	<p>east to the break in the median strip. This area is consistent with the original strip of planting.</p> <p>The trees are 15m apart and were roughly planted in pairs on either side of the original alignment of Welshpool Road East.</p> <p>The trees are in good health, and considered to mostly be the same age although self-seeded plants are likely to have occurred. Visually, the trees are all approximately the same size with spreading canopies over the southern portion of Welshpool Road East.</p> <p>Together the trees form a substantial avenue for cars travelling west along Welshpool Road East, lining the road for a distance of approximately 330 m.</p>
Method of Construction:	N/A
Condition:	Generally good
HISTORICAL	
<p>The settlement of the City of Kalamunda was small and scattered until the 1890s when a railway line was established and the area became a popular holiday and market garden area with small communities dotted along the railway line.</p> <p>In the new century the Kalamunda area continued to develop into a popular tourism destination, and residential area for weekend living. The flat lands at the base of the Darling Range were still largely used for agriculture and the small farming community at Wattle Grove formed a Progress Association in 1912. This group was active in representations to the Darling Roads Board, the preceding organisation of the current City of Kalamunda. The goals of the organisation as stated in <i>The West Australian</i>, 2 August 1912, p.3, were:</p> <ol style="list-style-type: none"> a) The speedy completion of Welshpool Road b) The construction of feeder roads c) The establishment of a school d) The commencement of a bi-weekly postal service e) The construction of a meeting hall f) Promotion of the district. <p>Throughout the 1920s and 1930s infrastructure such as electricity and transport networks were further developed to throughout the Kalamunda district.</p> <p>In the post war period, Wattle Grove remained largely rural but underwent modest subdivision and development. At this time Welshpool Road extended in a straight alignment from Welshpool to the small cluster of orchards at the base of the foothills near Lesmurdie.</p> <p>In 1954, land was resumed adjacent to Welshpool Road at the Canning end of Welshpool Road to service a new railway depot and direct heavy vehicles away from local traffic. Land was also resumed to improve the roads leading to tourist destinations such as the nearby Lesmurdie Falls.</p> <p>A deviation along the Wattle Grove section of Welshpool Road was planned in 1956. In August 1958, land was resumed by Main Roads for this purpose, with the new road route published in January 1959 and formally declared in October the same year. The new deviation was named Welshpool Road East, with the remaining original section of Welshpool Road renamed Crystal Brook Road. At this time a line of Lemon Scented Gums (<i>Corymbia citriodora</i>) was planted by Main Roads along either side of the road reserve. Aerial imagery in 1965 shows the trees were planted about 15m apart and in pairs on either side of the road. Although not conclusive this imagery indicates the original planting consisted of 22 trees on the northern side of the road (now the median strip) and 15 on the southern side of the road.</p> <p>Street trees in urban areas had been planted from early on in the colony's development with a preference for exotic trees in the 19th century. Over time, there was a general shift towards the propagation and planting of</p>

Municipal Inventory

more native species. After WWI, the demand for Australian and native species increased, and the State Nursery at Hamel provided these and other species for rural and ornamental uses, with continued distribution to government bodies, including the Railways, Municipalities and Roads Boards, and the Zoological Gardens. This trend continued after WWII, and the by this time eucalypts constituted the majority of trees distributed by the Hamel Nursery.

Main Roads Western Australia had been in the practise of conserving trees within road reserves since 1949, and in 1953 road reserves were expanded to better allow the government body to engage in such conservation and revegetation. By the mid-1950s this had become a policy of actively planting trees in road reserves to better promote road verges. Don Aitken, Commissioner of Main Roads at this time, was a noted member of the Tree Society, which in 1961 had written to Main Roads to suggest that a 'Tree Expert' be appointed to the department to assist in the planting of trees in median strips. Conversations between the Tree Society and Main Roads at this time focussed on tree planting on median strips along Canning Highway and within Guildford. By 1968, Main Roads had formally appointed a horticultural officer to manage strip plantings.

The planting of the avenue of Lemon Scented Gums, Wattle Grove is reputed to have been instigated by Patrick Moran, the Secretary of the Darling Range Road Board and later the Shire of Kalamunda, to provide an entry statement into the hills region and provide refuge for local wildlife. No further specific information has been found on the Darling Range Road Board's role in this specific group of trees, however it is known that the Board was in the practice of planting exotic tree species along town streets during the inter-war period, switching to Australian native species in the 1970s.

It has also been suggested that the planting of the lemon scented gums was linked to notable town planner and architect Margaret Feilman, who is associated with a number of culturally significant urban landscapes in the state, however research by the State Heritage Office has not been able to substantiate this connection.

Sometime between 1985 and 1995, Welshpool Road East was duplicated when an eastbound carriageway was constructed to the north of the original road, which then became the westbound carriageway. The lemon scented gums that had formed the northern half of the original avenue were retained in the median strip between the two carriageways.

In November 2016, the City of Kalamunda approved the construction of a Place of Worship at Lot 36 (831) Welshpool Road East, Wattle Grove. As part of the development, access to the site required the construction of road modifications which required the felling of up to 13 trees, including several mature Lemon Scented Gums. Significant community opposition was expressed to the City of Kalamunda over the proposed felling of the trees and alternate methods of accessing the site were considered in April 2018, which resulted in Council approving an amendment to the development approval and a requirement for the removal of one (1) tree, which was not a mature Lemon Scented Gum

Expressions of the community concern over the issue included a community meeting, petition of approximately 10,000 signatures, a Facebook page which has 1500 followers, several items in the local press and a fundraising campaign. A feature of the commentary by the community has been the role of the trees as an entry statement to the City of Kalamunda.

The Avenue of Lemon Scented Gums, Wattle Grove was referred to the State Heritage Office for assessment in November 2017 and was considered below threshold for inclusion on the State Register of Heritage Places.

Theme:	Transport and communications: Road transport Social and Civic Activities: Environmental Awareness

SIGNIFICANCE

Level of Integrity:	High
Level of Authenticity:	High
Level of Significance:	Some/moderate

City of Kalamunda
Municipal Inventory

Statement of Significance:

The following statement is based on the State Heritage Office Assessment documentation prepared in 2017.

Avenue of Lemon Scented Gums, Wattle Grove, consisting of two linear plantings of Lemon Scented Gums (*Corymbia citriodora*) lining the southern carriageway of Welshpool Road East for a distance of approximately 450m, east from the junction with Lewis Road, with one line of approximately 18 trees along the median strip and another line of trees of 18 trees along the southern road reserve, has cultural heritage significance for the following reasons:

- the place is a visually pleasing vista of Eucalypts along Welshpool Road East, which contributes to the community's sense of place.
- the place is associated with the post-WWII practice of Main Roads of planting trees in roadside verges and median strips, which was influenced by the Tree Society of Western Australia.

Management Category:

3
Contributes to the heritage of the locality. Has some altered or modified elements, not necessarily detracting from the overall significance of the item.

Conservation of the place is desirable.
Any alterations or extensions should reinforce the significance of the place, and original fabric should be retained wherever feasible

[Policy Number]: Heritage Area - Welshpool Road East - Avenue of Lemon Scented Gums	
Management Procedure	Relevant Delegation

Purpose

1. Background and Introduction

The City of Kalamunda Local Planning Strategy 2010 (LPS) (adopted by the Western Australian Planning Commission in February 2013) recognises the importance of heritage and the need to ensure that heritage features and characteristics are protected and preserved. Strategies of the LPS include the preparation of policy to specify guidelines and incentives for development of places of heritage significance.

The Welshpool Road East Avenue of Lemon Scented Gums Heritage Area is significant as an avenue of trees planted by Main Roads following the realignment of Welshpool Road East from the current location of Crystal Brook Road to its new location in circa 1959. The trees consist of two lines lining the southern carriageway Welshpool Road East in Wattle Grove for a distance of approximately 450 metres, with one line of approximately 18 trees along the median strip and another line of 18 trees along the southern road verge (Refer to Appendix 1). The place has cultural heritage significance for the following reasons:

- the place is a visually pleasing vista of Eucalypts along Welshpool Road East, which contributes to the community's sense of place.
- the place is associated with the post-WWII practice of Main Roads of planting trees in roadside verges and median strips, which was influenced by the Tree Society of Western Australia.

The Welshpool Road East Avenue of Lemon Scented Gums Heritage Area is designated under the Heritage Protection provisions of the City of Kalamunda Local Planning Scheme No. 3. A statement of heritage significance is recorded in the City's Municipal Heritage Inventory (see copy in Appendix 2).

This policy:

- provides development and design guidance for development within the area; and
- details the procedures for making applications for development approval within the area.

2. Application of Policy

This policy applies to all land within the Welshpool Road East Avenue of Lemon Scented Gums Heritage Area. The extent of the area is shown in the map at Appendix 1.

3. Statutory Authority / Legal Status

This Policy has been prepared under and in accordance with Schedule 2 of the *Planning and Development (Local Planning Scheme) Regulations 2015*.

4. Objectives

The objectives of the policy are to outline special planning control to:

- conserve and protect the cultural heritage significance of the Welshpool Road East Avenue of Lemon Scented Gums Heritage Area;
- ensure that any proposed subdivision or development will not adversely affect the area's heritage significance; and
- provide improved certainty to landowners and community about the planning processes for development within and adjacent to the area.

Policy Statement

5. Matters to be considered

In considering any development or subdivision applications in relation to a place located within a Heritage Area, in addition to the matters listed in Schedule 2, Part 9, Clause 67 of the *Planning and Development (Local Planning Scheme) Regulations 2015*, the City will apply and have regard to:

- the matters set out in section 6.5 of the State Planning Policy 3.5 Historic Heritage Conservation;
- the development control principles set out in sections 6.5 and 6.6 of the State Planning Policy 3.5 Historic Heritage Conservation;
- the design guidelines set out below; and
- the structural condition of a contributory place, and whether a place is reasonably capable of conservation.

6. Requirement for Development Approval

Development approval is required for any development within, or involves vehicle access arrangements through, the heritage area identified in Appendix 1.

7. Retention of Lemon Scented Gums

Any development or subdivision proposal should be designed wherever feasible to ensure the retention and protection of Lemon Scented Gum trees within the heritage area identified in Appendix 1.

8. Information Requirements for Applications for Development and Subdivision Approval

The City may require an applicant to provide one or more of the following to assist in the determination of its application. This is additional to the requirement for accompanying material set out in Schedule 2 of the *Planning and Development (Local Planning Scheme) Regulations 2015* and clause 20 (b)(ii) of the *Planning and Development Regulations 2009*.

6.1 Site Survey

The City will require a site feature survey identifying all trees adjacent to the boundary of the proposed development or subdivision site. The survey should contain the location, height, species, trunk diameter at breast height, canopy diameter and existing ground level adjacent to all trees identified.

6.2 Heritage Impact Statement

The City may require a heritage impact statement addressing the following:

- a) How will the proposed works affect the significance of the place and area?
- b) What alternatives have been considered to ameliorate any adverse impacts?
- c) Will the proposal result in any heritage conservation benefits that might offset any adverse impacts?

6.3 Arborist Assessment

The City may require a suitably qualified Arborist to identify and assess the impact of a proposed development or subdivision on a tree identified within the heritage area and make recommendations before works commence, during works and after works have been completed.

6.4 Archival Record

If a proposal results in the removal of any trees deemed to have cultural heritage significance within the heritage area, the City may require the applicant as a condition of approval to submit an archival record of the place, prior to the commencement of development. The archival record is to be in accordance with the State Heritage Office's standard for archival recording.

DRAFT

Working with Western Australians to recognise, conserve, adapt and celebrate our State's unique cultural heritage

20 December 2017

YOUR REF	
OUR REF	P25917
ENQUIRIES	Moss Wilson/6551 8002

Ms Rhonda Hardy
Chief Executive Officer
City of Kalamunda
PO Box 42
KALAMUNDA, WA 6926

Dear Ms Hardy

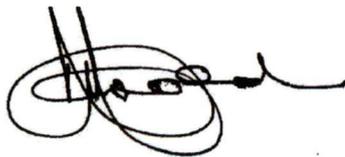

P25917 Avenue of Lemon Scented Gums, Wattle Grove
Portion of Welshpool Road Reserve

Further to our previous correspondence and discussions this letter is to advise you that, after careful consideration of the evidence available, the Heritage Council resolved at its meeting on 8 December 2017, that *Avenue of Lemon Scented Gums, Wattle Grove*, does not have sufficient cultural heritage significance at the State level for inclusion in the State Register of Heritage Places.

The Heritage Council would like to stress that its decision has no bearing on the status of the place in relation to your Local Government Inventory of Heritage Places.

I enclose a copy of the assessment documentation for your information.

Yours sincerely

Anne Arnold
Chair

1. **DATA BASE No.** 25917
2. **NAME** *Avenue of Lemon Scented Gums, Wattle Grove*
3. **LOCATION** Welshpool Road East, Wattle Grove (median strip and southern carriageway east of Lewis Rd along the northern boundary of 831 (Lot 36) and 855 (Lot 38) Welshpool Rd, Wattle Grove.
4. **DESCRIPTION OF PLACE INCLUDED IN THIS ENTRY**
Portion of Welshpool Rd East Road Reserve as shown on HC Curtilage Map P25917-A
5. **LOCAL GOVERNMENT AREA** City of Kalamunda
6. **CURRENT OWNER**
State of Western Australia (Responsible Agency: Department of Planning, Lands and Heritage, Statutory Authority: City of Kalamunda)
7. **HERITAGE LISTINGS**
 - Register of Heritage Places: Below Threshold: 08/12/2017
 - National Trust Classification: -----
 - Town Planning Scheme: -----
 - Municipal Inventory: -----
 - Register of the National Estate: -----
8. **ORDERS UNDER SECTION 38 OR 59 OF THE ACT**

9. **HERITAGE AGREEMENT**

10. **STATEMENT OF SIGNIFICANCE**
Avenue of Lemon Scented Gums, Wattle Grove, consisting of two lines of Lemon Scented Gums (*Corymbia citriodora*) lining the southern carriageway of Welshpool Road East for a distance of 330m, with one line of approximately 17 trees along the median strip and another line of trees of 18 trees along the southern road reserve, has cultural heritage significance for the following reasons:

the place is a visually pleasing vista of Eucalypts along Welshpool Road East, which contributes to the community's sense of place.

the place is associated with the post-WWII practice of Main Roads of planting trees in roadside verges and median strips, which was influenced by the Tree Society of Western Australia.

11. ASSESSMENT OF CULTURAL HERITAGE SIGNIFICANCE

The criteria adopted by the Heritage Council in November 1996 have been used to determine the cultural heritage significance of the place.

PRINCIPAL AUSTRALIAN HISTORIC THEME(S)

- 4.1 Planning urban settlements

HERITAGE COUNCIL OF WESTERN AUSTRALIA THEME(S)

- 203 Road Transport
- 409 Environmental awareness

11.1 AESTHETIC VALUE*

Avenue of Lemon Scented Gums, Wattle Grove makes a contribution to the aesthetic values of Welshpool Road East through the visual impact of the two lines of trees, which form part of the vista of the local area. (Criterion 1.3)

11.2 HISTORIC VALUE

Avenue of Lemon Scented Gums, Wattle Grove is associated with the development of road networks within the Darling Range area, which expanded in the post-war period as the area became a desirable residential area. (Criterion 2.2)

Avenue of Lemon Scented Gums, Wattle Grove is associated with the post-WWII practise by Main Roads of planting trees on road verges and median strips, which was influenced by the work of the Tree Society. (Criterion 2.3)

Avenue of Lemon Scented Gums, Wattle Grove is associated with Darling Range Roads Board secretary Patrick Moran, who wished the avenue of trees to form an entry statement into the hills area. (Criterion 2.3)

11.3 SCIENTIFIC VALUE

11.4 SOCIAL VALUE

Avenue of Lemon Scented Gums, Wattle Grove is valued by the community for its aesthetic values and for contributing to the community's sense of place. (Criterion 4.1, Criterion 4.2)

12. DEGREE OF SIGNIFICANCE**12.1 RARITY**

* For consistency, all references to architectural style are taken from Apperly, R., Irving, R., Reynolds, P. *A Pictorial Guide to Identifying Australian Architecture. Styles and Terms from 1788 to the Present*, Angus and Robertson, North Ryde, 1989.

For consistency, all references to garden and landscape types and styles are taken from Ramsay, J. *Parks, Gardens and Special Trees: A Classification and Assessment Method for the Register of the National Estate*, Australian Government Publishing Service, Canberra, 1991, with additional reference to Richards, O. *Theoretical Framework for Designed Landscapes in WA*, unpublished report, 1997.

12. 2 REPRESENTATIVENESS

Avenue of Lemon Scented Gums, Wattle Grove is representative of the post-WWII practise of Main Roads of planting trees on roadside verges or in median strips. (Criterion 6.1)

12. 3 CONDITION

Avenue of Lemon Scented Gums, Wattle Grove is in good condition.

12. 4 INTEGRITY

Avenue of Lemon Scented Gums, Wattle Grove has high integrity, as the intent of the trees as a visually pleasing vista readily apparent.

12. 5 AUTHENTICITY

Avenue of Lemon Scented Gums, Wattle Grove has high authenticity, with no replacements to the trees planted in 1961.

13. SUPPORTING EVIDENCE

The documentation for this place is based on the heritage assessment completed by the Department of Planning, Lands and Heritage, in November 2017, with amendments and/or additions by the Department of Planning, Lands and Heritage and the Heritage Council.

13.1 DOCUMENTARY EVIDENCE

Avenue of Lemon Scented Gums, Wattle Grove, consisting of two lines of Lemon Scented Gums (*Corymbia citriodora*) lining the southern (west bound) carriageway of Welshpool Road East for a distance of 330m, with one line of approximately 17 trees along the median strip and another line of trees of 18 trees along the southern road reserve. The place demonstrates the development of conservation practices by Main Roads and local government authorities.

Following the establishment of the Swan River Colony, land in the Darling Ranges was not taken up until the 1860s, and it was 1873 before the first permanent settler built a dwelling on his land. The thickly wooded and rocky terrain of the area discouraged earlier settlement, despite its proximity to Perth. The first settlers ran sheep, with vegetable gardens, orchards and strawberry cultivation being established in the well-watered areas. A number of small communities developed, among them Kalamunda.¹

The settlement of the area was given a boost in 1891 by the establishment of a railway line, and the area became a popular holiday and market garden area. The small communities dotted along the railway line continued to develop until the town site of Kalamunda was proclaimed in 1901.²

In the new century the area continued to develop into a popular tourism destination and residential area for weekend living. Throughout the 1920s and 1930s infrastructure such as electricity and transport networks were further developed to support the growing community.³ Road projects during the post war period in the area of *Avenue of Lemon Scented Gums, Wattle Grove* included proposed land resumptions for adjustments to nearby Welshpool Road in 1954, and proposed adjustments to the Canning end of Welshpool Road to service a new railway depot and relieve heavy vehicles from local traffic, as well as improvements to roads leading to tourist destinations such as the nearby Lesmurdie Falls in 1960.⁴

A deviation along the Wattle Grove section of Welshpool Road was planned in 1956, connected to the previous road works attempting to provide better access to the tourist area of Lesmurdie Hill, as well as attempting to improve the road alignment of the area. In August 1958, land was resumed by Main Roads for this purpose, with the new road route then published in January 1959 and the road

⁴ *Welshpool Road Kalamunda Shire Council. Land & Property resumption*, SRO file AU WA 5635- cons1542 1954/0566; *Kalamunda Shire Council – roads to Tourist Spots [incl. plans/maps, graphs]*, SRO file AU WA 5635- cons1692 1960/0799; *Canning & Kalamunda Shire Council, Welshpool Road No. 2012 [incl. maps/plans/sketches/drawing]*, AU WA 5635- cons1692 1959/0870

formally declared in October the same year.⁵ The new deviation was named Welshpool Road East, with the remaining original section of Welshpool Road renamed Crystal Brook Road.⁶ At this time a line of Lemon Scented Gums (*Corymbia citriodora*) was planted by Main Roads along either side of the road reserve. Aerial imagery shows the trees were planted about 15m apart and in pairs on either side of the road.⁷

Street trees in urban areas had been planted from early on in the colony's development. In 1896, a temporary State Nursery was established in Guildford to provide stock to the Woods and Forests Department for commercial timber plantations. The majority of the species being grown at this time were exotic. After numerous applications were made for trees for planting in streets and parks in various towns, and applications from the Education Department for trees to be planted on Arbor Day, surplus tree stock was approved for supply to others. The population increase and suburban expansion in the late 1890s saw demand for functional and ornamental trees increase, and the nursery relocated to Hamel in 1897.⁸

Over time, there was a general shift towards the propagation and planting of more native species. After WWI, the demand for Australian and native species increased, and *Hamel Nursery* provided these and other species for rural and ornamental uses, with continued distribution to government bodies, including the Railways, Municipalities and Roads Boards, and the Zoological Gardens.⁹ This trend continued after WWII, and the by this time eucalypts constituted the majority of trees distributed by *Hamel Nursery*.¹⁰

The wet conditions at Hamel were not conducive for growing trees for low rainfall areas, so in 1947 the Forests Department established a nursery in Kalgoorlie, which was subsequently relocated to Dryandra. The focus at Dryandra was mostly species indigenous to Western Australia, with *Hamel Nursery* continuing to raise species from overseas and from the eastern states.¹¹ Among the 'historic' mature trees at Hamel Nursery is a large Lemon Scented Gum (*Corymbia citriodora*).¹² The use of Lemon Scented Gums as street plantings was a popular choice in Western Australia, the eastern coast tree valued for its straight pale trunks and majestic aesthetic qualities when mature. A notable Western Australian example is the avenue of interlocking Lemon Scented gums along Fraser Avenue in King's Park.¹³

Main Roads Western Australia had been in practise of conserving trees within road reserves since 1949, and in 1953 road reserves were expanded to better allow the government body to engage in such conservation and revegetation. By the mid-1950s this had become a policy of actively planting trees in road reserves to better promote road verges. Don Aitken, Commissioner of Main Roads at this time, was a noted member of the Tree Society, which in 1961 had written to Main Roads to suggest that a 'Tree Expert' be appointed to the department to assist in the planting of trees in median strips. Conversations between the Tree Society and Main Roads at this time focussed on tree planting on median strips along Canning Highway and within Guildford. By 1968 Main Roads had formally appointed a horticultural officer to manage strip plantings.¹⁴

The planting of *Avenue of Lemon Scented Gums, Wattle Grove* is reputed to have been instigated by Patrick Moran, the Secretary of the Darling Range Road Board and later the Shire of Kalamunda, to provide an entry statement into the hills region and provide refuge for local wildlife.¹⁵ No further specific information has been found on the Darling Range Road Board's role in this specific group of trees, however it is known that the Board was in the practice of planting exotic tree species along town streets during the inter-war period, switching to Australian native species in the 1970s.¹⁶

It has also been suggested that the planting of the lemon scented gums was linked to notable town planner and architect Margaret Feilman, who is associated with a number of culturally significant urban landscapes in the state, in particular the townsite of Kwinana and P17306 Medina Townsite.

None of the files researched in the Margaret Feilman papers,¹⁷ or in the State Records Office¹⁸ refer to roadside plantings in the area, nor specifically the creation

of *Avenue of Lemon Scented Gums, Wattle Grove*. Nor was there any mention of an association between the construction of Welshpool Road East and Margret Feliman. It has therefore not been possible to substantiate this connection.

Sometime between 1985 and 1995, Welshpool Road East was duplicated when an eastbound carriageway was constructed to the north of the original road, which then became the westbound carriageway. The lemon scented gums that had formed the northern half of the original avenue were retained in the median strip between the two carriageways.

In November 2016, the City of Kalamunda approved the removal of up to 13 of the *Avenue of Lemon Scented Gums, Wattle Grove* in accordance with safety requirement to create a new slip road and access point from Welshpool Road East as part of the development of a place of worship on an adjacent site. An assessment of the trees by arboriculture company ArborLogic and an assessment by officers of the Shire of Kalamunda did not identify any trees of significance.¹⁹

13.2 PHYSICAL EVIDENCE

Avenue of Lemon Scented Gums, Wattle Grove consists of two lines of Lemon Scented Gums (*Corymbia citriodora*) lining the southern (westbound) carriageway of Welshpool Road East for a distance of 330m, with one line of approximately 17 trees along the median strip and another line of trees of 18 trees along the southern road reserve.

The trees are 15m apart and were roughly planted in pairs on either side of the original alignment of Welshpool Road East.

The trees are in good health, and considered to mostly be the same age. Visually, the trees are all approximately the same size with spreading canopies over the southern portion of Welshpool Road East.

Visually, the trees form a substantial avenue for cars travelling west along Welshpool Road East, lining the road for a distance of approximately 330 m.

13.3 COMPARATIVE INFORMATION

Significant Trees

A search of the State Heritage database for place type "Tree" returns 303 places, of which 4 places are listed on the State Register of Heritage Places (RHP). This search was augmented by including all places with the word "Tree" in their name, which returns 411 places, of which 20 places are listed on RHP. The trees identified in these searches are associated with historic events, historic families or are significant trees within the landscape of historic places. The most comparable to *Avenue of Lemon Scented Gums, Wattle Grove* includes:

- P294 *Old Police Lockup & Boab Tree* (RHP): located in Broome, this tree was planted by local police officer Herbert Thomas to honour the birth of his son.

Society – General [info on Tree Society, Brochures, Membership applications, letters of concern re: veldt grass etc.], SRO file AU WA 5635- cons1692 1958/0509.

¹⁹ City of Kalamunda, Development and Infrastructure Committee Meeting 14 November 2016, pp. 36-77

- P344 *Leschenault Homestead* (RHP): located in Bunbury, the historic gardens of this place contain exotic trees that are significant in demonstrating the development of the place.
- P381 *Forrest Homestead* (RHP): located in Bunbury, the nine (now six) historic olive trees of this farm were planted by William Forrest in honour of his nine children, which included explorers and statesmen Alexander and John Forrest.
- P841 *Proclamation Tree and Marmion Memorial* (RHP): located in Fremantle, this Moreton Bay Fig tree was planted in 1890 to commemorate the granting of responsible government to the colony of Western Australia.
- P1227 *Irwin Roads Board Office (fmr)* (RHP): located in Irwin, the two Moreton Bay Fig trees were planted in 1906 and represent an early example of organised town beautification.
- P1947 *Supreme Court Buildings and Gardens, Old Court House, Stirling Gardens* (RHP): located in Perth, the exotic trees of the place were designed by the State Gardens Board and contain a number of rare species.
- P4367 *Moreton Terrace & Point Leander Drive Fig Trees* (RHP): located in Dongara, this group of trees was planted in 1906 and represent an early example of organised town beautification.
- P5012 *Donnybrook Railway Precinct* (RHP): located in Donnybrook, this place includes an English Oak that was planted c.1893 as a visual link drawing together the Station master's House and the Railway Station.
- P9009 *Jarrah Tree, Armadale* (RHP): located in Armadale, this Eucalyptus Tree is a rare environmental remnant from before colonisation within the metropolitan area and through its later association with the Armadale Primary School is highly valued by the local community.
- P18402 *Esperance RSL Building, Norfolk Island Pine Trees and War Memorial* (RHP): located in Esperance, this place includes a row of Norfolk Island Pine Trees, which are an early example of the use of this species for town beautification before the species was popularised after 1898.
- P25111 *Boundary Tree, Locations 4 and 5, Baskerville* (RHP): located in Upper Swan, this Eucalyptus is a rare remnant of the practice by British surveyors marking our land grants using carved trees. The place is associated with Captain James Stirling and Surveyor General John Septimus Roe.

A place identified in the documentary evidence as supplying roadside plantings for developments such as *Avenue of Lemon Scented Gums, Wattle Grove* is P3084 *Hamel Nursery* (RHP). A search of the State Heritage database for places with the word "Nursery" in their name returns 13 places, of which two are listed on the RHP, including P3084 *Hamel Nursery* (RHP). However, all of the other places are not comparable as they represent small, private commercial ventures that were unlikely to supply public projects such as the planting of *Avenue of Lemon Scented Gums, Wattle Grove*.

Another search of the State Heritage database for the use "Park/Reserve" returns 621 places where trees are part of the fabric of the place, and of this group 37 are

listed on the State Register of Heritage Places (RHP). These places include groups of trees associated with environmental development or groups of trees within historically significant areas. The most comparable places to *Avenue of Lemon Scented Gums, Wattle Grove* include:

- P3277 *Araluen Botanic Park* (RHP): located in Roleystone, this recreation bushland reserve includes both natural and exotic groups of trees, and is associated with recreational camping.
- P4151 *Yanchep National Park Precinct* (RHP): located in Yanchep, this area includes natural bushland, caves as well as gardens and built structures, and is a noted historic recreation area.
- P4572 *Queen's Gardens* (RHP): located in East Perth, this public park is a finely designed garden in the Paradise/Oasis style, including both natural and exotic plantings. The place is a significant public recreation area.
- P4634 *Hyde Park* (RHP): located in Highgate, this public park is a highly valued garden in the Arcadian style, including exotic and natural and exotic groups of trees. The place is a significant recreation area and is associated with Aboriginal use of the place before settlement.
- P8561 *John Forrest National Park* (RHP): located in Greenmount, this bushland park includes a number of historic structures and is noted as the first national park created in the state.
- P8705 *Robertson Park and Archaeological Sites* (RHP): located in Vincent, this public park has been designed in the Inter-War City Beautiful style, and contains both natural and exotic trees, as well as a range of historic structures and remnants demonstrating the changing use of the area.

Most of the trees included in the Register are associated with significant buildings and other structures. Where trees are the dominant feature of a place, they are a distinctive, notable or excellent example of their type, or have strong associations with significant historic figures or activities.

Patrick Moran

A search of the State Heritage database for places associated with Patrick Moran returns no results, however it is known that Mr Moran has been commemorated in the City of Kalamunda through the Pat Moran Pavillion, which is used by local sporting clubs. However as a long standing Roads Board official, Mr Moran would have been associated with other places in the local area.

Roadside Tree Planting

There is no data readily available on the extent and current status of roadside tree plantings undertaken by Main Roads since WWII. In view of how widespread this practice was, from a comparative sense, it can be considered as a common occurrence.

P-DEV 20: Outbuildings and Sea Containers

Management Procedure	Relevant Delegation
-----------------------------	----------------------------

Adopted	27 February 2018	Next Review Date	
----------------	------------------	-------------------------	--

Purpose

1.1 Statutory Requirements

This policy is prepared under and in accordance with Schedule 2 of the Planning Regulations (Local Planning Schemes) 2015 (The Regulations) and Part 7 of the Residential Design Codes (R Codes) State Planning Policy 3.1 (SPP3.1).

a) Relationship to Local Planning Scheme No.3

This policy is a local planning policy prepared, and adopted pursuant to Part 2 of Local Planning Scheme No.3. (The Scheme) The policy augments and is to be read in conjunction with the provisions of the Scheme relating to development.

If there is a conflict between this local planning policy and the Scheme, then the Scheme shall prevail.

a) Relationship to other state planning/ development control policies.

This policy has due regard to, and should be read in conjunction with state planning policies. Of particular relevance to this policy are:

- i. State Planning Policy 1 – State Planning Framework.
- ii. State Planning Policy 3.1 – Residential Design Codes
- iii. State Planning Policy 3.7 – Planning in Bushfire Prone Areas.
- iv. State Planning Policy – Liveable Neighbourhoods
- v. State Planning Policy 2.2 – Residential Subdivision

Applications that seek to development vary the requirements of Residential Design Codes or the Local Planning Scheme No.3 will require an application to commence development through council's Approval Services department (Planning)

1.2 Purpose

It is recognised that outbuildings are a necessary component to meet the domestic storage needs of residential and rural properties. However, there is a need to ensure that outbuildings are sensitively located, constructed to a high design quality, and appropriately scaled so as to protect the amenity of the locality. The policy also recognises the size of outbuildings in the various zoned land in the City can vary due to the prevailing lot sizes.

The purpose of this policy is to provide guidance on development of outbuildings and sea containers within the following zones:

- Residential;
- Residential Bushland; (R5, R2.5);
- Special Rural;
- Rural Agriculture;
- Rural Composite;
- Rural Landscape Interest; and
- Rural Conservation.

Properties zoned Residential R2.5, R5 and R10 are classified as Residential zones under the LPS No. 3 and State Planning Policy 3.1 – Residential Design Codes (R-Codes). However due to the larger lot sizes within these zones, larger maximum floor area, wall height and roof height criteria compared to properties zoned Residential R12.5 and above can be considered.

Notwithstanding the above, applications for variations to maximum floor space and height in other zones may also be considered subject to Clause 3.8 Variations to the Policy.

1.3 Objectives

The primary objectives of this policy are to:

- a) Ensure the amenity of the locality and streetscape is preserved through orderly planning of any development of outbuildings, detached garages including sheds, rainwater tanks and sea containers within the City of Kalamunda.
- b) To ensure that outbuildings are of an appropriate scale and form in the context of the size of the lot, location of the outbuilding, environmental characteristics of the area, and existing buildings on the site.
- c) Facilitate the intended use of the outbuilding while not creating an adverse impact to the surrounding landowners.
- d) To give due consideration for proposals incorporating outbuildings, detached garages and sea containers where there are legitimate constraints on the subject lot; and
- e) To establish clear guidelines for the placement, streetscape consideration and aesthetics of sea containers.

Policy Statement

2.1 Policy Provisions

Applications for development approval will be assessed against the prescribed setback, floor area, height requirements, design outcomes, and recommended materials set out in Tables 1 and 2 of this policy.

2.2 Matters to be Considered

The following matters will be given consideration in the assessment of applications for outbuildings, detached garages and sea containers:

- a) Any relevant matters set out in Clause 67 of the Planning Regulations (Local Planning Schemes) 2015 (the Regulations) and the objectives of the zone;
- b) The impact of the proposed outbuilding(s), and sea containers on the amenity and character of residential and rural areas, as viewed from a street, public space or neighbouring property;
- c) Whether any significant trees or other vegetation should be preserved;
- d) The preservation of areas of useable on-site open space;
- e) Any special limitation on the development of the land by virtue of its size, shape or environmental/geographical feature;
- f) Whether the property is located within a Bushfire Prone Area;
- g) Whether the proposed use of the outbuilding and use class of the lot warrants a size that exceeds the recommended total floor area and height that is prescribed under Table 1;
- h) Whether support for the development application will set an undesirable precedent for similar sized surrounding lots;
- i) Comments received from affected adjacent property owners/occupiers, where advertising is required in accordance with Council's Policy P-Dev. 45 Public Notification of Planning Proposals;
- j) Access to the outbuilding for normal use, including the need for access ways (driveways) and the drainage of the surrounding area and access way;
- k) Services, electricity, effluent disposal, gas and water supply; and
- l) Justification from the applicant in respect to proposed variations to this policy.

Development requirements

3.1 Location of Outbuildings

An outbuilding in the Residential or Residential Bushland zones, will not be permitted within the designated primary or secondary street setback areas.

3.2 Setback Requirements

Where the lot is not subject to a specific building envelope, all development shall be subject to the prescribed building setback requirements of the R-Codes for residential zones and the scheme for all other zones.

3.3 Operation

Outbuildings that comply with the criteria specified in Tables 1 and 2 corresponding to the applicable zone are considered to meet the design principles of the R-Codes and/or development requirements and objectives of the scheme and will be, be supported without advertising to neighbours for comment.

3.4 Floor Area and Height Requirements

All outbuildings shall comply with the recommended maximum outbuilding floor area, aggregate floor area, building height and design outcomes stipulated under Table 1 of this policy unless otherwise stipulated in the R Codes (where applicable) or the Scheme.

3.5 Access

Suitable access is to be provided for the operation of the outbuilding. Access ways for vehicles, if required, are to be constructed and drained to a minimum standard as specified in the by the City's Asset Services Department.

[Note some outbuildings won't have or need vehicle access for normal operation]

3.6 Outbuildings and Sea Containers located in Bushfire Prone Area

Where an outbuilding or sea container is located on a property located in a Bushfire Prone Area, the provisions of State Planning Policy 3.7 shall apply.

Where an outbuilding or sea container is located within 6 metres of an existing dwelling or habitable building and/or cost of development exceeds \$20,000, the applicant must provide a Bushfire Attack Level Assessment (BAL) and comply with the requirements of that assessment.

Planning Bulletin 111/2016 published by the Western Australian Planning Commission (WAPC) is referenced. Reference is to be made to the latest version of the Planning Bulletin.

3.7 Variations to the Policy

Any variation to development requirements of Tables 1 and 2 will require the applicant to provide additional justification including the following detail:

- a) Demonstrate how the proposal will not adversely affect adjoining property owners. Applicants should provide further information such as written non-objections from neighbours as well as photographs as viewed from neighbouring properties (where applicable)

- b) Demonstrate that the streetscape or the amenity of the locality will not be negatively impacted, having consideration for and reference to Clause 2.2 – 'Matters to be Considered' of this policy.
- c) Demonstrate how potential negative visual impacts can be ameliorated. This may include:
 - Provision of vegetative screening which will be planted and maintained to the satisfaction of the City.
 - Colour and Materials matching the existing buildings or dwellings on-site

Please note that the City may undertake consultation with adjoining affected property owners/occupiers during assessment where it is deemed applicable in accordance with Council's Policy P-Dev. 45, Public notification of planning proposals.

Where applicants are seeking to provide vegetative screening to ameliorate visual impact, the applicant shall provide the appropriate screening species and submit such details with the application to commence development.

Where an application seeks to vary policy provisions and a neighbour objection is received, a proposal may require referral to Council for determination.

Table 1 - Floor Area, Height and Design Outcomes - Outbuildings

Zoning	Column A - Maximum Floor Area *		Column B - Recommended Maximum Height (Measured from the Natural Ground Level) *		Column C Setback Requirements	Column D- Acceptable Design Outcomes
	Individual Outbuilding	Maximum Aggregate Floor Area	Wall (metres)	Roof Ridge Height** (Metres)		
Residential ≥R12.5					As per the R-Codes (as amended).	
Residential R10			3.0m	4.2m	As per the R-Codes (as amended).	<ul style="list-style-type: none"> Compliant with R-Codes setback requirements. Meet the construction requirements of AS3959-2009 Construction of buildings. (Where located in a bushfire prone area) Will not reduce areas of open space below the deemed-to-comply requirements of the R-Codes. Outbuilding(s) located behind the main dwelling alignment and not directly visible from a street or public space. Are not located within an area where there is historical evidence of flood waters reaching high levels. Does not result in the excessive or unnecessary removal of vegetation. Where tree removal is required, the applicant will be required to plant established trees in replacement at the discretion of the City's Environmental Services Department. The proposed colours and materials are consistent with the criteria set out in in Table 2 of this policy. Will not unduly impact on the amenity of an adjoining property owner/occupier Street setbacks will not be varied unless an established pattern of setback non-compliance can be demonstrated. Where side and/or rear setback variations are sought the applicant shall demonstrate that there will not be a visual impact on adjoining properties, this may be mitigated via vegetative screening.

* Consideration may be given to a variation to the outbuilding area and height provided the applicant can demonstrate to the satisfaction of the City that the use of the outbuilding and use class of the lot (i.e. a non-domestic land use) warrants a size beyond the recommended total floor area and height that is prescribed under this policy.

** Consideration may be given to a proposed roof ridge height above what is prescribed in Table 1 if PVP (Solar) Panels are proposed.

Table 2 - Materials and Finishes, Outbuildings

	Preferred	Discretion required	Unacceptable
Materials	<ul style="list-style-type: none"> • Powder Coated Steel/Colorbond. • Straw bale. • Masonry (brick, rendered brick, stone, and rendered or painted concrete). • Timber. • Weatherboard. • Rammed Earth. • Lightweight materials with a rendered or painted finish. 	<ul style="list-style-type: none"> • Reflective – E.g. Zinalume 	<ul style="list-style-type: none"> • Second hand materials.
Colours	<ul style="list-style-type: none"> • Earth tones and/or complementary colours to the main building and surrounding vegetation. 	<ul style="list-style-type: none"> • A colour which is similar to the main dwelling but not complimentary to the subject lots locality. 	<ul style="list-style-type: none"> • Uncharacteristic or bright colours. • Contrasting colours to the main dwelling and surrounding landscape.

Sea Containers

- 4.1 The placement of a sea container does not require planning approval if the sea container is situated on private property for no longer than 48 hours. Planning approval is to be obtained from the City if it is to remain on the property for a longer period of time.
- 4.2 A maximum of one (1) sea container is permitted if it is used during the construction of an approved building for a maximum period of 6 months. The sea container must be removed within 48 hours of the building's completion.
- 4.3 On Residential zoned lots, a maximum of one (1) sea container is permitted only if being used by removalists and/or those residing on the property where it is to be located, for the purpose of moving domestic items to/from the property.
- 4.4 On Rural and non-residential zoned lots, the placement of no greater than one (1) sea container to be used for non-habitable purposes only and which meets the setback requirements stipulated within Table 2 of the City's LPS No. 3 shall not require planning approval providing the sea container is modified in accordance with Clause 4.6(b) & (c). *(A Building licence may be required depending on the extent of works proposed)*
- 4.5 Where a sea container is placed on a site for the purposes outlined in Clauses 4.1, 4.2, 4.3 and 4.4 of this policy, the sea container shall be located behind the front setback line or building line whichever is greater.
- 4.6 Where a sea container is proposed to be placed permanently on a site, the following modifications will be required:
- a) The exterior façade of the sea container shall be upgraded in accordance with provisions of Clause 4.7 of this policy.
 - b) Permanent ventilation being provided by either openable windows or a roof vent.
 - c) Where visible from the street, public spaces or a neighbouring property the applicant shall provide a vegetated screen between the lot boundary and the proposed location of the sea container. Where required, the number and species of plants will form part of a condition of planning approval.
- 4.7 The placement and use of sea containers, except as provided for by Clause 4.1, 4.2 and 4.3 of this policy will not be permitted unless it can be demonstrated that the location of the sea container is screened from the road and neighbouring property and the exterior appearance of the sea container will be upgraded to be complementary with the surrounding development or landscape and incorporate modifications detailed in Clause 4.6. Upgrading will include:
- Façade of sea container to be externally clad with timber, weatherboard or steel sheeting (Colorbond) or a material approved by the City and shall be of a colour which blends and matches the existing dwelling / buildings or surrounding landscape of the lot.
- 4.8 Notwithstanding, clause 4.4 of this Policy, on Rural zoned lots, the number of sea containers proposed will be assessed on the individual merits of the proposal, having regard to Tables 1 and 2 of this Policy, and matters outlined in Clause 67 of the Regulations.

Definitions

"Dwelling Alignment" – for the purpose of this policy means the closest point of the dwelling to the primary or secondary street boundary.

"Floor Area" - For the purpose of this policy means the area of an outbuilding floor including the area of any internal and external walls.

"Maximum Aggregate Floor Area"- for the purpose of this policy means the gross total floor area of all floors of all outbuildings, including the area of any internal and external walls.

"Outbuilding" – has the same meaning as the R-Codes (as amended): an enclosed non-habitable structure that is detached from any dwelling.

"Primary Street" – has the same meaning as the R-Codes (as amended): Unless otherwise designated by the local government, the sole or principal public road that provides access to the major entry (front door), to the dwelling.

"Residential Design Codes" - means State Planning Policy 3.1 – Residential Design Codes (as amended), published by the Department of Planning on behalf of the Western Australian Planning commission.

"Roof Ridge Height" – for the purpose of this policy means the highest point of a pitched roof measured above the finished ground level immediately below.

"Sea Container" – means a metal transportable structure designed for the storage and transport of goods from one location to another by road, rail and sea or modified for temporary and permanent use on land, where the structural integrity remains intact.

"Secondary Street" – has the same meaning as the R-Codes (as amended): In the case of a site that has access from more than one public road, a road that is not the primary street but which intersects with or adjoins that road.

"Setback" - has the same meaning as the R-Codes (as amended): The horizontal distance between a wall at any point and an adjacent lot boundary, measured at right angles (90 degrees), to the boundary.

"Wall" - has the same meaning as the R-Codes (as amended): The vertical external face of a constructed building comprising solid building material and includes enclosures to verandahs and balconies.

Planning Policy P-DEV 60 - Design Advisory Committees			
Management Procedure		Relevant Delegation	
Adopted	OCM 24 July 2017	Next Review Date	October 2020

Purpose

1. Background and Introduction

Development Advisory Committees (DAC) have been seen to function as providing effective independent critiques of development design. The review process is also held with considerable regard to decision making forums such as the State Administrative Tribunal (SAT) and the State Government's Development Assessment Panels (DAP). The City of Kalamunda is increasingly required to consider complex and significant planning proposals with multiple major design considerations. DAC's will allow additional independent review of the design aspects of planning proposals, and will add value to the successful delivery of developments within the City boundaries.

The City's Local Planning Scheme No.3 (the Scheme) provides for the statutory basis for establishing Design Advisory Committees (DAC) and provides the City with the ability to refer planning proposals to the DAC for independent assessment and recommendation on design aspects of the proposal. This policy is intended to provide guidance relating to the implementation of DAC's in the City of Kalamunda.

2. Application of Policy

This Policy applies throughout the City of Kalamunda to all planning proposals which are deemed to be 'Significant Proposals' as defined in Clause 6 of this Policy (Matters Required to be Referred to the Design Advisory Committee).

3. Statutory Authority / Legal Status

This Policy has been prepared under, and in accordance with, Schedule 2 of the Planning and Development (Local Planning Scheme) Regulations 2015 (the Regulations).

(a) Relationship to Local Planning Scheme No.3

This Policy is a planning policy prepared, advertised and adopted pursuant to Part 2 of the Scheme. The Policy augments, and is to be read in conjunction with, the provisions of the Scheme relating to development.

If there is a conflict between this Policy and the Scheme, then the Scheme shall prevail.

(b) Relationship to other state planning/development control policies.

This policy has due regard to, and should be read in conjunction with, State Planning Policies. Of particular relevance to this policy are:

- i. State Planning Policy 1 – State Planning Framework.
- ii. State Planning Policy 3.1 – Residential Design Codes.
- iii. State Planning Policy 3.7 – Planning in Bushfire Prone Areas
- iv. State Planning Policy 4.2 – Activity Centres for Perth and Peel
- v. State Planning Policy 5.1 – Land Use Planning in the Vicinity of Perth Airport
- vi. Draft State Planning Policy 7 – Design of the Built Environment
- vii. State Planning Policy - Liveable Neighbourhoods
- viii. State Planning Policy 2.2 – Residential Subdivision

4. Policy Objectives

The primary objectives of this Policy are:

- a) To outline the types of development proposals that will be referred to the DAC;
- b) To detail the terms of reference of the DAC;
- c) To outline the roles and responsibilities of the members of the DAC and the City;
- d) To detail the information required to be provided to enable the DAC to consider a planning proposal; and
- e) To detail the procedure for holding DAC meetings, and the preparation and distribution of agendas and minutes.

Policy Statement

5. Terms of Reference

5.1 Role of the DAC

The role of the DAC is to provide formal technical and professional advice and recommendations to the City and Councillors on significant planning proposals. The DAC is advisory in nature only and will not make determinations on development applications or any other proposals.

The DAC shall only deal with matters that have been referred to them by the Director of Development Services or authorised officer, or through a resolution of the Council.

Individual members of the DAC shall not provide advice directly to an applicant, owner, or Council member in respect to any item under consideration at a DAC meeting. Other than the authorised City officer, the DAC Chair is the only person who should speak on behalf of the DAC should clarification regarding previous DAC recommendations or advice be sought.

5.2 Matters to be Considered

The DAC shall take into account matters including, but not limited to:

- i. The provisions of the United Kingdom's Centre for Architecture and the Built Environment's (CABE) principles of good design;
- ii. The Draft WA Design Guidelines or any future WAPC derivatives of that document;
- iii. The relevant statutory planning and policy framework relating to the planning proposal;
- iv. The architectural quality of the design, including its relationship with adjoining or nearby developments;
- v. The impact of, and relationship with, a proposal on the streetscape on surrounding properties;
- vi. The impact of the proposal on the character of the area, including consideration of significant cultural and natural features and landmarks;
- vii. The extent to which the proposal addresses environmental sustainability principles;
- viii. The extent to which the proposal addresses crime prevention principles; and
- ix. Any heritage considerations.

5.3 City Support

The City's Director of Development Services or another delegated officer shall be responsible for:

- i. Arranging for administrative support of the DAC, including the preparation and distribution of the agenda, notice of meeting and business papers, recording of the minutes, arranging the meeting venue and coordination of presentations;
- ii. Contacting an alternative DAC member if a DAC member is unavailable for the scheduled meeting; and
- iii. Arranging the tabling of the DAC minutes at a following Council meeting.

5.4 Membership and Qualification

The DAC Panel will be established comprising up to five (5) community representatives and/or technical experts who, in the opinion of the City, have the relevant knowledge, experience, or expertise to give fair, reasoned, and non-biased advice on the matters referred to the DAC.

Members of the DAC should have appropriate contemporary experience and qualifications in one or more of the following areas:

- i. Architecture
- ii. Urban Design
- iii. Heritage
- iv. Heritage Issues and Urban Conservation
- v. Energy Efficient Building Design and Sustainable Development

Preference will be given to candidates that demonstrate the required experience and qualifications that also have local knowledge. Current registration with their relevant professional body is highly desirable.

Elected members or employees of the City of Kalamunda cannot be appointed to sit as members of the DAC.

5.5 Appointment and Resignation/Termination of Members

(a) Expressions of Interest

The Chief Executive Officer (CEO) shall call for public nominations to the DAC. The CEO shall at the first opportunity elect the five members comprising a Chairperson, Deputy Chair, and three (3) members of the panel, plus two (2) alternate members, from amongst those nominees determined to be most suitable.

Expressions of Interest for DAC members should include a brief professional profile addressing the following selection criteria:

- i. Appropriate qualifications and demonstrated expertise in architectural design, landscape architecture or urban design, or other professional area if required;
- ii. Ability to work in a multi-disciplinary team;
- iii. Demonstrated expertise in design review, design critique or the provision of strategic advice on design quality issues;
- iv. Knowledge or understanding of the State's Planning Framework, relevant City policies and development controls and design issues in the local area;
- v. Skills and experience in analysis and application of local planning strategies and policies;
- vi. Ability to analyse, evaluate and offer objective and constructive feedback on complex design quality issues in design review, for evaluation of complex development applications and on strategic planning matters; and
- vii. Good written and verbal communication to ensure that advice provided to proponents is clear and concise.

The term of office for any member of the DAC shall be for a period of five (5) years. Members can apply for reappointment at the end of this period.

(b) Resignation

A DAC member who resigns at any time during their term of appointment is required to give their notice in writing to the CEO.

(c) Termination

Should a member fail to attend three (3) consecutive meetings of the DAC without being granted a Leave of Absence by the DAC his/her appointment shall be automatically terminated. The CEO will notify any member, in writing, when their membership of the DAC is terminated. Members taking leave of absence for a

period are requested to notify the CEO and any notified leave of absence will be recorded in the minutes of a DAC meeting held during that period

In addition to the above, the CEO may terminate the appointment of any member prior to the expiry of his/her term, if

- i. The CEO, on advice from the elected Chair and/or the Director of Development Services, considers that the member is not making a positive contribution to the DAC; or
- ii. The member is found to be in breach of the City of Kalamunda's Code of Conduct or in serious contravention of the *Local Government Act 1995*; or
- iii. A member's conduct, actions, or comments brings the City of Kalamunda into disrepute

(d) Vacancies

Where a vacancy occurs details of eligible persons from the previous expressions of interest to serve as a member of the DAC shall be presented to the CEO for selection and approval. Should this process fail to determine a new member then the vacancy will be publicly advertised calling for expressions of interest. The term of appointment for any new member of the DAC shall be for the remaining period of the member vacating the DAC position

5.6 Role of the Chair

The role of the DAC Chair is to:

- i. To assist in the preparation of, and endorse, the DAC agenda;
- ii. Liaise with the Director of Development Services, or authorised officer, regarding the operation of the DAC;
- iii. Chair the DAC and facilitate discussion and the formation of a consensus view of the matters required to be considered by the committee;
- iv. Review and endorse the agreed minutes; and,
- v. Attend and present at Council meetings, Joint Development Assessment Panel meetings and/or SAT as requested by the Director of Development Services, or authorised officer

5.7 Code of Conduct

Each member of the DAC is required to observe the City of Kalamunda's Code of Conduct. All members are expected to act in a responsible and professional manner with the information that they obtain through their role as a member of the DAC.

All members are encouraged to express their opinions and views without fear of reproach. It is therefore important that all members respect each other (often despite differences) and work together to create an open and trusting atmosphere.

Members are expected to accept collective responsibility for, and remain loyal to, the decisions of the DAC. This is to be upheld at all times, even when the member may not have agreed with the final decision reached by the DAC.

5.8 Confidentiality and Privacy

Members of the DAC may have contact with confidential or personal information retained by Council or presented to them in a DAC meeting. If so, members are required to maintain the security of any confidential or personal information and will not be permitted to access, use, divulge, or remove any information, unless that member is specifically authorised to do so by written instruction from the Council, the CEO, or the Director of Development Services.

5.9 Operational Funding and Remuneration

The City's operational budget allocates funds for engaging members of the DAC. Members of the DAC will be remunerated on the basis of an hourly sitting fee for attendance at the scheduled meetings, up to a maximum of three (3) hours, or for a longer period as resolved by the DAC and agreed by the Director of Development Services. In addition, the member can claim up to one (1) hour outside of the meeting for review of any item scheduled to be presented to the DAC. The sitting fee shall be determined by the Council and is to be reviewed in conjunction with the annual review of the City's Schedule of Fees and Charges.

If the Chair of the DAC is required to appear on the City's behalf as an expert witness at the State Administrative Tribunal, or assist in the presentation of the City's recommendation to a Development Assessment Panel the member is to be paid at the rate adopted in the City's Schedule of Fees and Charges.

The Chair of the DAC shall be paid an additional hour (at the hourly rate) to compensate for their additional responsibilities that includes writing the recommendation of the DAC, and the review and endorsement of the draft DAC minutes.

6. Matters to be Referred to the Design Advisory Committee

6.1 Development Proposals

6.1.1 Pre Lodgement of Application to Commence Development

The City encourages prospective applicants seeking development approval to liaise with the City during the formulation of a proposal and prior to the formal lodgement of the development application.

If a proposal is deemed a "significant proposal" (see 6.2 below) the City will advise the proponent that the matter will be referred to a meeting of the DAC for their review and advice prior to formal lodgement of an application. This will provide the proponent an opportunity to adjust the proposal prior to lodgement should that be considered appropriate

6.1.2 Post Lodgement of Applications to Commence Development

A development application which is considered to be a "significant proposal" (see 6.2 below) will be referred to the DAC for their review and advice.

6.2 Significant Proposal

Any development that meets one or more of the following criteria is deemed a 'Significant Proposal' and is required to be referred to the DAC for review:

- i. Multiple dwelling, commercial, or mixed use development that has an estimated development value of \$2 million or greater;
- ii. Development which is ten (10) metres high or greater;
- iii. Development that comprises more than ten (10) dwellings;
- iv. Commercial development directly abutting land that is zoned residential;
- v. Developments that in the opinion of the City will have a significant impact upon the significance of a Heritage Place;
- vi. Development, not of the kind referred to in the above points, but which, in the opinion of the Director of Development Services or other authorised officer, is:
 - a. Of a complex or contentious nature;
 - b. Likely to be of a significant interest to the community;
 - c. Involves unusual or unconventional design elements; or
 - d. Is likely to benefit from referral to the DAC; and
 - e. Is located on a prominent or significant site where it is likely to impact on the amenity of the locality and/or streetscape.

The Director of Development Services or the Manager Approval Services may refer an application to the DAC, regardless of whether the application is to be determined by the Council, the JDAP, or by the City under delegated authority.

6.3 Other Planning Matters for Referral

The Director of Development Services, or authorised officer, may refer other planning matters to the DAC where it is considered that the City will benefit from their input, as follows:

- i. Proposed planning or design studies including planning strategies, policies, precinct plans, design guidelines, or amendments to the City's Local Planning Scheme; or
- ii. Any other matter relating to, but not limited to, the design of buildings or places or any issues relating to environmentally suitable design.

6.4 Timing

The DAC will be convened in a timely manner to expedite the consideration of the proposal, depending on the availability of the members and the completeness of the material to be considered (see 7.0 below). Some matters may need to be referred to the DAC on more than one occasion.

The convening of a DAC will generally require a minimum lead period of 10 days.

Referral of lodged Development Applications to the DAC is likely to extend the overall assessment period of the proposal.

7. Information Required to be Provided by the Applicant

In accordance with Clause 63 of the Planning and Development (Local Planning Scheme) Regulations 2015, should it be determined that an application for development is required to be tabled at a DAC meeting, the applicant will be advised that it is preferable the application be considered by the DAC before acceptance by the City for formal assessment.

While it is highly desirable that proposals are referred to the DAC prior to formal lodgement they will be afforded the same degree of consideration whether pre or post formal lodgement with the City.

7.1 DAC Pre Lodgement of Application to Commence Development

If a pre-lodgement referral is accepted by the applicant prior to a formal lodgement of a development application, then unless otherwise waived by the City, the applicant is required to submit the following information for assessment review by the DAC as prescribed under the Scheme, Policy Regulations, and/or Residential Design Codes.

This includes, but is not limited to:

- i. A general statement addressing the urban design context of the proposal in relation to the location, the street, and the site;
- ii. Preliminary sketch plans and elevation drawings that are legible and to scale, and include appropriate details including, but not limited to, dimensions, a north point, and site and finished floor levels, or floor levels relative to the street, the ground level of the site, and the surrounding built form;
- iii. A schedule of proposed materials and colours to be used;
- iv. Supporting documentation, such as 3D images or perspective drawings and reports/certifications addressing discretionary matters (if available);
- v. Statements addressing how the development achieves the relevant design principles listed in Clause 9 of this policy (Format for DAC Review Advice); and
- vi. A statement on how the DAC's previous comments have been addressed (for applications undergoing further review).

7.2 DAC Post Lodgement of Application to Commence Development

An application to Commence Development of a deemed "significant proposal" will be referred to the DAC for consideration and advice in the event that the pre-lodgement process has not been undertaken. The applicant is required to submit the following information for an assessment review by the DAC as prescribed under the Scheme, Policy Regulations, and/or Residential Design Codes:

- i. A general statement addressing the urban design context of the proposal in relation to the location, the street, and the site;
- ii. Detailed plans and elevation drawings that are legible and to scale, and include appropriate details including, but not limited to, dimensions, a north point, and site and finished floor levels, or floor levels relative to the street, the ground level of the site, and the surrounding built form;
- iii. A schedule of proposed materials and colours to be used;
- iv. Supporting documentation, such as 3D images or perspective drawings and reports/certifications addressing discretionary matters (if available);
- v. Statements addressing how the development achieves the relevant design principles listed in Part 9 of this policy (Format for DAC Review Advice);
- vi. A statement on how the DAC's previous comments have been addressed (for applications undergoing further review); and
- vii. Payment of the requisite fees and charges related to the application.

8. Presentation to the Design Advisory Committee

In a maximum ten (10) minute presentation (unless an alternative is agreed upon by the DAC Chair) the applicant is to present plans and relevant information for the proposal, including:

- i. The aspirations of the project, as well as a contextual understanding of the site and how the project sits within, and relates to, its surroundings; and

- ii. How the development addresses the design principles as outlined in Clause 9 a). of this policy (Format for DAC Design Review Advice) and the relevant development requirements, including any variations to the 'deemed-to-comply' provisions and how they impact on, or contribute to, the desired design outcome.

9. Format for DAC Design Review Advice

The summary of a design review and the recommendations of the DAC are to be provided to the applicant in written format within fourteen (14) working days of the date of the DAC meeting. These reviews are to have regard to the following:

a) Design Principles;

- i. Character – a place with its own identity.
- ii. Continuity and enclosure – where public and private spaces are clearly distinguished,
- iii. Quality of public realm – a place with attractive and well-used outdoor areas,
- iv. Ease of movement – a place that is easy to get to and move through,
- v. Legibility – a place that is easy to navigate,
- vi. Adaptability – a place that can change easily,
- vii. Diversity – a place with variety and choice,
- viii. Response to site and context,
- ix. Overall design quality and functionality,
- x. Appropriateness of materials and finishes,
- xi. Resource efficiency,
- xii. Public art (where applicable),
- xiii. Advice in relation to a Structure Plan or local planning policy, if applicable, and,
- xiv. General comments.

b) Design Assessments

- i. Design strengths , and
- ii. How can the proposal be improved.

c) Recommendation to Approval Services and/or applicant (one, or a combination of the below);

- i. The design is supported,
- ii. The design is supported and is of sufficiently high quality to satisfy the relevant scheme provisions in relation to discretionary matters such as density, plot ratio bonuses, or building height,
- iii. The design can likely be supported subject to the following matters being addressed, and the DAC will further review the proposal at a subsequent DAC meeting prior to it making its final recommendation,
- iv. The design will be supported subject to the following changes, iv. The design is not supported for the following reasons, or,
- v. The design is at a concept stage only, the plans have not progressed to a stage where a recommendation can be provided.

10.Meeting Procedure and Process

10.1 Schedule of Meetings

The DAC is proposed to meet on an as needed basis, with a maximum of one meeting per month, unless a "special" meeting is called by the Director of Development Services. An agenda for DAC meetings shall be prepared in accordance with the format in Appendix 3. Special meetings may be convened at any other time to deal with specific proposals or issues.

The location, date, and time of the meeting shall be advised to the members of the DAC at least ten (10) working days prior to the meeting. The agenda will be provided to the DAC members at least five (5) working days prior to the meeting.

The duration of the meeting shall be a maximum of three (3) hours unless the DAC resolves to extend the meeting to a particular time for the completion of business, and that extended time is agreed by the Director of Development Services.

10.2 Attendance and Quorum

From the five (5) appointed members, the DAC will comprise the Chair, Deputy Chair, and three other members. Where a member is unable to attend the meeting (subject to sufficient notice being given) the City's Director of Development Services or other authorised officer, in liaison with the Chair, will invite the alternate member.

The quorum for each meeting will be no less than three (3) DAC members. The Director of Development Services or other authorised officer is also required to be in attendance. If a quorum is not present within 30 minutes of the notified commencement time of the meeting then the meeting shall lapse.

The determination of a proposal shall be the sole responsibility of the DAC members, with the Director of Development Services, or authorised officer, acting in an advisory role only. This advisory role includes briefing the committee members on each matter on the agenda and identifying any particular aspects upon which advice and/or recommendations are required.

The DAC Chair may request that external advice or expert knowledge be provided to the DAC, where it is deemed that such knowledge is not available from within the DAC members, or due to the nature, or type, of development. The City shall give all assistance to the DAC Chair and, where appropriate, approve such requests.

The owner of the land and/or the applicant shall attend the meeting and make a presentation on the proposal to the DAC. Following the presentation and any questions from the Committee members the Chair may request the presenters vacate the meeting prior the members further deliberating on the matter.

The matters under consideration by the DAC are generally confidential in nature and therefore **DAC meetings will not be open to the public.**

10.3 DAC Comments and Advice

The DAC is to provide comments and advice to the City's Planning Officers to assist in providing pre and post lodgement advice to applicants, formulating recommendations to the Council or a Joint Development Assessment Panel on particular applications for development approval, or in determining applications under delegated authority. The DAC will also provide comments and advice on other planning related proposals presented to it.

The recommendations of the DAC are not binding on the City, however, they will be given due regard and used to assist the City in making better and more informed decisions.

The DAC is expected to provide comments and advice on a 'without prejudice' basis.

10.4 Agenda and Minutes

The Director of Development Services, or other authorised officer, in consultation with the DAC Chair, shall be responsible for the preparation of the meeting agenda, in accordance with the format in Appendix 3, and the accuracy of the minutes.

At least five (5) working days prior to the date of the meeting the City will email a copy of the meeting agenda, development plans or planning proposal under consideration, and other supporting documents to the DAC members.

An employee of the City shall be present at the meeting to record the minutes. These minutes will record a consensus agreement on actions and any points of agreement/disagreement, as well as any additional relevant comments and recommendations. They will not reflect the discussions verbatim but present a summary of issues or matters discussed during debate prior to consensus agreement being reached.

At the culmination of the meeting the Chair will read out the agreed actions, recommendations, and any other points of agreement to the meeting to ensure that they accurately reflect the consensus view. Within ten (10) working days of the date of the DAC meeting the minutes are to be compiled by a member of the City's Administration and presented in the form of:

- i. Explanatory comments on each proposal conveying the DAC's general views regarding the proposal;
- ii. Formal recommendation to the City, where appropriate, reflecting the views of the majority of the members present at the meeting; and

- iii. Any additional informal comments conveying the views of individual members, which may be included at the request of any member, subject to the approval of the Director of Development Services or other authorised officer.

The minutes will be checked and endorsed by the Chair and then distributed to all members who attended the meeting. The minutes will also be provided to the applicant.

All minutes of the DAC will be tabled at a Council meeting. If the matter is to be determined by the Council then the minutes will be included as an attachment to the officer's report, and referenced in the report. Where a Development Application is to be determined by a Joint Development Assessment Panel the relevant DAC minutes will be included as an attachment to the Responsible Authority Report (RAR) and referenced in the RAR. In addition to this, an original copy of the endorsed minutes will to be kept for record purposes within the City.

10.5 Conflict of Interest

All members of the DAC need to be aware that any conflict of interest, needs to be recognised. Members of the Design Advisory Committee are to be regarded as a "Committee Member" for the purposes of the definitions in the City of Kalamunda Elected Members Code of Conduct and therefore required to comply with the Code. On receipt of the agenda, if a member has an interest in the matter, then that member is required to declare the interest and the alternative member of the DAC is to be invited by the City. This will be noted in the minutes. Should the member declare an interest during the meeting, the declaration and the vacancy during discussion will be noted in the minutes. If a member is unsure as to whether they have an interest in the matter they are advised to raise the issue with the Director of Development Services, or other authorised officer.

Any member of the DAC who has a financial and/or proximity interest in a matter shall exclude themselves from the room and not participate in that part of the meeting. They may return upon conclusion of that section of the meeting.

11. Media Protocol

Members of the DAC are not to speak to the media in their capacity as a DAC member.

Definitions

“Financial Interest” has the same meaning as given by Section 5.60A of the Local Government Act 1995.

“Proximity Interest” has the same meaning as given by Section 5.60B of the Local Government Act 1995.

“Pecuniary Interest” means an interest that a person has in a matter because of a reasonable likelihood or expectation of appreciable financial gain or loss to the person.

Appendix 1 – The CABE 10 Principles of Design Review

For design review to succeed it should be carried out professionally and offer consistently high standards in the quality of its advice. In order to achieve this the following principles shall be maintained:

Independent

Review is to be conducted by people who are unconnected with the proposals promoters and decision makers. Conflicts of interest are to be stated and avoided at all times.

Expert

Review shall be carried out by suitably trained individuals who have a wide range of skills/accreditations and who have the ability to review and provide constructive advice. It is considered that review is most respected when carried out by professional peers.

Multidisciplinary

The review panel shall be comprised of people from various disciplines, and as such will be able to provide a complete, rounded assessment and provide comprehensive advice to applicants.

Accountable

The committee and the advice provided by the committee must be seen to be working for the benefit of the public.

Transparent

The committee's responsibility, membership, processes and funding shall be known in the public domain.

Proportionate

The committee shall be utilised on projects whose significance warrants the need to provide the committee. This significance shall be measured on both a local, state, and national level.

Timely

The committee shall review a proposal as early as possible in the design process in order to potentially reduce the chances of wasted time. In addition to this it is considered that costs to make changes will be less at an earlier stage of design.

Advisory

The DAC does not make decisions, but does offer impartial advice to those who do.

Objective

The committee shall review proposals according to reasoned and objective criteria and relevant policy/legislation, rather than in line with the stylistic tastes of the individual committee members.

Accessible

Findings and advice as provided by the committee are clearly expressed in terms that all parties can understand and make use of.

Appendix 2 – Principles of Design

When providing advice to relevant parties, it is expected that the DAC shall give due regard to the following principles in order to assist in determining the design quality of the proposal:

1. Character – The Identity of a Place

Successful places shall be distinctive and memorable, with a character that people can appreciate easily. This includes landscaping, building context and sense of local identity. When new development creates identity that is indistinguishable from other areas there is a risk that the identity of an area can be weakened.

Objectives:

- i. New development should respond to the layout of existing development, street layouts, and open spaces and integrate with these aspects in a positive way.
- ii. Building materials and details should create or enhance a local distinctiveness and contribute to the feeling of a 'sense of place'.

2. Continuity and Enclosure – Definition of Public and Private Spaces

Development should define open spaces. Activities that take place inside buildings can bring activity to public spaces. Location of development can also secure private open spaces and provide passive or active surveillance.

Objectives:

- i. Public streets should be activated as a result of pedestrian movement to activities.
- ii. There should be few 'gaps' in the streetscape to encourage pedestrian movement in public thoroughfares.

- iii. Development should clearly denote the separation between public and private land and enhance both active and passive surveillance.

3. Quality of the Public Realm – Open Spaces

Provision should be made for public spaces that are attractive, comfortable, and useable.

Outdoor spaces can include parks, nature reserves, paved areas and squares and courtyards. Streets are also considered to be a part of the public realm and should be designed to allow individuals to move safely through an area, or meet and socialise.

Objectives:

- i. Public spaces and routes should be well designed, attractive, safe, and uncluttered.
- ii. Places should be accessible to all people.
- iii. Public spaces should integrate with the buildings surrounding it.
- iv. The public realm should provide a setting for important displays or public art. Such art will assist in the provision of 'sense of place'.

4. Ease of Movement – Transportation Methods

Movement through an area is to be easy for everyone, irrespective of the type of transportation method used. Pedestrians should be able to move safely and conveniently between places, encouraging reduction in car use.

Objectives:

- i. Places should be connected.
- ii. Pedestrian movement should be prioritised and encouraged.
- iii. A choice of transport routes should be provided.

5. Legibility – Navigation of an Area

Developments should be easy to navigate. Layouts of structures and provisions of landmarks shall be utilised to make a location more memorable and easy to remember.

Objectives:

- i. Locations should have recognisable routes to assist individuals in making their way through an area.
- ii. Landmarks should be visible at street level and distinctive.

6. Adaptability – Changing Places

Consideration should be given to allow places to change over time. This enables locations to respond to emerging social, environmental and economic needs.

Objectives:

- i. Development should demonstrate the capacity to adapt to various changing conditions and events, rather than to be replaced.

7. Diversity – Variety and Choice

Developments should allow for the provision of a range of uses and activities in the area. Opportunities for various choices in housing, employment, open space, and other services is to be encouraged.

Objectives:

- i. Development should note the surrounding area context to create a diverse range of uses that respond to the various requirements of the community.
- ii. Options should be made available to enable activation of spaces at all times of the day and week (24 hour activation).
- iii. Locations should offer a choice of housing, shopping, employment, and entertainment.

Appendix 3 – Agenda Format

KALAMUNDA DESIGN ADVISORY COMMITTEE

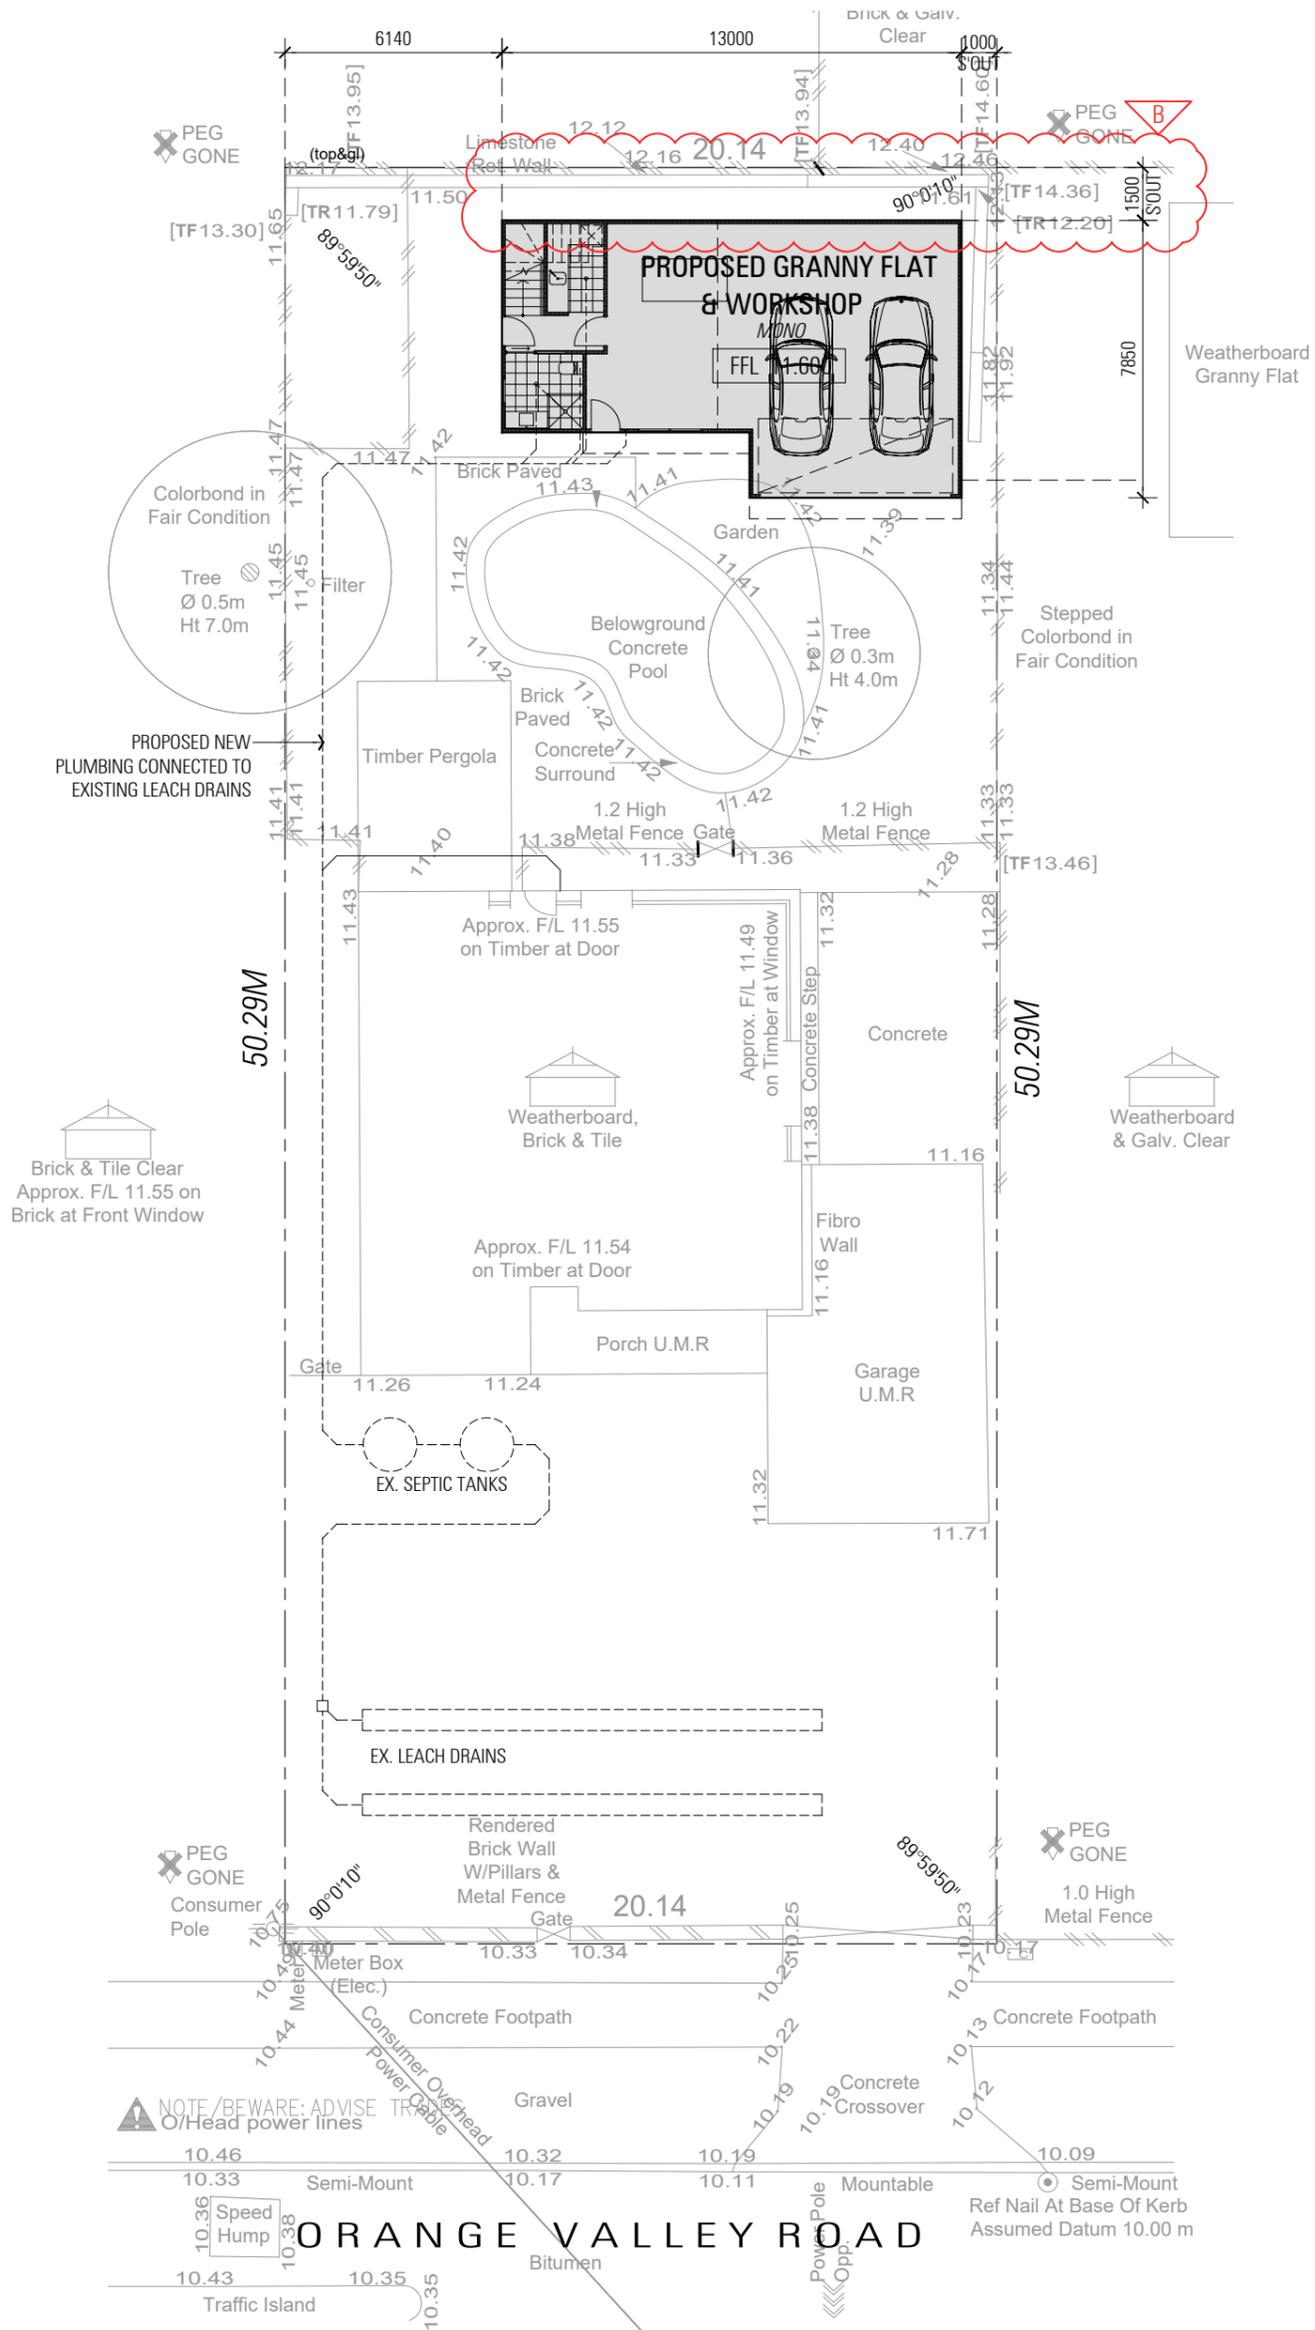

Meeting Date and Time:

Meeting Venue:

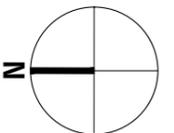

1. Opening of Meeting
2. Attendance:
 - DAC Members
 - Officers:
 - Applicant/Landowner:
3. Apologies
4. Members on Leave of Absence
5. Disclosure of Interests
 - a. Members must disclose the nature of their interest in matters to be considered at the meeting in accordance with the City of Kalamunda Code of Conduct
6. Items for Consideration
 - a. Officer's Report and Presentation
 - b. Proponent's Presentation
7. DAC Design Review Advice
 - a. Comments
 - b. Assessment
 - c. Recommendation
8. Other Business
9. Date of Next Meeting
10. Closure

- GENERAL NOTES**
1. ALL DIMENSIONS TO BE CHECKED AND VERIFIED ON SITE PRIOR TO CONSTRUCTION/FABRICATION. DO NOT SCALE FROM DRAWING.
 2. THE ARCHITECT IS TO BE NOTIFIED OF ANY DISCREPANCIES, ERRORS OR OMISSIONS BEFORE WORK COMMENCES.

1	<p>Objection</p> <p>Loss of privacy and noise pollution:</p> <p>a) My privacy is already compromised in that I can hear conversations quite clearly. I have concerns the owner who is also a builder will use the workshop to run his business, which could result in further noise pollution. This will turn a very relaxed residential environment into a noisy commercial environment</p> <p>Loss of sunlight:</p> <p>b) The existing colorbond fence is an advantage as it adds extra privacy but blocks out the sunlight.</p>	<p>a) Noted, the proposal has no windows on the eastern boundary façade so therefore there will be no overlooking onto the neighbouring property. The proposal is fully compliant with the visual privacy requirements under the Residential Design Codes, (R Codes) In respect to the noise pollution the proposal is required to comply with <i>The Environmental Protection (Noise) Regulations 1997</i>. The workshop would be conditioned to prohibit any habitation, commercial and industrial uses.</p> <p>b) Noted, the applicant provided an overshadowing diagram in accordance with part 5.4.2 clause C2.1 which indicates there is no overshadowing to the east and the proposal will not block out any natural sunlight (refer to attached plans).</p>
2	<p>Objection</p> <p>a) Concerned about the close proximity to the boundary.</p> <p>b) Concerned about the water flowing down the inclined roof.</p>	<p>a) Noted, the proposal has adequately addressed the design principle in respect to the reduced setback and will appear single storey from the adjoining properties.</p>

	<p>c) I believe it will negatively impact on our overall value of our property.</p> <p>d) Concerned it will turn into a manufacturing shed with noise every day and night.</p>	<p>b) All stormwater is required to be contained on the subject property.</p> <p>c) Noted. This is not a planning consideration.</p> <p>d) The workshop would be conditioned appropriately to prohibit habitation, commercial and industrial land uses within the workshop.</p>
3	Non-Objection	Noted.

PROPOSED DOGGY DAY CARE
56 Brook Rd, Wattle Grove
ENVIRONMENTAL NOISE ASSESSMENT

1. BACKGROUND

Gabriels Hearne Farrell was engaged to undertake an assessment of the proposed dog day care at 56 Brook Rd Wattle Grove in relation to compliance with the Environmental Protection (Noise) Regulations 1997. The proposed dog day care will be located within an existing chicken shed. The nearest noise sensitive premises are the existing residences on Coldwell Rd as identified in Figure 1 below:

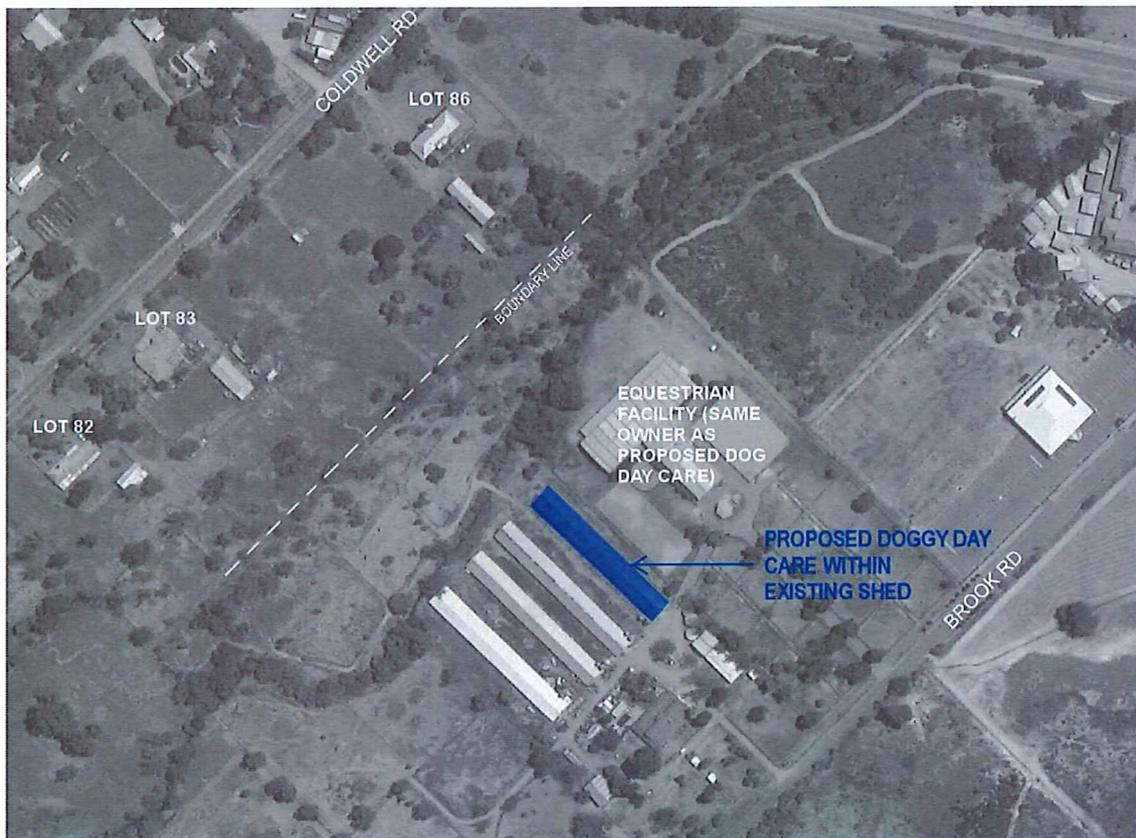

Figure 1 – Site context

PROJECT: Proposed Doggy Day Care- Wattle Grove
 PROJ No: 18003b

DATE: 1st February 2018
 PAGE: 2

The existing shed is 100 metres long and 12 metres wide. The walls and roof of the shed are custom orb metal with spray on thermal insulation. There is a raised ridge cap along the entire length of the roof which allows for a small extent of stack ventilation. Along each side wall of the shed are two wall flaps that can swing outwards for ventilation which are also metal with spray on insulation.

The proponent has provided the following information regarding the proposed dog day care:

- The intended operating hours are 7 am to 6 pm (excluding Saturdays and Sundays).
- The dog day care facility will have a maximum capacity of 40 dogs.
- There will be an outdoor play area on the western side of the shed, where a maximum of 5 dogs will be permitted at any one time.

2. NOISE LEVEL CRITERIA

In Western Australia, noise transmission from one property to another is governed by the Environmental Protection (Noise) Regulations 1997. These regulations establish 'Assigned Levels' which are the noise levels that cannot be exceeded at surrounding premises.

The 'Assigned Levels' for the premises surrounding the proposed dog day care are outlined below.

2.1 'Assigned Levels' for the residences on Coldwell Rd (to be achieved within 15 metres of the houses)

The lots on Coldwell Rd are large semi-rural properties. The area within a 15 metre zone around the houses on these lots is identified as the 'highly sensitive area'. The 'Assigned Levels' applicable to the 'highly sensitive areas' of the Coldwell Rd Lots are identified in Table 1 below. The 'Assigned Levels' are based on a total *influencing factor* of 3 dB. This *influencing factor* is derived from there being 16% commercial land-use within a 450 metres radius, and also a major road (Welshpool Rd East) within 450 metres of the houses.

Part of premises receiving noise	Time of day	Assigned Level (dB)		
		L _{A10}	L _{A1}	L _{Amax}
Noise Sensitive Premises: highly sensitive area (eg within 15 metres of a house)	7 am to 7 pm Monday to Saturday	48	58	68
	9 am to 7 pm Sunday and public holidays	43	53	63
	7 pm to 10 pm all days	43	53	58
	10 pm to 7 am Monday to Saturday and 10 pm to 9 am on Sundays and public holidays	38	48	58

Table 1- Assigned Levels to be achieved within 15 metres of the houses of the Coldwell Rd Lots.

The 'Assigned Levels' shown in bold in Table 1 are the most relevant given the proposed operating hours of the dog day care.

PROJECT: Proposed Doggy Day Care- Wattle Grove
 PROJ No: 18003b

DATE: 1st February 2018
 PAGE: 3

2.2 'Assigned Levels' for Coldwell Rd Lots beyond 15 metres of the houses

Table 2 identifies the 'Assigned Levels' that must not be exceeded at the Coldwell Rd Lots in any area beyond 15 metres from the houses. As such, the 'Assigned Levels' of Table 2 must be achieved at the boundary between 56 Brook Rd and the Coldwell Rd Lots

Part of premises receiving noise	Time of day	Assigned Level (dB)		
		L _{A10}	L _{A1}	L _{Amax}
Noise sensitive premises; any area other than highly sensitive area	All hours	60	75	80

Table 2– Assigned Levels to be achieved at the boundary between 56 Brook Rd and the Coldwell Rd Lots

2.3 Noise Character

Regulation 7(b) requires that the noise emission must be 'free' of annoying characteristics, namely tonality (eg whining, droning), modulation (like a siren), and impulsiveness (eg thumping). Where noise emissions do exhibit the above noise characteristics, an adjustment is made to the measured/calculated noise level (in accordance with Regulation 9):

- *Tonality* 5 dB is added to the measured/calculated level
- *Modulation* 5 dB is added to the measured/calculated level
- *Impulsiveness* 10 dB is added to the measured/calculated level

3. NOISE MODELLING PROCEDURE

The potential noise emissions from the proposed dog day care at 56 Brook Rd Wattle Grove have been modelled using the SoundPLAN 8.0 software. The software produces noise contour plans based on inputs such as noise source Sound Power Level, building heights and forms, ground surfaces, topography, and meteorological conditions.

The concave algorithm has been used for this assessment, which is typical for environmental noise modelling undertaken in Western Australia.

3.1 Meteorological conditions

The meteorological conditions used for the assessment have been taken from the document titled 'Guidance for the Assessment of Environmental Factors - Environmental Noise' published by the Environmental Protection Authority:

- Temperature: 20°C
- Humidity: 50%
- Wind speed: 4 m/s
- Wind direction: All directions modelled simultaneously
- Pasquil Stability Class: E

4. ASSESSMENT OF DOGS BARKING

4.1 Noise level data

The main source of noise associated with a dog day care facility is the barking and howling of dogs. The potential noise impact of barking dogs has been based on noise level measurements we have previously measured at a local government pound in free-field conditions.

These noise level measurements were undertaken with ten dogs barking simultaneously. Although the maximum dog numbers will be 40 for the proposed facility, they will not bark at the same time.

PROJECT: Proposed Doggy Day Care- Wattle Grove
 PROJ No: 18003b

DATE: 1st February 2018
 PAGE: 4

The octave band noise levels used in the assessment of the barking dogs is provided in Table 4 below:

Frequency (Hz)	125	250	500	1k	2k	4k	dB(A)
Dogs barking – SPL at 1 metre	58.0	70.4	93.2	94.7	81.8	68.7	96

Table 3 – Sound pressure level of barking dogs

For the purpose of the assessment we have assumed 35 dogs located inside the shed, and 5 dogs located in the outdoor play pen. A conservative assessment has been undertaken based on a total of 30 dogs barking simultaneously within the shed. In relation to the dogs outside, our assessment is based on 2 of the 5 dogs barking simultaneously. We have suggested that the outdoor play pen is located in the position illustrated in Figure 2, in order to maximise distance to the Coldwell Rd residences. This location has been used in the noise model.

Figure 2 – Recommended location for the outdoor play pen

The noise modelling has been based on the upper ventilation flaps along each side wall being in an open position, and the lower ventilation flaps in a closed position.

4.2 Assessment of noise transmission to the Coldwell Rd residences

Based on our experience of other dog day care facilities, the most appropriate criteria is the L₁ 'Assigned Level'. This is because the barking of dogs is not a constant/continual noise source like mechanical plant (ie the noise from barking dogs will occur for less than 10% of the time).

The results of the noise modelling are presented on the Simulation 1 noise contour plan in Appendix A. The results are summarised in Table 4 below:

Noise receiver location	Predicted noise level*	Criteria (L ₁ Assigned Level)	Compliance?
Within 15 metres of the house at Lot 82 Coldwell Rd	L ₁ 52 dB(A)*	L ₁ 58 dB(A)	YES
Within 15 metres of the house at Lot 83 Coldwell Rd	L ₁ 55 dB(A)*	L ₁ 58 dB(A)	YES
Within 15 metres of the house at Lot 86 Coldwell Rd	L ₁ 57 dB(A)*	L ₁ 58 dB(A)	YES
At the boundary between 56 Brook Rd and the Lots on Coldwell Rd	L ₁ 63 dB(A)*	L ₁ 75 dB(A)	YES

Table 4 – Predicted noise emissions from barking dogs

* Note – includes +5 dB penalty for 'tonality'.

The results indicate that the noise associated with barking dogs will comply with the relevant 'Assigned Levels'.

PROJECT: Proposed Doggy Day Care- Wattle Grove
 PROJ No: 18003b

DATE: 1st February 2018
 PAGE: 5

5. ASSESSMENT OF MECHANICAL PLANT AND VEHICLES

5.1 Noise level data

At this stage of the project, the proponent has not selected the type and capacity of air-conditioning that will serve the shed. As such, we have assessed a worst case scenario whereby the shed will be served by four large commercial sized evaporative coolers (four off Bonaire 700C coolers). The radiated Sound Power Level of this model of evaporative cooler is provided in Table 5 below. Also, we have assessed the impact of three cars driving around the drop-off point. The Sound Power Levels for a car driving slowly are provided in Table 5 below:

Frequency (Hz)	125	250	500	1k	2k	4k	dB(A)
Evaporative cooler Sound Power Level	89	85	82	80	78	72	85
Car driving slowly	83.5	77.8	73.0	73.1	70.0	65.8	78

Table 5 - Sound pressure level of barking dogs

5.2 Assessment of noise transmission to the Coldwell Rd residences

Given that the mechanical plant will operate constantly during business hours, the L₁₀ 'Assigned Levels' are the relevant criteria. The results of the noise modelling are presented on the Simulation 2 noise contour plan in Appendix A. The results are summarised in Table 6 below:

Noise receiver location	Predicted noise level*	Criteria (L ₁₀ Assigned Level)	Compliance?
Within 15 metres of the house at Lot 82 Coldwell Rd	L ₁₀ 37 dB(A)*	L ₁₀ 48 dB(A)	YES
Within 15 metres of the house at Lot 83 Coldwell Rd	L ₁₀ 38 dB(A)*	L ₁₀ 48 dB(A)	YES
Within 15 metres of the house at Lot 86 Coldwell Rd	L ₁₀ 39 dB(A)*	L ₁₀ 48 dB(A)	YES
At the boundary between 56 Brook Rd and the Lots on Coldwell Rd	L ₁₀ 45 dB(A)*	L ₁₀ 60 dB(A)	YES

Table 6 - Predicted noise emissions from mechanical plant and vehicles

* Note - includes +5 dB penalty for 'tonality'.

The predicted noise transmission from the mechanical plant and vehicles driving near the drop-off point is fully compliant with the Assigned Levels.

6. CONCLUSION

Our assessment indicates that the proposed dog day care at 56 Brook Rd Wattle Grove will be compliant with the Environmental Protection (Noise) Regulations 1997. Compliance is reliant on the following management practices:

- The lower ventilation flaps along each side wall of the shed must be kept shut at all times, however the upper ventilation flaps can be left open.
- The location of the outdoor play pen is to be as per the diagram below.

PROJECT: Proposed Doggy Day Care- Wattle Grove
PROJ No: 18003b

DATE: 1st February 2018
PAGE: 6

- The total/combined Sound Power Level of the new mechanical plant cannot exceed 91 dB(A).
- The operating hours of the doggy day care must only be between 7 am and 7 pm, Monday to Saturday.

Regards,

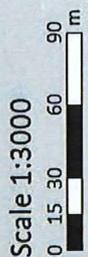

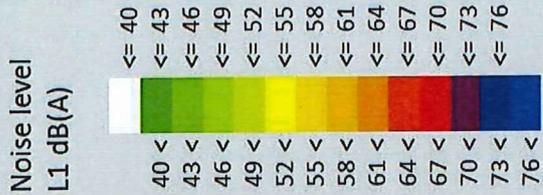

Benjamin Farrell

Foxwood Farm Doggy Day Care

Foxwood Farm Doggy Day Care Business Plan 2018

Foxwood Farm Doggy Day Care

Executive Summary

Families are no longer content to leave their pets at home whilst they go out to work, doggy day care provides a realistic, cost effective and safe alternative to leaving dogs 'home alone'. Families who were previously reluctant to get a dog due to the fact that they may have to leave it alone for many hours whilst they work, are now able to enjoy the pleasure of owning a dog knowing it is safe and well cared for during the day. People are also more conscious that dogs are social animals, and left alone for long periods of time may become distressed, anxious and or destructive and noisy. Doggy Day Care is an emerging and growing trend amongst pet owners today. Dog owners are committed to providing the very best of care for their dogs and this includes providing them with professional supervision for the hours they are away from them.

At Foxwood Farm Doggy Day care, we provide professional and loving care for the most precious of canine friends. We provide both the physical and mental stimulation required to assure our canine charges are relaxed and content. Our staff provide surrogate family care through fun and stimulating activities with supervised exercise and rest.

Foxwood Farm Doggy Day Care is a new self-funded enterprise, however the management and staff have many years' experience in animal behaviour management and are committed to providing each and every canine visitor with an individual tailored approach based on their needs. We will specialise in the care of elderly and or frail dogs who may need additional attention and requirements. We will partner with our visiting facility veterinary services and offer scheduled veterinary check-ups on a fee for service basis should their owners require this.

Pet Industry Association of Australia

Foxwood Farm Doggy Day Care, meet or exceed the Pet Industry of Australia standards for Doggy Day Care. This includes compliance with;

- Indoor area design and function
- Outdoor Area design and function
- Staff Ratio's
- Health and Safety Standards including Emergency Evacuation
- Animal and Veterinary Care, including Medical Treatment
- Day to Day Operations
- Dog evaluation and records management, including vaccination requirement
- Hygiene, cleaning and disinfection
- Isolation and time out process
- Off leash play safe policy
- Play Equipment and environmental enrichment

Foxwood Farm Doggy Day Care management see this enterprise as a community based service which supplies an alternative for dog owners to leaving their pets alone at home and has two key priorities;

1. To provide professional care to canines in a safe and stimulating environment
2. To lower the anxiety of dog owners who otherwise would need to leave their dogs at home alone

Foxwood Farm Doggy Day Care

Currently located in Wattle Grove, the centre is convenient to two major highways; Tonkin Highway and Roe Highway, making the centre very convenient for those on their way to and from work to drop their canine friend off and collect.

With a capacity for 40 dogs, we see that attendance will be incremental over the first year.

- 10 dog within three months of opening
- 20 dogs within six months of opening
- 30 dogs within nine months of opening
- 40 dogs at the 12 month point in time.

Our staffing will reflect the increased numbers throughout the first year period with a ratio of 1 staff member per 10 dogs. This is over and above the Pet Industry Association of Australia standards, however at Foxwood Farm Doggy Day Care we aim to offer a higher level of care, supervision and environment / psychosocial enrichment than the average day care centre. We will target the local and surrounding areas through vigorous marketing and social media campaigns.

Goals

Our goals are to provide a sensitive community service which enables dog owners to go to work and know their precious canine friend is well cared for.

- We aim to be known for our care and individual attention
- We aim to be known for our professional and exceptional customer service
- We aim to be known for the ability to tailor our service for individual client needs

Mission

Our mission is to ensure our facility is a home away from home for each and every canine visitor. To provide the relevant levels of stimulation within an environment which can be adapted for a variety of needs.

Key Performance Indicators - We will measure our success based on;

- The loyalty of our customers
- Repeat and referred business recommendations
- Reports of happy and content canines
- A reasonable and fair profit for service

Business Ownership

Foxwood Farm is a 38 year old well-known brand in the local and surrounding communities and is owned jointly by Kevin and Roxanne Balchin, and Foxwood Farm Doggy Day care will operate under the ABN: 85 240 7195 2 Kevin and Roxanne Balchin have a successful history in a variety of business ventures including primary industry and community service.

It is the intention of the business to continually develop new clients and engage stakeholders through community service events that provide free advertising, social media and paid marketing campaigns.

Start Up

Foxwood Farm Doggy Day Care

The major infrastructure for this project is already in place and owned by Foxwood Farm. The Foxwood Farm Doggy Day care will operate from a converted chicken shed. The start-up capital will be provided by Foxwood Farm with a minimum of a six month trading reserve.

Start-up costs

Detail	Expense
Construction Costs	N/A structure already exists
Commercial Lease / Rent	N/A property and structure owned by Foxwood Farm
Electricity and Water	This is already a powered site and has water
Refit – Fencing, floors, shade sails etc.	8,000
Legal and Accounting	600
Office Equipment – Computer, Eftpos	2,000
Insurance – additional to current	200
Miscellaneous Expenses	1,000
Time Out Cages x 9	3,150
Waste Disposal – bins and bags	350
Wages – Start-up (6 months)	6,000
Total Start-up Costs	21,200

Company Location and Facilities

Foxwood Farm Doggy Day Care is close to major highways which makes it convenient for dogs to be dropped off and collected. We provide drop off zones for 10 vehicles and the entrance is large, with a roundabout and significant room for loading and unloading dogs.

The facility has 3 zones, with both indoor and outdoor pens of approx. 60 square mtrs for each enclosure (in accordance with PIAA standards). Dogs will be kept in their respective areas based on size, age and temperament. The outdoor areas are grass, have shade sails for shade and splash pools for the summer heat. The indoor areas are non-slip flooring, easy to clean and safe. Both indoor and outdoor areas are equipped with suitable toys, furniture and bedding.

Each enclosure will also be equipped with 3 suitable dog cages for time out should this be required (in accordance with PIAA standards) and access between the enclosures has been made in order to supervise animals more effectively.

See attached detail plan of facility – Appendix X

Legal Consideration

Legal waivers of liability have been commissioned along with various other forms that are required to ensure clear delineation in regard to accident and injury.

Business insurance liability is already in place.

Products and Services

Foxwood Farm Doggy Day Care will offer a variety of services to meet the pet care needs of our clients. We will offer specific information of all the services in the form of literature available to our clients. We will also make this information available on line and at our local veterinary practices. Our value for service offer can be discussed with any of our staff and a tour of the facilities will be available by

Foxwood Farm Doggy Day Care

appointment for prospective clients. Foxwood Farm Doggy Day Care do not provide or prepare food for dogs.

Opening Hours

7.00am – 6.00pm

Monday to Friday

Closed

Saturday, Sunday and Public Holidays

Doggy Day Care

The caring for and socialising of dogs during the day whilst owners are at work, this is our primary business and where 90% of our revenue is generated in the form of daily fees. Each play are is supervised and the staff interact with the dogs, in relevant ways, i.e. throwing a ball, tug of rope and various other activities. Clients will be aware when they collect their dog that they are relaxed and happy.

Temperament Testing / Evaluation

All dogs will be screened prior to admission both in relation to current health / vaccinations etc. and temperament / suitability. This will be undertaken by trained personnel and will include;

- De-sexing requirements, age requirements, breed restrictions and health requirements.
- Requirements dealing with 'fence jumpers' or escape artists.
- Evaluation of a 'good fit' with other dogs in the play group, one who is comfortable with other dogs in a room or outdoor area with other dogs, and that other dogs in the group will respond appropriately.
- Newly admitted dogs will be placed in an introductory run next to the main enclosures for assessment prior to being placed in group enclosures.

Dog Training

Foxwood Farm Doggy Day Care can provide basic training at the client's request. This may include;

- Sit
- Stay
- Walk on Lead
- Come when called

Dog training is an addition fee on top of the day care fee and is charged in 20 minute periods in addition to the day care fee.

Visit to vet – Check up

Foxwood Farm Doggy Day Care have a regular visiting vet however will, by arrangement take dogs to veterinary appointments for regular check-ups. This is a fee for service arrangement and is not included in the day care fees.

Pick up drop off service

This is an area of development for our enterprise and again will be based on a fee for service schedule.

Retail Sales

There will be a small retail sales area in the reception of the Foxwood Farm Doggy Day Care offering some canine related products for sale.

Foxwood Farm Doggy Day Care

NOTE: Grooming facilities are not available at Foxwood Farm Doggy Day Care – no feeding or preparation of food will be undertaken.

Competitive Comparison

Foxwood Farm Doggy Day Care believe they have a competitive advantage due to the natural environment. Many day cares are exclusively indoor facilities whereby Foxwood Farm Doggy Day Care offer both indoor and outdoor pens with natural grass, sand and shade. In extreme heat water foggers will reduce the temperature and help to keep the dogs comfortable.

Although there are good choices for doggy day care within the area, Foxwood Farm Doggy Day Care will offer larger spaces for the dogs to play, better interaction and socialisation through controlled play and activities and value for money.

At Foxwood Farm Doggy Day Care we care about the community and the dogs that inhabit it. We will offer discounted services to seniors as well as partner with local animal rescue groups to hold adoption drives and other pet related charity events.

Technology

Foxwood Farm Doggy Day Care will offer on line or face to face registration. We will have Eftpos facilities for convenient payment and all canine records will be stored electronically.

Market Analysis Summary

There are ~~XX~~¹⁷ Doggy Day Cares operating in the Perth Area. ^{Closest} XX are within a radius ^{15 km.} XX from Foxwood Farm.

Some preliminary market research indicated that there is demand for another facility and that people are looking for a more natural environment for their dogs to spend their time.

We will be targeting different groups of individuals and appealing to their needs differently:

- Professional Clients** – spend time away from home due to high work demands
- Elderly Clients** - spend time away from home due to doctors/hospital appointments
- Families** - kids at school, mixture of full time and part time work

Professional Client

This category are typically couples who have highly demanding jobs and spend long hours away from home. In the past many of these people have foregone the opportunity to have a dog due the necessity of them spending long hours alone at home. Professional clients are usually financially stable and although lack the ability to socialise their dog (outside of normal weekend activities) recognise the necessity and benefits of socialisation.

Elderly Clients

This category can be described as those individuals who are over 60 years of age, who are financially stable but less physically able to cope with the process of socialising their dogs. Doggy Day Care is a service which allows them to meet the needs of their animal whilst limiting the sometimes energetic physical excursion some breeds of dog require.

Foxwood Farm Doggy Day Care

Families

This category is very broad but includes families made up of a variety of components. Often families with children will have one or more parent working, plus as children develop their interests they need to be taken and collected from a variety of after school activities. This will often leave family dogs on their own at home for long periods of time. Doggy Day Care provides an easy alternative and take one more pressure away from a busy family schedule.

Environmental Management / Impact Summary

Waste disposal

At Foxwood Farm Doggy Day Care management of waste is a priority to ensure that the unique environment is kept clean and sanitary. Dog waste will be placed in environmentally safe bags and deposited into 1 of 3 waste (wheely bins). These bins will be collected every second day by a contractor specialising in this type of waste disposal.

Noise Impact

It is inevitable that where there are dogs there will be barking, however Foxwood Farm Doggy Day Care are able to limit the environmental impact of any barking due to the unique indoor / outdoor set up. In addition to this controlled play and activities will be provided for all animals.

Attached: Noise Evaluation Report APPENDIX 2

Compliance

Foxwood Farm Doggy Day Care are compliant with all relevant areas of PIAA and Local Council Guidelines. Current business are operated in accordance with the Occupational Health and Safety Act 1984, and have relevant procedures and policies in place.

Health and Safety Documentation

- Health and Safety Policy
- Safe Work Method Statements
- Injury and Incident Management and Registers
- Hazardous Substance Management and Registers
- Risk Assessment and Risk Control templates
- Training Registers and Toolbox Talk templates
- Safety Inspection Checklist Template
- Fire Safety, Evacuation and Emergency Procedures

Management Summary

Foxwood Farm Doggy Day Care will be managed by Roxanne Balchin – Facility Manager. At full capacity a permanent full time Supervisor will be employed with relevant skills and background in relation to handling canines. Other members of the team (based on 1 staff member per 10 dogs) will be responsible for interacting with the dogs, customer service and maintaining the pens in a clean and professional manner.

Staff will be paid Award wages, and it is proposed that due to the span of hours Foxwood Farm Doggy Day Care may be able to offer up to 8 paid part time positions.

Foxwood Farm Doggy Day Care

Policy Name:		HYGIENE, CLEANING AND DISINFECTION	
Policy Number:			
Business Entity:		Foxwood Farm Doggy Day Care	
Business Owner:		K & R Balchin	
Document Owner:		Manager – Foxwood Doggy Day Care	
Legislative Reference:		Pet Industry Association of Australia	
Current Version	Approved By	Date Approved	Date Effective
Version 1	RB	April 2018	TBA
Document Review Date:			

Foxwood Farm Doggy Day Care shall ensure that the facility is kept clean and hygienic at all times in accordance with PIAA best practice standards. We will use environmentally and pet safe cleaning products to minimise adverse effects towards all animals in care.

Standards

- Foxwood Farm Doggy Day Care 'hygiene management plan' shall be established in consultation with a veterinary practitioner and included in the facility's health management plan.
- Enclosures housing animals within our facility shall be cleaned at a minimum once daily.
- Animal indoor and outdoor enclosures shall be disinfected at least once weekly
- Animal enclosures shall be cleaned and disinfected before new animals are introduced.
- Communal bedding shall be cleaned or changed at least once daily and disinfected at least once a week, or as required
- Paths and exercise areas shall be cleaned daily or before new animals are introduced to the area.
- Water containers shall be scrubbed daily and be maintained to a hygienic standard.
- Faeces and waste materials shall be collected at a minimum on an hourly basis, placed into environmental disposable bags and place into the available bins for collection. Faeces will not be disposed of in sewer or septic systems.
- Disposable bedding, containers and general waste from the facility shall be placed in general waste bins.
- Toys used in socialisation and environmental enrichment shall be washed in hot soapy water and disinfected after each use.

NOTE: MSDS sheets for all chemical and industrial products used in the facility shall be prominently displayed throughout the facility and copies placed into the chemical register.

Pest Control:

A proactive approach to general pests including flies, mice and other pests shall be undertaken. Professional Pest control management shall be employed to undertake annual pest management practices.

Standards

All business and animal records will be kept for a minimum of 5 years with at least the previous 12 months' records (or the Statute of Limitations under the Prevention of Cruelty Animals legislation in the relevant state or territory or other local, state or commonwealth laws) kept on site.

The Facility Manager will be able to produce these records if required with 24 hours' notice.

Admission documents will be signed by the animal owner and/or agent and will make clear that the Foxwood Farm Doggy Day Care assumes all legal ownership responsibilities for the animal while it is in the care of the facility and that veterinary care will be provided if necessary at the animal owner's expense.

Business Records

- Business records will include:
- Domestic animal business registration.

Human resources records for each individual working the in facility/establishment/centre and must include:

- name, address, contact number, emergency contact details
- qualifications, position descriptions, training
- vaccination status and any specific health issues e.g. diabetic.
- Staff shifts and rosters.

In addition to this:

- A copy of the emergency evacuation plan including site maps.
- The animal health management plan.
- Copy of the agreement between the facility and a veterinary practitioner and contact details.
- All company contracts, insurance policies, registrations.
- The facility parasite management plan and inspection reports.
- A copy of all standard operating procedures and company policies.

Animal Records

Animal records for each individual animal will be recorded and maintained from admission until the animal is released from the facility back to the owner and must include the following:

- Day Care agreement indicating the responsibilities of the facility and the animal owner, signed and dated by the person in charge.

(The Day Care agreement shall include a procedure to allow the facility to manage animals not collected or abandoned by owners).

- A brief description of the animal including: name of animal, age, sex, breed, colour, any distinguishing features, entire/spay neutered, microchip number.

- Name address and telephone number of the owner of the animal.
- Emergency contact number.
- Details of medical, dietary requirements, the animal's condition and preferably weight on arrival.
- Contact details of the animal's veterinary practitioner.
- A veterinary history including a copy of current vaccination certificates, internal and external parasite control and supporting documentation where applicable.

The animal's details shall also be recorded on the enclosure card attached to the enclosure – including;

- The name, description, breed and sex of each animal in an enclosure
- Each identification card shall indicate whether the animals are receiving additional care and medication if required.
- Each identification card shall include a variable method of recording medication instructions, dates and times of dispensing.

Document Review Date:			

Foxwood Farm Doggy Day Care have a formal agreement with a local Veterinarian with canine health and management experience to visit the centre regularly and attend should they be required. Duties of the Veterinarian shall include;

- the use of the veterinary practitioner's facilities for the treatment of animals from the facility where required
- the provision of appropriate veterinary treatment for sick or injured animals including access to veterinary assistance for emergencies
- veterinary advice to be given in the event of unexplained disease, illness or deaths of animals
- the provision of regular health checks for all animals in the facility
- contact details of the veterinary practitioner shall be posted in a prominent position that is accessible to all staff and volunteers
- an inspection of the facilities annually with the provision of an inspection report. See PIAA sample Inspection Report Appendix 3

NOTE: the annual inspection shall review the health management plan for the facility and the vaccination status and health of all animals in care.

The Facility Manager shall ensure that:

- A health management plan for the facility is prepared in consultation with the veterinary practitioner.
- Isolation housing is provided for all animals suspected of having infectious or unidentified illnesses under supervision of the veterinary practitioner.
- Dogs shall be vaccinated against distemper, hepatitis, parvovirus and canine cough in accordance with the manufacturer's recommendations, unless with the written approval of a veterinary practitioner.
- Puppies shall be vaccinated against common infectious diseases in accordance with best practice clinical guidelines in consultation with a veterinary practitioner.
- Dogs known or suspected to be suffering from an infectious disease shall not be admitted to the doggy day care facility
- Internal and external parasites shall be controlled through routines and preventative treatment.

Foxwood Farm Doggy Day Care

POLICY

Policy Name:		SECURITY AND EMERGENCIES	
Policy Number:			
Business Entity:		Foxwood Farm Doggy Day Care	
Business Owner:		K & R Balchin	
Document Owner:		Manager – Foxwood Doggy Day Care	
Legislative Reference:		Pet Industry Association of Australia	
Current Version	Approved By	Date Approved	Date Effective
Version 1	RB	April 2018	TBA
Document Review Date:			

Foxwood Farm Doggy Day Care is purpose designed to ensure maximum security and protection for the animals in care.

Security Standards

- Foxwood Farm Doggy Day Care premises and animal enclosures are secure against ingress of unwanted animals, persons or pests.
- The facility is supervised, with the Facility Manager living on site.
- The entrance to the facility shall be securely locked outside business hours and an ingress alarm has been installed to ensure management are aware of any visitors
- The facility is secured to prevent access to the premises outside trading hours, including indoor and outdoor enclosures.
- Enclosures are securely fastened outside trading hours
- All gates and fittings are in good working order.
- All external openings are designed to prevent escape of animals or easy removal of products or equipment without authorisation.
- Adequate security is in place to ensure the safety of staff, the public and all animals on the premises.

Guidelines

- There are several gates between any animal and escape onto a road from the facility except in the case of padlocked emergency gates for service vehicles.
- Every effort will be made in the event of an escaped animals.
- The facility has a security alarm on the main gate to ensure the safety of all animals and staff.

Emergencies

Standards

Security procedures allow for ready exit for staff and animals in an emergency.

- Functioning fire-fighting equipment is readily available and staff trained and practiced in its use (**Note: only non toxic fire retardants are used**).
- Foxwood Farm Doggy Day Care have a documented procedure for the management or swift removal of all animals from the premises in the case of emergency, where it is safe and reasonable to do so. This process is in full view of staff and clients and staff are practiced in evacuation.

NOTE: the emergency plan details ready access to animals and ready exit for visitors, staff, volunteers and animals from the premises in the event of an emergency.

Foxwood Farm Doggy Day Care Emergency Procedures includes a plan to deal with a situation where staff are not allowed back into the facilities for up to a week (for example in flood or fire), in particular if staff have not been able to ensure exit of all animals at the time of the initial emergency.

Guidelines

Foxwood Farm Doggy Day Care have a supply of portable dog cages for use in emergencies held at the facility to facilitate the swift evacuation of animals in the event of an emergency. A supply of leashes are also kept for evacuation of dogs.

Foxwood Farm Doggy Day Care

POLICY

Policy Name:		STAFF RESPONSIBILITIES	
Policy Number:			
Business Entity:		Foxwood Farm Doggy Day Care	
Business Owner:		K & R Balchin	
Document Owner:		Manager – Foxwood Doggy Day Care	
Current Version	Approved By	Date Approved	Date Effective
Version 1	RB	April 2018	TBA
Document Review Date:			

Foxwood Farm Doggy Day Care ensure that staff are suitably experienced, knowledgeable and aware of their responsibilities from both a legislative and industry standard perspective.

Foxwood Farm Doggy Day Care have standards which comply with the Pet Industry Association of Australia and are considered best practice.

DUTIES AND RESPONSIBILITIES - Facility Manager (Principal)

The Facility Manager is the principal of the business and will spend time to ensure that clients and animals are cared for to the very highest of standards. Duties and responsibilities include;

- is responsible for complying with all enforceable provisions in relation to legislative and Local Government requirements
- Admissions and temperament evaluation
- is responsible for the correct and accurate governance/compliance of the facility, including state and local government requirements for business registration and licensing.
- is responsible for the conduct and behaviour of animal attendants, volunteers, vehicle drivers and all other staff working in the facility on a day to day basis.
- is responsible for the recruitment/termination of all staff.
- is responsible for staff rostering and staff ratios.
- Will ensure that animals admitted to the facility are adequately supervised as appropriate to the physiological status of the animal.
- Marketing and promotion

must be knowledgeable and competent to provide for:

- the health, care and welfare of dogs, including monitoring the physical and psychological health of the animals in care and identifying the common signs of common diseases of canines.
- reporting matters of compliance and disease outbreaks to the relevant authorities.
- the protection of the dogs in care from distress or injury caused by other animals or interference by humans.
- daily inspection of all animals in the facility
- oversight of daily watering of animals.
- oversight of enrichment and socialisation programs for animals in care.
- oversight of cleaning and proper hygiene in the facility including the disposal of waste materials.
- provision of prompt first aid for animals when required.

- veterinary care provided by a registered veterinary practitioner. This must include a signed agreement with the veterinary practitioner to attend to animals in the facility as and when required.
- ensuring the health protection of all staff and volunteers working in the facility
- supervision and training of staff and volunteers.
- development of an emergency evacuation plan and staff training practice drills.
- development and execution of all operational policies and procedures.
- ensuring the compliance of all State Work Health and Safety regulations.
- ensuring the maintenance and retention of animal records, vaccination and health records, animal's regular veterinarian, owner's details and emergency contacts.
- promoting and supporting relevant formal and informal training for staff.

DUTIES AND RESPONSIBILITIES – Supervisor

The Supervisor is in charge of the facility when the Facility Manager is not in attendance and will direct the day to day operations of the facility. Animal Attendants will report directly to the Supervisor and will take instructions and direction from this role. Duties and responsibilities include;

- admissions and temperament evaluation
- is responsible for the conduct and behaviour of animal attendants, volunteers, vehicle drivers and all other staff working in the facility on a day to day basis.
- Will ensure that animals admitted to the facility are adequately supervised as appropriate to the physiological status of the animal.
- daily, watering and inspection of all animals
- daily cleaning and disinfection of pens/enclosures, and equipment, and cleaning exercise areas
- administering medication as instructed by a veterinary practitioner
- exercise, socialisation and environmental enrichment for each animal including handling
- reporting any animal showing signs of infectious disease immediately; isolating the animal, disinfecting their housing, bedding material, feeding a drinking utensils
- ensuring that care is taken so as not to spread infection from one pen/enclosure to another on their hands, clothing or footwear

must be knowledgeable and competent to provide for:

- the health, care and welfare of dogs, including monitoring the physical and psychological health of the animals in care and identifying the common signs of common diseases of canines.
- the protection of the dogs in care from distress or injury caused by other animals or interference by humans.
- daily inspection of all animals in the facility
- supervision of daily watering of animals.
- supervision of enrichment and socialisation programs for animals in care.
- supervision of cleaning and proper hygiene in the facility including the disposal of waste materials.
- provision of prompt first aid for animals when required.
- Assist with veterinary care provided by a registered veterinary practitioner. This must include a signed agreement with the veterinary practitioner to attend to animals in the facility as and when required.
- report staff related matter to Facility Manager ensuring the health protection of all staff and volunteers working in the facility
- supervision and training of animal attendants and volunteers.

- ensuring the maintenance and retention of animal records, vaccination and health records, animal's regular veterinarian, owner's details and emergency contacts.

DUTIES AND RESPONSIBILITIES Animal Attendants

Animal Attendants include volunteers and paid workers and are responsible for the day to day tasks of the facility. Volunteers shall work under supervision of a paid staff member at all times. Animal Attendants report to the Supervisor.

- daily, watering and inspection of all animals
- daily cleaning and disinfection of pens/enclosures, and equipment, and cleaning exercise areas
- exercise, socialisation and environmental enrichment for each animal including handling
- reporting any animal showing signs of infectious disease immediately; isolating the animal, disinfecting their housing, bedding material, feeding and drinking utensils.
- ensuring that care is taken so as not to spread infection from one pen/enclosure to another on their hands, clothing or footwear

The animal attendant must immediately report to the person in charge any animals showing signs of:

- injury or illness
- serious physical or behavioural behaviour
- any change in the animal's normal behaviour which is indicative of a problem with the animal's health and welfare
- apparent pain, bleeding or swelling of body parts or bloating of the abdomen
- ear discomfort, inflammation or discharge
- difficulty or inability to urinate or defecate
- fits
- staggering, lameness or inability to stand or walk
- patchy hair loss or change in the appearance of the coat
- scratching of coat or ears
- observation of parasites
- swollen or inflamed third eyelid
- any other signs showing the health or welfare of the animal is compromised.

Signs of infectious diseases:

- coughing
- diarrhoea (especially if blood stained)
- red or brown coloured urine
- repeated sneezing
- runny nose
- runny or inflamed eyes
- vomiting.

Training

Staff at Foxwood Farm Doggy Day Care shall have skills and experience in the following areas;

- current animal behaviour and social needs of the animal
- handling animals on receipt and release of dogs into and out of the facility, including transportation and capture
- animal husbandry techniques
- identification of common diseases in dogs signs of ill health, stress etc. which prompts the requirement of veterinary attention

- procedures required for management and care of sick and injured dogs
- special requirements for young or old animals
- control of parasites and preventative measures
- record keeping
- zoonotic diseases (transfer animal to human), hygiene, prevention and medication
- Health and safety procedures

Foxwood Farm Doggy Day Care

POLICY

Policy Name:		ANIMAL HEALTH CARE	
Policy Number:			
Business Entity:		Foxwood Farm Doggy Day Care	
Business Owner:		K & R Balchin	
Document Owner:		Manager – Foxwood Doggy Day Care	
Current Version	Approved By	Date Approved	Date Effective
Version 1	RB	April 2018	TBA
Document Review Date:			

All owners are required to present current vaccination certificates for their dogs as a condition of Acceptance. Foxwood Farm Doggy Day Care require vaccinations in accordance with the Australian Veterinary Association Guidelines. Holistic naturopathic or homeopathic vaccinations do NOT fulfil these vaccination requirements.

Animals must adhere to the recommended vaccination requirements.

Note: Vaccination requirements and isolation periods may differ depending on the vaccination manufacturer's recommendations. The vaccination manufacturer's recommendations may be used as an exception to the following requirements on a case by case basis.

Foxwood Farm Doggy Day Care follow the PIAA recommended practices and will obtain evidence from the manufacturer showing:

- that the recommendations being followed are correct
- that they can provide written approval from the animal's treating veterinarian outlining that the manufacturer's recommendations have been followed correctly
- that a written veterinary health check has been sighted prior to the animal being accepted for day care.

Vaccination requirements include

- A C5 vaccination protects against parvovirus, distemper, hepatitis, parainfluenza and Bordetella bronchiseptica and is the minimum requirement for admission to Foxwood Farm Doggy Day Care

All vaccinations should be current triennially

Dogs will not be admitted to Foxwood Farm Doggy Day Care unless:

- A vaccination certificate signed by a veterinary practitioner is sighted, copied and maintained for each animal admitted to a facility/establishment/centre.
- The date of admission is more than 14 calendar days after completion of an initial course of vaccinations.
- The date of admission is more than 7 days and less than 12 months after completion of a booster vaccination against the diseases above.
- If the animal has received a three (3) year vaccination, proof of the three (3) year vaccination must be supplied and the vaccination manufacturer's quarantine recommendations must be adhered to.

- At the discretion of the Facility Manager (and with full responsibility for such discretion), any additional diseases for which the Facility Manager feels the need for vaccination and advises the animal owner before arrival.

Parasite Prevention

All dogs must present parasite free. Owners are required to provide detailed information in relation to;

- Worm Control
- Flee Control
- Heart Worm Control

Daily Checks

All dogs will be checked upon arrival and during their stay for signs of illness and or injury. The signs which may be identified include but are not limited to;

- Runny nose
- Runny or discharge from eyes
- Repeated sneezing
- Coughing
- Vomiting
- Severe diarrhoea, especially if bloodstained
- Lameness
- Bleeding or swelling of body parts
- Inability to stand and or walk
- Apparent pain
- Listlessness / depression
- Fits, staggering convulsions
- Patchy hair loss
- Bloating of the abdomen
- Difficulty or inability to urinate or defecate
- Red or brown coloured urine
- Fever
- Presence of external parasites
- Any other serious physical or behavioural abnormality

Medication

Foxwood Farm may choose to accept a dog which requires veterinary prescribed medication throughout its stay. A senior staff member (Supervisor or Manager) shall:

- Record medication to be given against appropriate animal.
- Ensure medication is stored according to label directions.
- Ensure appropriate recording and administration of all medications.
- Ensure staff are suitably trained to administer medication successfully.
- When there is any doubt in relation to medication the animal owner or animal owners veterinarian must be consulted

Veterinary Treatment

On admission to Foxwood Farm Doggy Day Care, owners sign to agree to transfer the animal's care, wellbeing and medical treatment over to Foxwood Farm Doggy Day Care Management. Where possible, should an animal become ill the owner will be immediately contacted prior to any treatment

being administered by a veterinary or under veterinary advice; however the decision of Management and the veterinarian in relation to treatment of the animal shall be final and conclusive. The Owner agrees on admission of their dog to Foxwood Farm Doggy Day Care to pay all veterinary costs and charges in relation to the treatment of their dog.

Foxwood Farm Doggy Day Care

POLICY

Policy Name:		DOG ACCEPTANCE POLICY	
Policy Number:			
Business Entity:		Foxwood Farm Doggy Day Care	
Business Owner:		K & R Balchin	
Document Owner:		Manager – Foxwood Doggy Day Care	
Legislative Reference:		Pet Industry Association of Australia	
Current Version	Approved By	Date Approved	Date Effective
Version 1	RB	April 2018	TBA
Document Review Date:			

Prior to any dog being accepted into Foxwood Farm Doggy Day care, the dog must undergo a preliminary evaluation (to be recorded on the dogs Admission Sheet) which shall include;

Health Evaluation

Dog Condition Score	see appendix 1
Eyes	ensure no discharge, note any cloudiness (e.g. in older dogs)
Ears	clean, no discharge or strong smell
Coat	clean, free from obvious parasites, no skin redness
Teeth and gums	free from swellings and infection
Age Considerations	mobility, deafness etc.
Sterilisation	dogs must be sterilised if over the age of 6 months
Injury	any current injury
Medication	any medication which will need to be administered during care (see animal health care policy)
Vaccinations	Current up to date vaccinations (see animal health care policy)
Parasite Control	Current up to date Parasite Control (see animal health care policy)

Temperament Evaluation

Each dog shall be initially evaluated on temperament by a qualified staff member prior to acceptance. This will be undertaken in the owner's presence and may include;

- In depth discussion with owner in relation to dogs temperament history, characteristics, triggers and tendencies.
- Using other dogs already known at the centre to be appropriate 'temperament testers', a suitably qualified staff member may take the dog for an on leash walk and explore the facilities, making controlled contact with other dogs to evaluate acceptance and reaction.
- New dogs shall be given the opportunity to assimilate using the trial (introductory) enclosure where suitable companion dogs can be introduced prior to allowing them into the main play areas.

Any sign of aggression which is not suitable for a day care environment shall be discussed with the owner.

Exclusion

Foxwood Farm Doggy Day Care Management, reserve the right to exclude any dog from acceptance, and or terminate a Day Care agreement at any time, should a dog be deemed unsuitable due to Health and or Temperament evaluation.

Refusal of Admission

The Facility Manager has the right to refuse admission to any animal:

- known or suspected to be suffering from an infectious disease.
- that does not meet these Standards & Guidelines for Best Practice, particularly in relation to vaccinations.
- where the animal owner's requirements cannot be met by the Facility Manager or the animal owner refuses to accept reasonable additional charges for extra care requirements.
- where the Facility Manager reasonably believes that the animal poses a risk to other animals and/or facility staff and that this risk is not able to be appropriately managed by the facility.
- where the Facility Manager believes that it is not in the best interests of the facility to care for the animal.

Appendix 1: DOG CONDITION SCORE CHART

Emaciated

- Individual ribs, spine and pelvis prominent and evident from a distance.
- Lack of muscle mass.
- Little or no body fat.
- Rump hollow.
- Waist prominent when viewed from above.
- Abdomen obviously tucked up.
- Neck thin.
- No fat on tail.

Dog cannot be accepted without Veterinary advice

Thin

- Ribs, spine and pelvis bones visible and easily felt.
- Little body fat.
- Neck thin.
- Abdomen tucked up.
- Little fat on tail.
- Obvious waist when viewed from above.

Discussion with owner in relation to feeding and worming – if dog does not improve, veterinary advice must be sought for continuation of care

Ideal

- Ribs and spine can be felt, last few ribs may be visible.
- Dog should have a waist when viewed from above.
- Belly is tucked up when viewed from side.
- Good muscle mass.
- Rump well-muscled.

Dog Acceptable for Day Care

Overweight

- Ribs and spine not visible but can be felt.
- Fat deposit on tail.
- Little or no waist when viewed from above, rounded appearance, back appears broadened.
- Dog squarish along back line when viewed from side.
- Abdomen not tucked up, may appear rounded underneath.

Discussion with owner in relation to reducing feeding and increasing exercise

Obese

- Ribs and spine not visible and difficult to feel.
- Tail has obvious fat deposit.
- No waist and back broadened when viewed from above.
- Belly obviously rounded and possibly distended.
- Dog square or rounded up along back line when viewed from side.

Dog cannot be accepted without Veterinary advice

Foxwood Farm Doggy Day Care

POLICY

Policy Name:		ACCESS TO CLIENTS, VISITORS / GENERAL PUBLIC	
Policy Number:			
Business Entity:		Foxwood Farm Doggy Day Care	
Business Owner:		K & R Balchin	
Document Owner:		Manager – Foxwood Doggy Day Care	
Current Version	Approved By	Date Approved	Date Effective

Booking In

All animals and their owners must report to the allocated reception area for admission to the facility

Due to the associated risks and hazards, clients are not permitted access to the facility workplace including enclosures and exercise areas at any time unless with the express permission of the Facility Manager and or Supervisor. All clients must be accompanied by a staff member at all times.

Client are required to sign in and out of the facility other than dropping a dog off who has previously been registered.

General Public and Visitors

Visitors to the facility must report to the allocated reception area.

Due to the associated risks and hazards, visitors are not permitted access to the facility workplace including enclosures and exercise areas at any time unless with the express permission of the Facility Manager and or Supervisor. All visitors must be accompanied by a staff member at all times.

Visitors wishing to inspect the facility prior to admission must do so by appointment and must be accompanied by a staff member.

Public admittance into the facility other than the reception area may only be permitted in extenuating circumstances and must be accompanied by the Facility Manager

If the admission is approved by the Facility Manager, the visitor must sign in on arrival and sign out when leaving the facility.

PURPOSE

Foxwood Farm Doggy Day Care and its Management is committed to ensuring a safe environment that does not place the health and safety of any persons at risk. This policy sets out how Foxwood Farm Doggy Day Care will fulfill this commitment.

SCOPE

This policy applies to all Foxwood Farm Doggy Day Care Staff and guests as defined in *Section 7.0*.

POLICY STATEMENT

Foxwood Farm Doggy Day Care recognises its legal, ethical and moral responsibilities to prevent injury and illness for any persons involved with the activities of Foxwood Farm Doggy Day Care.

Foxwood Farm Doggy Day Care will foster a positive culture across operations with safety considered to be a core value where safe behaviour is encouraged and respected.

POLICY

Foxwood Farm Doggy Day Care will undertake the following activities in fulfilling its commitment to provide a healthy and safe environment:

- The Facility Manager shall be responsible to develop, implement and maintain a Health and Safety Management System (HSMS) which reflects the requirements of this Policy.
- The Facility Manager shall appoint a Health and Safety Representatives (HSR) to every, where possible.
- Comply with applicable health and safety legislation as well as other requirements such as Codes of Practice and Australian Standards.
- Implement a health and safety risk management process to ensure workplace hazards are identified, assessed, controlled and reviewed where they are not able to be eliminated.
- Allocate sufficient financial and physical resources to enable the effective implementation of this Health and Safety Policy.
- Provide, handle and store equipment, structures, substances and systems of work with the minimum risk to health.
- Provide and disseminate health and safety training and information to Foxwood Farm Doggy Day Care, where required.

- Implement arrangements for the consultation of health and safety matters with Foxwood Farm Doggy Day Care Staff and management.

SPECIFIC ANIMAL SAFETY CONSIDERATIONS

- To protect staff health a list of common zoonotic diseases associated with animals shall be prominently displayed throughout the facility and staff shall be educated in the prevention of zoonosis.

Staff health shall be protected by the provision of or access to:

- induction upon commencing work in the facility
- adequate hot and cold hand washing facilities
- hand disinfectant placed at various locations around the facility
- immunisation against tetanus
- provision of personal protective equipment e.g. disposable gloves.

RESPONSIBILITIES

FACILITY MANAGER

- has responsibility for and is committed to, the effective implementation of the Health and Safety Policy.
- is proactive in creating a safe work culture and provides leadership for the overall health and safety of the facility.
- has the responsibility so far as is reasonably practicable, to eliminate risks to health and safety of its staff and guests, and where elimination is not possible, to minimise those risks.
- has responsibility to oversee the monitoring of health and safety performance against objectives and targets.
- By exercising due diligence, is responsible for ensuring that Foxwood Farm Doggy Day Care complies with its duties and obligations under the applicable health and safety legislation.
- endorses and supports the implementation of this Policy and the associated health and safety initiatives.
- is committed to exercising due diligence, ensuring appropriate resources to establish and maintain a consultative and systematic approach to health and safety under this Policy.
- is responsible and accountable for implementing this Policy and will support staff in fulfilling their health and safety obligations and responsibilities.
- will consult with their staff on issues that affect their health and safety.

STAFF

- Must take care for their own health and safety and the health and safety of people who might be affected by their acts or omissions.
- Understand their responsibilities relating to the health and safety in all environments as detailed in this Policy.
- Report all incidents, injuries and hazards and control any identified hazards where practicable.
- Carry out any instructions in relation to health and safety policies, procedures and safe systems of work.
- Participate in health and safety consultation and training activities.

GUESTS

- All guests entering Foxwood Farm Doggy Day Care are required to comply with this Health and Safety Policy and to observe directions on health and safety from designated Staff.

LEGISLATION

- ▣ Occupational Health and Safety Act 1984
- ▣ Proposed Health and Safety Act 2012

HEALTH AND SAFETY DOCUMENTATION

Summary of Submissions

Proposed Alteration of a Non-Conforming Land Use (Doggy Day Care) – Lot 64 (56) Brook Road, Wattle Grove WA 6107

Submitter No.	Nature of Submission	Applicant/Owner Response	City of Kalamunda Response/ Recommended Modifications
Submission 1	<p>Object.</p> <p>AS you are aware, the north side of Coldwell Road is becoming fully developed which is too close to a dog kennel. I understand that amendment 165 of the Imminent Planning approvals (Maddington Kenwick Strategic Employment Area Planned Framework) allocates the corner block of Lot 87 for potential commercial development (it's a perfect petrol station site wouldn't you agree?). My father owned that lot and lot 85 and always wanted to hold onto it until he could develop it – as it is now feasible. He would be turning in his grave if I agreed to this dog kennel – only to have you use that as a reason against my development of Lot 87 later? Therefore, I object UNLESS you fairly consider a future development of Lot 87 without penalising this opportunity because the dog kennels were built. Is that fair enough?</p>	<p>Submission 1 states that they do not object to the development of the Doggy Day Care if the City of Kalamunda approves their site, (located at least 350 metres from proposed Doggy Day Care) for development as a Petrol Station. Their objection as stated, therefore has nothing to do with the proposed Doggy Day Care as they are willing to accept this proposed activity if their own development application is approved. The submission offers no valid ground for why a Doggy Day Care may not be established at Lot 64 (56) Brook Road, Wattle Grove.</p>	<p>The submission refers to the current MRS zoning of Industrial and the subsequent rezoning under the Scheme (from Special Rural to Light Industry or General Industry or Industrial Development). It is noted that whilst the MRS rezoning occurred in October 2016 the site is yet to be rezoned under the Scheme. The City has every intention to rezone the subject site under the Scheme in accordance with the MRS zoning and is required to under Section 124 of the Planning and Development Act. Whilst the proposed land use of 'Animal Establishment' is currently prohibited in the Special Rural zone it is important to note that it is identified as a Discretionary land use throughout of the City's Industrial zones.</p>
Submission 2	<p>Object.</p> <p>I strongly object to the proposal. The noise from the dogs barking will carry over and interrupt anything you have going on. The smell will be blown over in the wind making it impossible to have windows open or be outside.</p>	<p>As part of the Doggy Day Care application, an independent environmental noise assessment was completed and submitted to the City of Kalamunda by the owners of Lot 64 (56) Brook Road, Wattle Grove.</p> <p>This independent environmental</p>	<p>From an acoustics perspective it is noted that the development application is supported by an Environmental Noise Assessment which concludes that the proposal will be compliant with the Environmental Protection (Noise) Regulations 1997, subject to two (2) operational constraints. Please</p>

Summary of Submissions

Proposed Alteration of a Non-Conforming Land Use (Doggy Day Care) – Lot 64 (56) Brook Road, Wattle Grove WA 6107

Submitter No.	Nature of Submission	Applicant/Owner Response	City of Kalamunda Response/ Recommended Modifications
		<p>noise assessment clearly states that the proposed Doggy Day Care complies with the Environmental Protection (noise) Regulations 1997 (being the appropriate legislation governing such activities).</p> <p>Submission 2 offers no evidence to the contrary.</p>	<p>refer to the attached Environmental Noise Assessment for further information in this regard.</p> <p>From an odour perspective it is noted that the development application is supported by a Business Plan and suite of operational Policies (i.e. Hygiene, Cleaning and Disinfection Policy) which are considered to mitigate any potential odour impact upon the surrounding area. Nonetheless, any odour emitted by the proposal is considered to be less detrimental to the amenity of the locality than the existing poultry farm.</p>
Submission 3	<p>Object.</p> <p>I strongly object to Lot 64 (56) Brook Road, Wattle Grove being granted permission to operate a Dog Day Care Facility.</p> <ol style="list-style-type: none"> 1) The noise from barking/howling dogs does not belong in Wattle Grove. 2) Windborne odours from the Kennels. 3) The site being an old chook farm would have heavy concentration of chemicals in the soil. 	<p>The City of Kalamunda has previously approved Kennels that run Doggy Day Care which shows that the Kalamunda local government does consider that Wattle Grove area to be appropriate and suitable location for such activities.</p> <p>There is zero evidence of any chemicals in the soils at Lot 64 (56) Brook Road, due to the Shire approved poultry farm that has been operating on this for the past</p>	<p>From an acoustics perspective it is noted that the development application is supported by an Environmental Noise Assessment which concludes that the proposal will be compliant with the Environmental Protection (Noise) Regulations 1997, subject to two (2) operational constraints. Please refer to the attached Environmental Noise Assessment for further information in this regard.</p>

Summary of Submissions

Proposed Alteration of a Non-Conforming Land Use (Doggy Day Care) – Lot 64 (56) Brook Road, Wattle Grove WA 6107

Submitter No.	Nature of Submission	Applicant/Owner Response	City of Kalamunda Response/ Recommended Modifications
	<p>4) We live in Wattle Grove in the City of Kalamunda – Not Southern River in the City of Gosnells</p>	<p>38 years, in fact manure was removed off site but any case chicken manure is desirable additive to soil in most households, given that chook poo is sold commercially as dynamic lifter.</p> <p>Submission 3 provides no evidence that a Doggy Day Care at Lot 64 (56) Brook Road would be contrary to any State or Local Laws, in fact as the City of Kalamunda has approved similar activities in the Wattle Grove area, it appears that a proposed Doggy Day Care on this site is in complete alignment with the Shire's thinking.</p>	<p>From an odour perspective it is noted that the development application is supported by a Business Plan and suite of operational Policies (i.e. Hygiene, Cleaning and Disinfection Policy) which are considered to mitigate any potential odour impact upon the surrounding area. Nonetheless, any odour emitted by the proposal is considered to be less detrimental to the amenity of the locality than the existing poultry farm.</p> <p>From a contaminated soil perspective, it should be noted that this is not a planning consideration.</p>
Submission 4	<p>Object.</p> <p>Working party lives in the vicinity of the Kennel and he is annoyed with this dicomfort that he is 1 kilometer away and my house is only 600m away from the place allocated for dogs and I have lived with the smell of chooks for 20 years and now I don't want to listen to dogs now. As you are aware the area has plenty of opportunities to conduct industry in this area and don't want to jepordies anything happening.</p>	<p>The independent Environmental Noise Assessment undertaken in association with the Doggy Day Care application confirms that the proposed activities is in full compliance with the Environmental Noise Regulations 1997 (being the appropriate legislation covering Doggy Day Care Centres). Submission 4 provides absolutely no evidence to contradict this.</p>	<p>Whilst the proposed land use of 'Animal Establishment' is currently prohibited in the Special Rural zone, the subsequent rezoning of the site (to Industrial) will render the proposed land use a Discretionary land use.</p> <p>From an acoustics perspective it is noted that the development application is supported by an Environmental Noise Assessment which concludes that the proposal</p>

Summary of Submissions

Proposed Alteration of a Non-Conforming Land Use (Doggy Day Care) – Lot 64 (56) Brook Road, Wattle Grove WA 6107

Submitter No.	Nature of Submission	Applicant/Owner Response	City of Kalamunda Response/ Recommended Modifications
		<p>The City of Kalamunda has approved similar activities within Wattle Grove, and the applicant is unaware that these dog centres approved by the Kalamunda Council have adversely affected the area's development in any way.</p>	<p>will be compliant with the Environmental Protection (Noise) Regulations 1997, subject to two (2) operational constraints. Please refer to the attached Environmental Noise Assessment for further information in this regard.</p> <p>From an odour perspective it is noted that the development application is supported by a Business Plan and suite of operational Policies (i.e. Hygiene, Cleaning and Disinfection Policy) which are considered to mitigate any potential odour impact upon the surrounding area. Nonetheless, any odour emitted by the proposal is considered to be less detrimental to the amenity of the locality than the existing poultry farm.</p>
Submission 5	<p>Object.</p> <p>This proposal is a mater operation 1-5 people in total working (for now). We object strongly to this proposal. As you are aware there are 3 homes within 300 to 400m of this proposed kennel ad the noise would be extreme. Tere are kennels over 2km away and we can hear these digs when ther wind blows from that direction.</p>	<p>The independent Environmental Noise Assessment undertaken in association with the Doggy Day Care application confirms that the proposed activities is in full compliance with the Environmental Noise Regulations 1997 (being the appropriate legislation covering Doggy Day Care Centres). Submission 4 provides absolutely</p>	<p>Whilst the proposed land use of 'Animal Establishment' is currently prohibited in the Special Rural zone, the subsequent rezoning of the site (to Industrial) will render the proposed land use a Discretionary land use.</p> <p>From an acoustics perspective it is noted that the development</p>

Summary of Submissions

Proposed Alteration of a Non-Conforming Land Use (Doggy Day Care) – Lot 64 (56) Brook Road, Wattle Grove WA 6107

Submitter No.	Nature of Submission	Applicant/Owner Response	City of Kalamunda Response/ Recommended Modifications
	<p>All of this area is scheduled for redevelopment for industrial commercial uses and certainly there will be people wanting to establish some business type/uses either on or close to Welshpool-Coldwell or Brook intersection. This is therefore not an appropriate business for this location.</p>	<p>no evidence to contradict this.</p> <p>The City of Kalamunda has approved similar activities within Wattle Grove, and the applicant is unaware that these dog centres approved by the Kalamunda Council have adversely affected the area's development in any way.</p>	<p>application is supported by an Environmental Noise Assessment which concludes that the proposal will be compliant with the Environmental Protection (Noise) Regulations 1997, subject to two (2) operational constraints. Please refer to the attached Environmental Noise Assessment for further information in this regard.</p> <p>From an odour perspective it is noted that the development application is supported by a Business Plan and suite of operational Policies (i.e. Hygiene, Cleaning and Disinfection Policy) which are considered to mitigate any potential odour impact upon the surrounding area. Nonetheless, any odour emitted by the proposal is considered to be less detrimental to the amenity of the locality than the existing poultry farm.</p> <p>In respect to staff numbers, it is noted that the recommendation imposes a condition constraining staff numbers to a maximum of four (4) people.</p>
Submission 6	Non-objection.		Noted.

Summary of Submissions**Proposed Alteration of a Non-Conforming Land Use (Doggy Day Care) – Lot 64 (56) Brook Road, Wattle Grove WA 6107**

Submitter No.	Nature of Submission	Applicant/Owner Response	City of Kalamunda Response/ Recommended Modifications
	I have no complaints. Very good neighbours.		
Submission 7	Non-objection. I think this is a great idea and needed. Great venue.		Noted.
Submission 8	Non-objection.		Noted.

SM-DS01.2 – Enforcement Management Procedure – Fire Breaks and Notices

Relevant Council Policy	Relevant City Policy
N/A	S- DS01 - Enforcement

Purpose

To ensure that the City of Kalamunda is fair, consistent and proportionate in matters of compliance and enforcement.

Detail

Enforcement of Fire Breaks and Notices

The risk of bushfire in the hills is extreme in many areas due to the presence of natural bushland, the geography of the area, and the scale of the potential fuel involved. Whilst the City will endeavour to educate landowners about their responsibilities under the Bush Fires Act and other legislation, the City will firmly enforce the provisions due to the impact such an event could have on the area.

Staff will visit and inspect as many properties as possible in the lead up to 1 November, by which time fire breaks must be established. Where properties do not meet the requirements, a bushfire safety inspection notice will be mailed out to inform the property owners of what they must do to bring the property into order. Not receiving a bushfire safety inspection notice is not an excuse for non-compliance.

Where private properties are inspected, non-compliance during the bush fire ban period will be enforced as follows:

Minor non-compliance – in instance where a minor issue requires addressing (such as a single branch not compliant with the notice or other minor issue) no infringement will be issued, providing the matter is attended to in accordance with a 14 day Notice to Comply.

Non-compliance – Where the notice has not been complied with, an infringement will generally be issued unless there are other mitigating circumstances. A 14 day Notice to Comply will also be issued. If the matter is not attended to, the City will engage a contractor to undertake the works, with a 12.5% administration fee in addition to the contractor's charges. This fee is in addition to the fines. Where a property owner continues to fail to address bush fire notices for multiple years, consideration will be given to legal action

STRATEGIC ALIGNMENT

Kalamunda Advancing Strategic Community Plan to 2027

Priority 1: Kalamunda Cares and Interacts

Objective 1.2 - To provide a safe and healthy environment for community to enjoy.

Strategy - 1.2.1 Facilitate a safe community environment.

Measures of Success - Increasing compliance with fire protection requirements.

Purpose

The City will increase compliance with fire protection requirements through a comprehensive fire assessment and community engagement program focused on ensuring the community has the resilience to respond and protect itself from danger and disaster. The City will improve community awareness, safety practices, asset preparedness and community resilience by issuing a Fire Hazard Reduction Notice and undertaking intensive engagement program to educate the community on the importance of being prepared, backed by a risk based fire hazard assessment program.

The City has a legislated right and responsibility to issue a Bush Fire Hazard Notice within the boundaries of the City under section 33 of the *Bush Fires Act 1954* (as amended).

Along with a Notice, the City commits to providing Fire Control Officers to assess and provide guidance for stakeholders and landowners within the City.

The City is also working alongside the Department of Fire and Emergency Services (DFES) in mapping the risk of assets within the City of Kalamunda using Bushfire Risk Management System. This will help identify and plan for more strategic approach to mitigation work and education for extreme and high risk assets.

The key objectives of this plan are:

- Protection and preservation of life.
- Protection of critical infrastructure and community assets.
- Protection of residential property.
- Protection of assets supporting individual financial sustainability.
- Protection of Environmental.
- Heritage and Cultural assets.

SITUATION

The City encompasses a broad range of land uses and topography. This includes the Darling Scarp, National Forest, residential housing, lifestyle blocks, aged care facilities, hospitals, industrial uses, orchards and hobby farms. With such a variant of topographical features and vegetation on these properties, there is an inherent fire hazard danger and associated fire risk within the City.

The City of Kalamunda is resourced with the following team and team members:

- City of Kalamunda CBFCO/CESM
- City of Kalamunda Fire Control Officers
- City of Kalamunda Fire Mitigation Team
- City of Kalamunda Ranger Services
- City of Kalamunda Emergency Management Team
- Kalamunda Volunteer Bushfire Brigade
- Kalamunda Volunteer Fire & Rescue Service

The City comprises the following localities: Pickering Brook, Carmel, Bickely, Lesmurdie, Walliston, Kalamunda, Piesse Brook, Paulls Valley, Gooseberry Hill, Maida Vale, Wattle Grove/Kewdale, Forrestfield and High Wycombe.

Recent major events and reports such as the Keelty Report and Ferguson Report has guided the Emergency Management team to put a significant focus onto bushfire preparedness and mitigation to ensure a safe and resilient community.

The City has adopted a thorough assessment process by employing bushfire professionals as Fire Control Officers to help guide all stakeholders in better preparing in the event of a bushfire.

The assessments will be completed by FCOs, a FCO role is predominately in fire prevention within the legislative authority of the *Bush Fires Act 1954*. An FCO will also assist the CBFCO as required.

Mission / Objectives

To improve community awareness, safety practices and asset preparedness. Improve community resilience by issuing a Fire Hazard Reduction Notice for compliance and an intensive engagement schedule to help educate the importance of preparedness.

BUSHFIRE RISK MANAGEMENT SYSTEM (BRMS)

'Bushfire Risk Management System' is a digital database enabling DFES to log bushfire risk throughout Western Australia. This system allows the City to capture a tenure blind and data specific risk rating for all assets within its boundaries. The assets are divided into four categories, Cultural, Economic, Environmental and Human Settlement. Although majority of assets will be one or the other, the system provides the ability to rate multiple risks against the one asset, once all the risk data has been imputed, the system will automatically reflect the highest rating.

For example a reserve could be an environmental asset and economic as the City may charge for entry.

The rating takes into consideration the fuel type, fuel age, fuel density, separation distance, canopy cover and slope analysis.

Once all of this data is entered, a rating of 1A through to 5C will be produced.

The below risk matrix reflects 1A as the highest risk and 5C as the lowest.

				
Consequence \ Likelihood	Minor	Moderate	Major	Catastrophic
Almost certain	3D (High)	2C (Very High)	1C (Extreme)	1A (Extreme)
Likely	4C (Medium)	3A (High)	2A (Very High)	1B (Extreme)
Possible	5A (Low)	4A (Medium)	3B (High)	2B (Very High)
Unlikely	5C (Low)	5B (Low)	4B (Medium)	3C (High)

Assets can be grouped if they are susceptible to the same risk. The tenure blind process mean that no matter who owns the land, the data mapped is completed to the same standard.

BRMS allows the officer to enter treatments (mitigation) against threats. These can be mechanical works, burning programs, education, spraying etc. The land owner does not have to comply with the request outside of fire season however the City is taking a more interactive and personal approach to achieve a better quality of land management before the fire season. Once a property has completed a treatment, the Kalamunda Bushfire Risk Management Officer will reassess the hazard and gather new data to see if it has been successful in reducing the risk.

Follow up treatments may be required.

EXECUTION

In order to achieve our mission, we have broken it up into 6 phases. These phases are:

1. Education on 2018/2019 Fire Hazard Reduction Notice
2. Fire break variation, applications & approvals
3. Initial property assessment
4. Re- assessment for non-compliant properties
5. Take action (enforcement)
6. Request for withdrawal

Phase 1. Education on 2018/2019 Fire Hazard Reduction Notice

Over the winter period the Emergency Management team will be working closely with Public Relations to develop and deliver educational products to the residents and stakeholders within the City.

A webpage will be developed within the current City website. This will show videos, photos, have self-assessment tools, links to other important stakeholders and more in-depth information for preparedness.

The Fire Hazard Reduction Notice will be sent via mail along with the rates as per the process over previous years.

PR will be holding engagement booths at major shows, use social media such as Facebook, the notice will be advertised twice with the local papers and be broadcast on digital displays at libraries and variable message boards.

See attached Communications strategy from Public Relations for the 2018/2019 Fire/Storm season.

Phase 2. Variation to current requirements.

What is a Variation?

A variation is an exemption to the conditions outlined in the 2018/2019 Fire Hazard Reduction Notice. The notice may change yearly so a variation will only be valid for 12 months.

Variations will only be approved if the CBFCO or their delegate recognise that it is impractical or not sustainable to meet the requirements of the Notice.

In most cases the representative will require additional works for the stakeholder to comply with in order to meet the same level of preparedness on that property. All requests for variations should be directed to the CBFCO for action.

History has shown that many variations have been granted for various reasons, we have now introduced a new variation tracking system in Synergy, this will collate to an assessment application that inspectors will use out in the field.

All current variations will be reviewed by September 2018 and either reissued for current fire season until the 1st October 2019 or canceled if not required/does not meet the current requirements for a variation. The CBFCO has the reasonability for review.

The CBFCO/CESM will advise the FCO's of any property variations that may impact upon initial fire hazard assessments via the means of information imputed into Synergy and reflected in the assessment application.

All variations are required to be submitted by 1st October 2018.

Once a variation is approved by the CBFCO/CESM, all associated documentation will be compiled, sent to the occupier/owner and saved in Synergy for record keeping purposes.

If a variation is received after 1st October 2018 the CBFCO will assess as per normal process, however will only be approved if there is absolutely no other way the land owner can comply. Variations for grazing or extensions will not be approved.

Phase 3. Initial property assessment

Fire hazard assessments will be conducted by the City's FCOs. Initial assessments will commence on the 1st November 2018 and run throughout the season until 31st March 2019.

The City accepts that it does not have the resources to inspect every property so assessments will be carried out strategically from highest risk ratings from the Bushfire Risk Management System to the lowest.

After each category is assessed the FCOs will go back over and re-assess properties that have been issued work orders (cautions). Once the second assessments are completed the FCOs will move onto the next highest category and repeat the process until the end of the fire season.

The City has an objective to inspect as many assets within the City against the 2018-2019 Fire Hazard Reduction Notice for compliance by 31st March 2019 using a risk based approach.

The FCO will risk rate properties over the winter months in preparation for the fire season and approach owners strategically before the season to try and achieve compliance.

Throughout winter and summer the City will be logging treatments onto the BRMS system to keep an updated overview of the overall risk.

FCOs will be trained in late October by the CBFCO and Emergency Management team. A key focus of the training will be:

- Fire Hazard Reduction Notice. CBFCO to explain what is required with the notice and why.
- Safety of firefighting crews entering the property.
- When assessing a property, should there be any danger to unsuspecting crews, training to help identify what could be a hazard is required.
- Further Hazard reduction and community engagement.
- FCOs will help to identify what could be a future hazard and what the owners can do to help reduce it, this will be education only and is not enforced unless it is posing an immediate danger. DFES 5 min fire chats to be delivered where possible to residents encouraging and educating on awareness.
- OH&S
- The use of communications & devices.

The FCOs will be allocated areas that they will be responsible for inspecting. A description of areas will be listed at the end of this report on pages 17-25.

When conducting an assessment the FCO will adhere to the following key principles:

- Not enter any property that is marked "Red Flag" alone or without telling a senior.
- Will knock on every door and call out to see if someone is home.
- If a gate requires opening, it will be closed immediately after the FCO has passed through it.
- Will not drive at excessive speeds on private property or dig up ground unnecessarily.
- Will wear body cameras and record all assessments and interactions with residents.
- Will leave the property and arrange another assessment with a second officer if asked to not record with their body camera.
- Will drive the full fire break on each property, where possible.
- Identify non-compliance.

If a property cannot be accessed then a "non-accessible" form is to be filled out in the assessment application. This will produce an official letter that will be sent to the owner requesting an appointment.

Access – Fire breaks

It is essential that large 4-wheel drive vehicles including Firefighting Trucks can drive SAFELY around a firebreak.

If a dead end firebreak is identified during the assessment, the Officer is to note the property down on the dangerous break register. This is an excel spreadsheet that is located on the M drive under FCO. <M:\FCO\2018-2019 Fire season Prep>

A fire break MUST be a minimum 3m wide (max of 6m) and have a minimum height clearance of 4m. The fire break must be clear of flammable material, this means bare mineral earth.

A fire break must be in continuous form meaning a fire appliance can enter it at the gate and follow it continually around the property and exit at the other side of the gate.

Example of a **BAD** Fire Break

Example of a **GOOD** Fire Break

Slashing – Fuel load

Properties must slash grass, weeds and flammable matter down to a height no greater than 50mm (5cm) this is due to the scientific research done on the amount of fuel a fire requires to build to its full potential. Grass at 50mm is equivalent to 7 ton per hectare of fuel, 8 ton of fuel per hectare is the maximum a property should hold.

All properties must not leave the dead remains on the ground, these must be removed as DFM.

Example of a well slashed paddock

Building/Asset Protection Zone – BPZ/APZ

Properties over 4000m² must adhere to a quality building protection zone.

- No trees or shrub over 2m in height within 2m of the house.
- All trees over 5m in height must be under pruned by 2m within the protection zone (20m)
- Fuel load must be kept to a minimal

Dead Flammable Material

All piles of Dead Flammable Material (DFM) must be removed from the property. A fuel load of DFM over 8t per hectare is unacceptable and will need to be addressed, especially alongside driveways or fire breaks. The fuel load will be measured at the discretion of the FCO if they feel it is necessary. FCO has discretion to accept fuel loads up to 12T if they believe it does not pose an immediate threat.

The properties will be broken up into 4 different assessment requirements, over 4000m², under 4000 m², Vacant land over 2000m² and Vacant land.

Over 4000m² require:

- Fire Break
- BPZ/APZ
- Grasses slashed
- Removal of DFM

Under 4000m²

- Slash Grasses
- Clear gutters
- Removal of DFM

Vacant land over 2000m²

- Fire Break
- Grasses slashed

Vacant land

- Grasses slashed

Phase 4. Re-assessment for non-compliant properties

If a property is deemed non-compliant a work order (caution) is to be issued outlining the areas of non-compliance, this will be sent via post. The owner will have 14 days from the date of the work order being created to comply with all of the required works. The City recognise the delay with Australia Post, this has been considered and is inclusive of the 14 day time frame.

Extensions to this timeline will be approved for the following reasons and evidence only:

- Owner obtains a City free skip bin – Must supply booking number or confirmation email and must be at the earliest possible availability, once a bin is delivered we will give the owner another 48hrs to comply.
- Owner obtains the services of a contractor – the contractor must advise the City of their clients booking, alternatively a paid invoice can be supplied by the owner. These works must be completed no more than 28 days from the date of work order, this will not be advertised to anyone as it will be a business rule.
- Owner has extenuating medical/other circumstances, this extension is to be approved by the CBFCO only.

Upon a follow up assessment, a City FCO may find additional issues, if these issues have been created recently, for example dead flammable material has been dumped as a result of slashing grass or clearing fire break, then an infringement will be issued including these items.

If the issue is a result of something missed through the first assessment then a new work order is to be issued outlining the new requirements.

In this phase it is crucial to ensure that timelines are met. In order to achieve this the team must work together and maintain excellent records. This will be done using the new Altus assessment app.

Phase 5. Take Action

Compliant:

Once the FCO has noted compliance, they are to close off the property within the inspection model of Altus as "assessed". This will close that open assessment.

Non-Compliant:

1. Infringement to be issued to the owner of the property for contravention of Section 33 of the *Bush Fire Act 1954*.
2. Arrange for an infringement to be sent to the owner of the property.
3. Seek direction from Management if they want to utilise City contractors to complete the works at the cost of the owner.
4. Prepare a cover letter explaining what has occurred and why the owner has been issued with an infringement notice using standard template by CRO.
5. Update fire break compliance register in Altus with status of progress (Notes Field).

If they fail to Pay

1. Infringement notices will be lodged with the Fines Enforcement Agency (FER) for collection.
2. Contractor's invoices are to be followed up through the finance team's process.

Phase 6. Request for Withdrawal

Stakeholders issued an infringement have the right to have it reviewed, the process is outlined below:

1. The owner sends a request for withdrawal in writing to the City, the City will provide a form the landowner must fill out. If the form is not completed then the request will be rejected.
2. Every property must have a separate withdrawal request.
3. If the request is sent 56 days after original issue, a withdrawal will not be processed.
4. If the request is sent before the 56 days, then the CRO will put the account on hold and await instruction.
5. The officer with assistance from the CRO will produce a memo for withdrawal, this gathers all the information relevant to the decision made and asks for a further recommendation.
6. Memo is sent to Senior, Coordinator and Director for their recommendation.
7. If the Director is in agreeance that the infringement stands then the CRO will send a letter advising of the outcome and take the infringement off hold.
8. If the infringement is recommended to be withdrawn then the CRO will do so and advise reason for withdrawal, they will also send a written letter via post advising action.

Note: Director and management must supply written reasoning in a foot note for withdrawal or otherwise of the infringement.

Administration and Logistics.

CRO will be responsible for the distribution of all work orders, infringements and other documents as required.

The CRO will also be required to complete record keeping, phone calls and help book appointments upon FCOs request.

Fit for use Vehicles x3

- 4 Wheel Drive
- All Terrain Tyres
- Bulbar & Side Protection
- Reverse Camera
- High Visibility Signage, same as Fire Appliances
- Alternating Warning Lights, High Intensive LED
- Cel-Fi 4G Booster Kit
- Tablet Holder
- Fire Extinguisher & First Aid Kit

COMMUNICATION

Communication is via the normal processes for example email, reports, phone, correspondence and meetings.

Any communication will need to be logged in Synergy under an ICS or equivalent, emails are acceptable for general, internal requests only. If the matter is going to be larger than the two internal staff or maybe called upon officially at a later date it is to be logged as an ICS.

Refer to City policies for the communication standards.

At the end of each phase a quick catch up with the CBFCO and Coordinator of Community Safety will need to occur to ensure work quality and the process is running on time.

Telco radios will be supplied to every inspector and one for the office.

These radios double as a mobile phone, GPS, Distress button, Camera and emails.

The officers will be required to check in with the CRO every 30-45min to ensure their safety is not compromised.

These radios work off the 4G network so still require reception to work.

Vehicles working out of reception zones should be equipped with a City Midband radio – Tait 2200 or equivalent for emergencies.

Operation should be on channel 100 for the Midband radios and is monitored by Ranger Services.

Personal Protective Equipment & Uniforms

- Vest – every inspector will be supplied a Personal Protective Vest, this will be yellow and have the ability to hold Radios, Note Pads, Body Cameras and ID tag.
- ID Tags – Every officer will be supplied an ID tag reflecting their authority to be worn at all times.
- Body Camera – Every officer is supplied a body camera, this will be on when attending any property or dealing with the public. This will be downloaded by a senior every day.
- Navy Blue Shirt – every officer will be supplied 3 navy blue shirts as part of their uniforms.
- Wide Brim Hat or Cap.
- Cargos – Full time staff will be supplied Cargos. Casual staff will be required to supply their own cargos from S&H Clothing.
- Firefighting Boots – Full time staff only, casuals to supply their own.
- Kit Bag – Every officer will get a kit bag for their paperwork and equipment, this is to be returned to the office each night.
- Yellow Rain Jacket – Full time staff only
- Level 1 BR9 Helmet – Full time Staff only
- Level 1 Jacket – FCO Epilates Full time staff only

Frequently Asked Questions

Questions a Resident may ask	Response to questions
This is the first time that I have never heard of a 'Fire Notice'. Why was I not told before receiving this Work Order?	The Fire Hazard Reduction Notice is sent out annually with Rates. The Notice is also advertised several times leading up to the season via the city of Kalamunda Webpage, Facebook and local print media
Can I have an extension to complete the work?	The City does not provide extensions for work orders unless; A) a contractor has been engaged to complete the works on your behalf - NOTE: Contractor will need to notify the City on your behalf, advising of when the prescribed works are to be completed. The prescribed works must be completed as soon as possible; or B) Resident waiting on a skip bin from the City, in which they will have to provide the City an email copy of Cleanaway confirmation. These extension will only be granted via written confirmation from the City.
I have just had an Inspector on my property, is this allowed?	S39(1) Special powers of bush fire control officers Subject to the provisions of this Act a bush fire control officer appointed under this Act by a local government may, in the exercise of his functions and the performance of his duties under this Act, do all or any of the following things — (b) enter any land or building, whether private property or not; and (d) cause fire-breaks to be ploughed or cleared on land, whether private land or not, and take such other appropriate measures on the land as he may deem necessary for the purpose of controlling or extinguishing a bush fire or for preventing the spread or extension of the fire;
I only just received my work order, yet it was dated a few days ago. Can I have an extension?	The City recognised that Australia Post will sometimes be delayed and has worked this into the 14 day requirement.
What happens if I refuse to do the work?	If you refuse to do the work, you may be issued with an infringement. The City may employ a Contractor to carry out the prescribed works on High Risk, non-compliant properties, which will be charged to the property owner. Additionally, the City may prosecute you under the Bush Fires Act 1954 in Court, were you may face a \$5000 penalty and associated costs.
Why does the City of Kalamunda conduct Fire Hazard Assessment?	To ensure a safe and resilient community and to help control and prevent the spread of fire.

Frequently Asked Questions

Questions a Resident may ask	Response to questions
Why is the Fire Inspector only inspecting my area?	The entire City is subjected to the annual Notice. We have multiple Fire Hazard Inspectors that conduct the assessments simultaneously across the City of Kalamunda. These FCOs will commence on the 1st of November annually.
I have my concerns about a fire hazard. How do I report it?	Please go to the City's website where you can lodge an online request. A Fire Hazard Inspector will then investigate the request and if deemed to be a fire risk, the appropriate action will be taken.
The City is not taking care of their Verges and yet I am being asked to complete a Work Order?	Please refer to the City's 'Verge maintenance Policy' or contact the City Parks Team on 9257 9809
What do I do if I receive a bush fire infringement and I don't agree with it?	If you wish to object to the infringement that you received, please lodge an online 'infringement request for withdrawal form' via the City's website. This will then be reviewed via the appropriate procedure. This has to be submitted to the City of Kalamunda within a 56 day period of the infringement being issued, otherwise the objection may not be considered.
Do you have a Contractor's List?	The City does not provide a Contractors List to residents. Contractors for the area can be found online via search engines and within local directories.
This is the first time that I have ever heard of a 'Fire Notice'. Why was I not advised of this before?	The Fire Hazard Reduction Notice is sent out annually with Rates. The Notice is also advertised several times leading up to the season via the city of Kalamunda Webpage, Facebook and local print media
What is a Variation?	A Variation is an exemptions to the conditions outlined in the notice.
Do I need a Variation?	If you consider a requirement set out in the notice to be impossible to comply with, then you may require a variation.
How do I apply for a Variation?	To apply for a variation, you must submit an online form on the City's website, outlining the reason/s as to why a variation is required and what alternative mitigating measures have been implemented. Variations will be assessed by the CBFCA and approved on a case by case basis. Variations are only valid for the season and are not automatically renewed.

Frequently Asked Questions

Questions a Resident may ask	Response to questions
How will I know if my property has a variation?	Once you have applied for a variation, the City will send a confirmation letter advising the outcome and conditions.
What are firebreaks?	A firebreak is a 3 meter wide, bare mineral earth, cleared strip/track. A firebreak must not have any combustible materials present and must have a height clearance of 4 meters minimum. A firebreak is used for firefighting techniques and access for fire appliances in the event of an emergency incident. These breaks are must be in a continuous, trafficable form meaning a large vehicle can drive continuously and safe in one direction within the perimeter of the property and end up where they started.
What is the best method to install Firebreaks to my property?	There are many ways to achieve the desired outcome. The City suggests seeking professional advice from a Contractor.
When can I use a Fire Pit?	Please refer to the City's Website for Fire Restrictions and Information.

This work is copyright. Apart from any use as permitted under the *Copyright Act 1968*, no part may be reproduced by any process without written permission from the Attorney General for Western Australia. Inquiries in the first instance should be directed to the Government Printer, State Law Publisher, 10 William St, Perth 6000.

PUBLISHING DETAILS

The Western Australian *Government Gazette* is published by State Law Publisher for the State of Western Australia on Tuesday and Friday of each week unless disrupted by Public Holidays or unforeseen circumstances.

Special *Government Gazettes* containing notices of an urgent or particular nature are published periodically.

The following guidelines should be followed to ensure publication in the *Government Gazette*—

- Material submitted to the Executive Council prior to gazettal will require a copy of the signed Executive Council Minute Paper.
- Copy must be lodged with the Publication Officer, State Law Publisher no later than 12 noon on Wednesday (Friday edition) or 12 noon on Friday (Tuesday edition)—

Email address:

slp@dpc.wa.gov.au

Postal address:

State Law Publisher
Lower Ground Floor,
10 William St. Perth, 6000
Telephone: 6552 6000

- Inquiries regarding publication of notices can be directed to the Publications Officer on (08) 6552 6012.
- Lengthy or complicated notices should be forwarded early to allow for preparation. Failure to observe this request could result in the notice being held over.

If it is necessary through isolation or urgency to email or fax copy, confirmation is not required by post. *If original copy is forwarded later and published, the cost will be borne by the advertiser.*

ADVERTISING RATES AND PAYMENTS

EFFECTIVE FROM 1 JULY 2018 (Prices include GST)

Deceased Estate notices (per estate)—\$32.10

Articles in Public Notices Section—\$74.65 minimum charge (except items of an exceptionally large nature. In these instances arrangements will be made for pricing the notice at time of lodging).

All other Notices—

Per Column Centimetre—\$14.85

Bulk Notices—\$272.55 per page

Electronic copies of gazette notices sent to clients for lodgement with the Delegated Legislation Committee—\$49.10

Clients who **have** an account will only be invoiced for charges over \$100.

For charges under \$100, clients will need to supply credit card details at time of lodging notice (i.e. a notice under 7cm would not be invoiced).

Clients without an account will need to supply credit card details at the time of lodging the notice.

\$101.40

Part 5 — *Road Traffic (Administration) Regulations 2014* amended

9. Regulations amended

This Part amends the *Road Traffic (Administration) Regulations 2014*.

10. Regulation 35 amended

In regulation 35(2) in the Table:

- (a) in item 1 delete “18.00” and insert:

18.50

- (b) in item 2 delete “3.35” and insert:

3.40

**Part 6 — Road Traffic (Vehicles)
Regulations 2014 amended**

11. Regulations amended

This Part amends the *Road Traffic (Vehicles) Regulations 2014*.

12. Regulation 87 amended

In regulation 87 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	116.00	96.50
Heavy vehicle examined at an inspection station	192.50	140.40
Heavy vehicle examined at a place other than an inspection station	276.70	230.55
All other vehicles	135.20	104.90

13. Regulation 88 amended

In regulation 88 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	123.10	101.80
Heavy vehicle	206.55	149.70
All other vehicles	144.05	111.00

14. Regulation 89 amended

In regulation 89 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	117.00	97.25
Heavy vehicle	194.50	141.75
All other vehicles	136.45	105.75

15. Regulation 90 replaced

Delete regulation 90 and insert:

90. Fees for vehicle examination in the Great Southern region

The fees specified in the Table are payable by the owner of a vehicle for examination of the vehicle by the CEO in the Great Southern region for the purposes of the Act.

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	116.15	96.60
Heavy vehicle	192.80	140.60
All other vehicles	135.40	105.05

16. Regulation 91 amended

In regulation 91 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	126.05	104.05
Heavy vehicle	212.45	153.60
All other vehicles	147.75	113.55

17. Regulation 92 amended

In regulation 92 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	116.95	97.20

Vehicle	First examination (\$)	Subsequent examination (\$)
Heavy vehicle	194.35	141.65
All other vehicles	136.35	105.70

18. Regulation 92A inserted

After regulation 92 insert:

92A. Fees for vehicle examination in the Peel region

The fees specified in the Table are payable by the owner of a vehicle for examination of the vehicle by the CEO in the Peel region for the purposes of the Act.

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	116.00	96.50
Heavy vehicle	192.50	140.40
All other vehicles	135.20	104.90

19. Regulation 93 amended

In regulation 93 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	124.35	102.75

Vehicle	First examination (\$)	Subsequent examination (\$)
Heavy vehicle	209.05	151.35
All other vehicles	145.60	112.05

20. Regulation 93A amended

In regulation 93A delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	117.25	97.45
Heavy vehicle	194.95	142.05
All other vehicles	136.75	105.95

21. Regulation 94 amended

In regulation 94 delete the Table and insert:

Table

Vehicle	First examination (\$)	Subsequent examination (\$)
Motor home or trailer without brakes, motor cycle, motor carrier, vehicle with engine change	117.35	97.50
Heavy vehicle	195.15	142.15
All other vehicles	136.85	106.05

22. Regulation 95 amended

In regulation 95(1) delete the Table and insert:

Table

Place of examination	Fee (\$)
Place other than a region mentioned in this Division	104.90
Gascoyne region	111.00
Goldfields-Esperance region	105.75
Great Southern region	105.05
Kimberley region	113.55
Mid West region	105.70
Peel region	104.90
Pilbara region	112.05
South West region	105.95
Wheatbelt region	106.05

23. Regulation 97 deleted

Delete regulation 97.

24. Various fees amended

Amend the provisions listed in the Table as set out in the Table.

Table

Provision	Delete	Insert
r. 44(4)(a)	\$9.10	\$7.60

2.	Application for, and issue of, a replacement photo card in accordance with r. 4	30.00
3.	Application for, and issue of, an additional photo card in accordance with r. 5	44.00

N. HAGLEY, Clerk of the Executive Council.

TREASURY AND FINANCE

TR301

Duties Act 2008

Duties Amendment Regulations 2018

Made by the Governor in Executive Council.

1. Citation

These regulations are the *Duties Amendment Regulations 2018*.

2. Commencement

These regulations come into operation as follows —

- (a) regulations 1 and 2 — on the day on which these regulations are published in the *Gazette*;
- (b) the rest of the regulations — on 1 July 2018.

3. Regulations amended

These regulations amend the *Duties Regulations 2008*.

4. Regulation 7 amended

- (1) In regulation 7(1) insert in alphabetical order:

carriage of passengers or goods between prescribed places has the meaning given in the *Interstate Road Transport Act* section 3(1);

Interstate Road Transport Act means the *Interstate Road Transport Act 1985* (Commonwealth);

- (2) In regulation 7(2):

- (a) in paragraph (b) delete “plant.” and insert:

plant;

- (b) after paragraph (b) insert:

- (c) a motor vehicle or trailer that was registered under the *Interstate Road Transport Act* section 9 and whose registration was in force immediately before the close of 30 June 2018.

- (3) Delete regulation 7(3) and insert:

- (3) For the purposes of section 244(b) of the Act, these classes of person are prescribed —

- (a) persons who own a tractor or tractor plant the vehicle licence charge payable for which is reduced under the *Road Traffic (Vehicles) Regulations 2014* regulation 81;
- (b) persons who own a motor vehicle or trailer referred to in subregulation (2)(c).

- (4) In regulation 7(4):

- (a) in paragraph (d) delete “purposes.” and insert:

purposes;

22 June 2018

GOVERNMENT GAZETTE, WA

2195

(b) after paragraph (d) insert:

- (e) the carriage of passengers or goods between prescribed places or any purpose incidental to carriage of that kind.

Note: The heading to amended regulation 7 is to read:

**Classes of vehicles, persons and purposes prescribed
(Act s. 244)**

N. HAGLEY, Clerk of the Executive Council.

LG501
BUSH FIRES ACT 1954**FIRE HAZARD REDUCTION NOTICE 2018/2019***City of Kalamunda*

Notice to Owners and/or Occupiers of land situated within the City of Kalamunda

As a measure to assist in the control and prevention of bushfires and pursuant to the powers contained in Section 33 of the *Bush Fires Act 1954*, as the property owner or occupier of land within the City of Kalamunda, you are hereby required before 1 November 2018 to comply with the below conditions.

The applicable works outlined below, must be completed before 1 November 2018 and maintained up to and including 31 March 2019.

Persons who fail to comply with the requirements of this Notice may be issued with an infringement notice penalty (\$250) or prosecuted with an increased penalty (Maximum penalty \$5,000). Additionally, the City of Kalamunda may carry out the required work at cost to the owner/occupier.

All vacant land**SLASH GRASS**

Have all flammable matter except living trees, shrubs and plants under cultivation, slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property.

Vacant land over 2000m²**SLASH GRASS**

Have all flammable matter except living trees, shrubs and plants under cultivation, slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property

INSTALL FIRE BREAK

Install and maintain a 3m wide by 4m high clearance, bare mineral earth, trafficable fire break immediately inside the entire perimeter. A reticulated and maintained green lawn maybe accepted in lieu of a fire break.

Properties 4000m² and under**SLASH GRASS**

Have all flammable matter except living trees, shrubs and plants under cultivation, slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property.

CLEAN GUTTERS

Ensure the roofs, gutters and walls of all buildings are free of flammable matter.

2202

GOVERNMENT GAZETTE, WA

22 June 2018

REMOVE DFM (Dead Flammable Material)

Maintain all dead flammable material below 8 tonne per hectare. (See definition fuel load)

Properties over 4000m²**SLASH GRASS**

Have all flammable matter except living trees, shrubs and plants under cultivation, slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property.

CLEAN GUTTERS

Ensure the roofs, gutters and walls of all buildings are free of flammable matter.

REMOVE DFM (Dead Flammable Material)

Maintain all dead flammable material below 8 tonne per hectare. (See definition fuel load)

INSTALL FIRE BREAK

Install and maintain a 3m wide by 4m high clearance, bare mineral earth, trafficable fire break immediately inside the entire perimeter. A reticulated and maintained green lawn maybe accepted in lieu of a fire break.

ASSET PROTECTION ZONE (APZ)

Install and maintain an (APZ) 20m fuel reduced zone, around buildings or an asset of value which extends from the outermost point, whether residential, commercial, industrial or environmental. Fuel reduced is a reduction in the vegetation sufficient to reduce the impact of bushfire onto that asset.

- Trees over 5m in height must be under pruned to a height of 2m from the ground
- Trees or shrubs within 2m of the asset, must be pruned to a height no greater than 2m
- Fuel load within 20 m of the asset must be kept to a minimum.

Additional Works

In addition to the noted requirements, regardless of land size and location, the City of Kalamunda or its duly authorised officer(s) may require you to undertake additional works on your property to improve access and/ or undertake further hazard reduction (Additional Works) where, in the opinion of the officer, such Additional Works are necessary to prevent the outbreak and/or the spread of a bush fire.

Firebreak Variations

If you consider for any reason that it is impractical to clear firebreaks as required by this Notice, or if natural features render firebreaks unnecessary, you may apply in writing to the City of Kalamunda or its duly authorised officers, not later than 1 October 2018, for alternative positions, or other methods of fire prevention on your land.

If permission is not granted, you must comply with the requirements of this Notice. This applies to variations to the Asset Protection Zone as well. The Chief Bush Fire Control Officer reserves the right to review and revoke any variation granted at any time.

Fuel Dumps and Depots

You are required to remove all flammable matter within (10) metres of where fuel drums, fuel ramps or fuel dumps are located, and where fuel drums, whether containing fuel or not, are

Definitions

Fuel load—This is the leaf litter on the ground inclusive of leaves, twigs (up to 6mm diameter) and bark. A litter depth of 15mm from the top of the layer to the mineral earth beneath is indicative of approximately 8 tonnes per hectare.

By order of the City of Kalamunda,

RHONDA HARDY, Chief Executive Officer.

MINING ACT 1978
INSTRUMENT OF EXTENSION OF TERM OF EXEMPTION OF LAND

I, Richard John Rogerson, Executive Director, Resource Tenure, pursuant to section 19 of the *Mining Act 1978*, hereby extend the exemption originally declared on 26 June 2006 and published in the *Government Gazette* dated 26 June 2006 for that area described hereunder (not being private land or land that is the subject of a mining tenement or an application for a mining tenement) from Divisions 1 to 5 of Part IV of the *Mining Act 1978*, for a further period of two years, expiring on 25 June 2020.

Locality

Gracetown

Description of Land

Land designated S19/299 in the TENGRAPH electronic plan of the Department of Mines, Industry Regulation and Safety. A geospatial description is filed on the Department of Mines, Industry Regulation and Safety electronic file A0690/201201 and identified as document R02929722.

Area of Land

289.05 hectares

Dated at Perth this 15th day of June 2018.

RICHARD JOHN ROGERSON, Executive Director,
Resource Tenure.

Summary of Submissions

Proposed Permanent Closure of Portion of William Street/Sheffield Road, Wattle Grove

Submitter No.	Nature of Submission	Response/Recommended Modifications
Submission 1	<p>Objection.</p> <p>"Sheffield road is an arterial road for wattle Grove community. This road has been mainly used by school goers from either side of Hale road communities including school buses plying on special occasions. Potentially this road is an entry for majority of residents and is quite busy and even pedestrian paths are utilised by primary school students. If the William street has been amended to existing property then it would adversely affect the visibility, aesthetics of the road. I suggest the vacant area be left open with some beautiful gardens maintained by the council or residents associated with property rather than merging with the existing LOT. If it is amended with the property this would mean the resident could potential build fences/ walls which would affect the visibility and aesthetics of the Sheffield road and William road. I reiterate that Sheffield road is an arterial road and the open spaces should be left open for better visibility and aesthetics rather than encroaching with private buildings/patios and fences. Most of Sheffield road residents including myself strongly oppose the partial closure of William street."</p>	<p>Corner lots are designed with truncations in order to better facilitate sight lines for turning vehicles. However, a standard truncation is far less onerous than that which is currently in place on the site. For example, nearby properties at 1A, 3 and 5 William Street have what may be considered as a far more 'standard' truncation to a lot, which still provides for adequate sight lines.</p> <p>In addition to this, Clauses 5.2.4 and 5.2.5 of the Residential Design Codes set out the requirements for street walls and fencing, and applicants are within their rights to apply to develop to these standards, as well as the standards specified in the City of Kalamunda's Street Fence, Wall and Gate Policy. Any application to construct a fence in this area will be assessed by City Officers to ensure that sightlines are not impeded upon.</p>
Telstra	<p>No objection, subject to condition.</p> <p>Telstra's plant records indicate that there are Telstra assets within the area of the proposal. At this stage, Telstra has determined that the existing Telstra infrastructure in the existing road reserve will have to be relocated to the new road reserve.</p>	<p>Noted.</p> <p>Applicant to bear cost of relocation of Telstra infrastructure.</p>

<p>ATCO Gas</p>	<p>No objection, subject to condition.</p> <p>ATCO Gas Australia does not operate gas infrastructure within this immediate 163m² area of road reserve.</p> <p>ATCO Gas does however operate a medium pressure gas main (DN110PE 1.5MP 70kPa) with 1.5 metres and a High Pressure (DN300ST 3.9HP 1900kPa) gas main within 3.5 metres of the existing cadastral boundary of Lot 757 and also the proposed extended boundary realignment.</p> <p>ATCO Gas has no objection to the proposal to facilitate the proposed change in land tenure for that portion of William Street Wattle Grove subject to the following Advice Notes being included;</p> <p><u>Advice Notes to applicant</u></p> <ul style="list-style-type: none"> • ATCO Gas Australia has High Pressure gas mains (Pipeline 41) within the immediately adjacent road reserve of William Street. ATCO Gas must be notified of any works within 15 metres of High Pressure gas infrastructure before those works begin. • Construction, excavation and other activities are restricted in this zone. No pavements (including crossovers) are to be constructed over the pipeline without consent from ATCO Gas Australia. Various pipeline safety tests may apply. The applicant is advised to contact ATCO on 9499 5272 in this regard and comply with the requirements of the ATCO Gas document NCN-WI008-RF01 Additional Information for Working Around Gas Infrastructure. • Anyone proposing to carry out construction or excavation works must contact 'Dial Before You 	<p>Noted.</p> <p>Council to include advice notes in the Council resolution.</p>
-----------------	--	---

	Dig' (Ph 1100) to determine the location of buried gas infrastructure.	
Western Power	<p>No objection.</p> <p>Western Power does not have any objection to the proposal but would appreciate being kept informed of developments.</p> <p>Western Power infrastructure may need to be removed or relocated.</p>	<p>Noted.</p> <p>Applicant to bear cost of removal or relocation of Western Power infrastructure.</p>
Water Corporation	<p>No objection, subject to condition.</p> <p>There is an existing dn150mm cast iron water main that will be impacted by this proposed closure that is not shown on the plan provided.</p> <p>If the main is relocated to the std 2.1m alignment off the proposed boundary then we will not object to the proposal. You will need to have a design submission done and lodged for the new main.</p>	<p>Noted.</p> <p>Applicant to relocate water main prior to land transfer.</p> <p>Applicant to bear cost of design submission and relocation of water main.</p>

NAMING OF BARRIE OLDFIELD PARK 8th May 2018

BARRIE OLDFIELD O.A.M.

**Freeman of the Shire of Kalamunda
Centenary Medal
John Tonkin Greening WA Award.**

These were Honours granted to Barrie because of his extraordinary service to the community - a recognition never sought by Barrie – and now the community wishes to make an enduring recognition of him by re-naming Willoughby Park the Barrie Oldfield Park.

History

1963 Barrie & Sallie Oldfield arrived in Australia, having travelled overland in their Morris 1100 until they boarded a ship in India.

1964 Settled in Lesmurdie, where they immediately attended St Swithuns Church. To Barrie's delight they needed an organist, a position he filled for the next 50 years.

They also joined the Lesmurdie Ratepayers Association, because Barry said '*It is a marvellous way to become absorbed into your Community*'.

Service to the Community

Barrie was an active member of Lesmurdie Ratepayers Association for 51 years, not all of them without controversy. However Barrie's leadership shone in turbulent times and portrayed his quiet but effective way to deal with a brick wall. He did not confront it. He negotiated a way round it, he tunnelled under it or he leapfrogged over it. Barrie's positive approach drew amazing support from his community.

1966 Kalamunda Council imposed two conditions before it would build a new hall in Lesmurdie.

- There had to be a population growth in Lesmurdie
- LRA was required to pay 10% of the cost of building the hall, 5% before Council would even consider the matter as a budget item.

Members raised the money and met the conditions. Barrie raised money by selling rows of tickets to shows at opening nights of the Playhouse theatre. The hall opened in 1968.

1978 Barrie was elected to Kalamunda Council for 3 year term, quite a memorable time for South Ward. Barrie was the peace keeper!

1979 Organised the Red Cross Door Knock in Lesmurdie for 10 years.

1980 Joined in the negotiations to build a new high school in Lesmurdie and then served on its Board of Management.

1983 Barrie led the diplomatic push to save Falls Farm Cottage from the developer's bulldozer. The Council condition imposed this time was that the restoration had to occur '*at no cost to the ratepayer*'. Under Barrie's presidency the LRA raised \$72,000 and restored the cottage, which opened to the public in 1986.

Lesmurdie 2000

1975 Barrie was concerned that people were not taking a proactive role in planning for a positive future. Thus “Lesmurdie 2000” was born and the LRA became immersed in the forthcoming millennium, well before it became a popular catch cry. This was the day of rubbish tips, no recycling, waste management or organic gardening. In the subsequent 25 years many Lesmurdie 2000 public forums were held with world leaders in the environmental movement - all of whom Barrie managed to secure for a gold coin collection.

The birth of *Lesmurdie 2000* coincided with Barrie Oldfield’s appointment as Manager of the Educational Media Centre with the Western Australian Institute of Technology, a valuable source for international speakers. All these forums were arranged by Barrie Oldfield and chaired by Tony Evans or John Harper Nelson, both of the ABC.

**2 December 1975: Politics and Local Government; New Trends in Education.
Prof Gordon Reid (Later Governor WA); Dr Mike Walker; Don Openshaw;**

**26 October 1976: ‘Organic Gardening’
Lawrence Hills (Founder and Director of the Henry Doubleday Research Assoc.)**
This forum led to the formation of Organic Growers Association of WA .

**21 September 1978: Permaculture
Bill Mollison**

**24 August 1979: Better Ways with Waste.
Prof Ted Bruce, Reader in Public Health Engineering at the Imperial College of
Science and Technology, London.**
Brought to Perth to discuss alternatives to landfill with all the municipal engineers from many local authorities. This was new technology. Kalamunda Shire’s Engineer and Health Inspector attended our forum. Following this visit, the Public Health Department quickly introduced the ‘Industrial Waste Exchange’ and charities made money out of recycling newspapers.

**6 March 1980: Fertility on the Fringe.
W. E. Shewell Cooper (Founder and Chairman of the Good Gardeners
Association):**
Organic gardening, composting, no-dig gardening, earthworms and definitely no chemicals.

**18 September 1980: Men of the Trees.
Richard St Barbe Baker: Founder of The Men of The Trees.**

**March 1983: Prosperity for All - One Earth Gathering
Lionel Fifield (Queensland.)**

**1990: Alternative Technology
Damien Randell (North Wales).** Solar cells, solar water heating, wind generators, wind pumps, water as a means of transmitting energy, biofuels.

Barrie Oldfield's Contribution to the Environment

It didn't take long for Barrie to make his environmental mark on Perth, when, as Press Officer to Archbishop George Appleton in 1964 he initiated a statement that resulted in the protection of the Port Jackson Fig alongside the Cloisters during the building of Mount Newman House.

Barrie was an accomplished photographer, a medium he used well to promote the natural environment. Between 1968 and 1978 he completed around 17 experimental films.

In 1974 he made the film *'What am I Bid for this Tree?'*

Then at the request of 'Campaign to Save Native Forests' Barrie invited E F Schumacher, a German economist of world stature, to make a film *'The Edge of a Forest.'*

This film was seen worldwide, including by Richard St Barbe Baker in England, who forthwith came to WA in March 1979 to form a branch of his worldwide organisation 'Men of the Trees.' Perhaps Barrie's most important environmental film was made in 1987 in WA's wheat belt with English environmental campaigner and botanist David Bellamy, *'Wheat now. What Tomorrow.'*

Barrie's work for the Men of the Trees is widely acknowledged by the experimental Amery Acres farm in Dowerin, the Men of the Trees permanent home in Hazelmere, the Children of the Trees, City Farm in Perth City and the planting of 15 million trees in WA.

1982 was declared the 'Year of The Tree'. Barrie offered to organise a major public tree planting for Men of the Trees that winter, planting 4000 seedlings on a rubbish dump on a degraded gravelly hillside along the Mundaring Weir Road. The State Minister for Environment considered it would be a good event to launch the 'Year of the Tree', so a sign was erected proudly stating that this was 'The First Planting for the Greening of Australia'.

Barrie Oldfield's greatest legacy is that he influenced an untold number of people to care about, and for, the environment throughout Australia and beyond.

He influenced Australian student Scott Poynton to become a forester when he was just 15 years old. In 1999 Scott formed the world wide environment group called 'The Forest Trust'.

In 2015 he sent Barrie a signed copy of his book "Beyond Certification" from his family home in Switzerland.

The inscription read:

*" Dear Barrie,
Thank you for setting my life on this wondrous course.
If not for you, then what?
My very best wishes
Full of admiration, appreciation & inspiration."
Scott.*

BARRIE'S 'GIFT OF MUSIC'

Barrie shipped his Blüthner grand piano from Oxford and it held pride of place in his home. Music was Barrie's life and he shared it willingly with his community. Children were encouraged to play his grand piano. Barrie made bamboo flutes with children at Kalamunda Zig Zag Festival for 30 years.

His involvement on the State Committee of the Royal School of Church Music led to his meeting Guildford Grammar School prize student Carl Vine. Carl performed the piano on 6 of Barrie's early environment films. Today, Carl Vine AO, is one of Australia's most accomplished composers.

Barrie continued to receive payment from his films which he placed into a fund. As he reached the end of his life he decided to make a 'Gift of Music' in the form of a new Grand Piano to each of the music departments of Magdalen College School in Oxford and Guildford Grammar School, and 20 string instruments for the Serpentine -Jarrahdale Grammar School.

Barrie said "What a pleasure that gift has given me."

Naming Barrie Oldfield Park

Up to 2011 there was a small piece of remnant bush squashed between a shopping centre and Lesmurdie Primary School. It was neglected, unloved, appreciated only as a short cut to school or as a place to dump rubbish. A sliver of remnant Jarrah forest suffering the pressures of an uncaring humanity upon it, with weeds encroaching from the edges.

Then it found a friend in Barrie Oldfield. He photographed 87 flowers of different native plant species living on this bush remnant over different seasons and published them for the interest of local residents. In 2013 there was enough interest to form a Friends Group for the park.

When it was time to name the park in 2014, Barrie tried to research the origins of the name Willoughby, but without success. Barrie was not a person to seek glorification for himself so the park was simply named after the street on which it sat.

Since Barrie's passing, the time has arrived to re-name this loved remnant of jarrah forest after a great man who spent his life planting trees and trying to save forests around the world.

Mrs Pauline Tonkin

Member Lesmurdie Ratepayers Association since 1969

Member Men of the Trees since 1979
