help alleviate the ongoing problem with dog owners utilising sporting reserves.

Moved: **Dylan O'Connor**

Seconded: **Neil Worsley**

Vote: **Carried (5/0)**

OFFICER ACTION

RSO to provide A3 size posters regarding "Dog Exercise Areas" to all user groups to place in prominent positions around the Pavilion.

COMMITTEE ACTION

The user groups to continue to advertise that Scott Reserve as a "Dog Prohibited Area" throughout websites and signage around, and within, the Pavilion.

7.2 Playground Shade

An item regarding the provision of shade for the Playground at Scott Reserve is being considered as part of the 2016/17 budget process

OFFICER ACTION

Nil

7.3 Bins on Scott Reserve

User groups are seeking to increase the number of bin locations around the reserve to assist with the amount of rubbish that gets left on the ground after weekend matches and during the week.

Waste Management Services have offered to increase the number of bins at the current locations by adding a recycling bin to the pole. User groups feel that the current locations are too far apart, and whilst appreciating the proposal to provide the additional bins, feel that the problem would be better solved by increasing the amount of locations of bins at the ground.

OFFICER ACTION

RSO to provide a map of the reserve to the Committee so that both current and proposed extra locations can be marked, and a proposal provided to Waste Management.

7.4 Season Start/End

RSO will remain in contact with all user groups regarding season start and end dates to allow any proposed or required remediation work to take place without any major disruption to clubs.

OFFICER ACTION

RSO to email seasonal users regarding finals in mid-July.

7.5 Car Park Changes

The Committee noted that the recent work to remark the car park bays and re-position the Handicap bays was very successful and the Shire Officer who liaised with the groups had been both professional and efficient. The committee further noted that a concrete ramp now needs to be constructed at the entry way to the reserve for ambulance access.

OFFICER ACTION

RSO to email map to user groups to mark where ramp is to go and send onto Shire Engineering department for consideration.

7.6 Protector Poles for Water Mains Junction

A protector hoop has been installed over the top of the Water Mains junction to eliminate the risk of drivers parking on the junction boxes.

7.7 Scott Reserve Turf Maintenance Program

Football clubs are rotating training areas to assist with the continued improvement to the surface at Scott Reserve. User groups noted that the work of the maintenance team was to be commended ~~with particular mention to Murray Spackman and Noel for their efforts at the reserve.~~

User groups did advise that there were still some areas of dampness behind the goals and at the 50m mark that will require some attention.

OFFICER ACTION

RSO to raise an ICS regarding the areas of the reserve where the drainage is still poor.

7.8 **Capital Budget Requests 2016/17 Financial Year – Scott Reserve**

CRS updated Committee on current items relevant to Scott Reserve that have been put forward for budget consideration within the 2016/17 Budget.

- Playground Shade Sail
- Replacement of the nets around the practice cricket nets nearest to the club rooms
- Hot water system

OFFICER ACTION

RSO to follow up on status of items following Councils adoption of the 2016/2017 Budget and provide feedback to Committee members.

7.9 **Clubs 4 Life and Grants Update**

1. Safe Clubs 4 Kids Workshop – RSO advised Committee of success of recent workshop delivered by WA Sports Federation and Department of Sport and Recreation that was delivered on 04 May 2016. The workshop was attended by 27 members of local sporting clubs and community groups and assisted clubs with strategies to deliver a safe environment for their junior membership.
2. Free First Aid Workshops – Shire of Kalamunda are delivering two basic first aid workshops to local community and sporting groups. The first took place on the 18 May 2016 at Hartfield Park and the second is to be held at the Shire offices on the 15 June 2016. Workshops are designed to be a refresher for participants and managers and coaches are encouraged to attend.
3. RSO advised the committee of the Club Subsidy Scheme that the Department of Sport and Recreation recently re-opened. The \$500 Club Equipment Subsidy Scheme now allows former recipients to become eligible to re-apply. The current round closed on the 13 May 2016.
4. Local Sporting Champions – RSO advised the Committee of the federally funded grant opportunity for athletes selected to represent their state or other approved competitions. The grant is for an amount of up to \$500 towards travel, accommodation and other expenses associated with selection. The first round closes on the 30 June 2016 and a link to the application can be found on the Shire website under the External Grants section.

8.0 URGENT BUSINESS WITH THE APPROVAL OF THE PRESIDING MEMBER

8.1 Junior Football Goal Posts

HWJFC advised the Committee that the new goal posts and sleeves that have been fabricated for the club are slightly bigger than the original posts and the club has had to have new protector pads fabricated for the posts. HWJFC thanked the Shire for the poles and made particular reference to the work ~~Neel has done to get them installed.~~

8.2 **Friday Night Matches**

HWJFC noted that Senator Glen Sterle had recently visited the club and discussed the decline in youths playing football, in particular the Year 10 – 12 age groups. HWJFC discussed the possibility of commencing Friday night matches at the club to allow the older age groups to still play and have the ability to work or enjoy their weekends. Senator Sterle commented that there was a possibility of Federal funding to install new lights for the ground to ensure that competition standard is achieved.

HWJFC wanted advice from the Shire on the process to commence installation of new lights at the ground. What matters had to be considered, for instance would residents around the ground be affected by higher poles?

HWJFC advised the Shire of the following items that require attention:

- Meter box closest to the car park requires a lock
- Security lights around the building need checking as one of them is not working.

OFFICER ACTION

RSO to send through all necessary advice regarding lighting upgrades to the club.

RSO to raise ICS for the lock and the security lights.

8.3 **Maintenance Items**

HWAFC club advised the Shire of the following item that requires attention:

- Wooden bench to front of club rooms has been vandalised with some of the wooden panels removed.

OFFICER ACTION

RSO to raise ICS for repair of bench.

8.4 **Donation of Hire Fees**

HWAFC thanked the Shire for their recent donation of free use of the High Wycombe Recreation Centre for their club Gala Ball to raise funds for Breast Cancer. Steel Blue have also come on board as a sponsor for the 02 July 2016 event and Glen Jakovich was the guest speaker. The club hopes to raise \$10,000 for the cause.

EPS noted that they were not using the HWRC this year due to the increased cost to the school for hire of the facility. The school had a reduced budget to work with and have decided to hold the graduation in the schools under cover area.

OFFICER ACTION

RSO to investigate the quoted cost and report back to the Committee.

8.5 HWCC Turf Maintenance MOU

HWCC requested that the information regarding the MOU for turf maintenance for Scott Reserve Cricket Wickets be re-sent so that the costs can be provided as requested by the Shire.

OFFICER ACTION

RSO to resend all relevant information to HWCC.

8.6 Security Lighting Sub Meter

HWCC advised the Committee that a recent Electricity bill for the amount of \$875 as sent to the club was still outstanding.

The Club are querying the amount with the Shire as the amount includes charges for security lighting which the user groups had requested be separated through installation of a sub meter.

A sub meter is now in place, however the charges have been applied retrospectively when user groups believe that a request for the sub meter was made during the lease negotiations and do not believe they should be paying retrospective costs for the exterior security lights.

OFFICER ACTION

RSO to search minutes of previous Scott Reserve Advisory Committee minutes to find when original request for the sub meter was made.
