

DEVELOPMENT APPLICATION & MANAGEMENT PLAN FOR SHORT TERM ACCOMODATION

Property Address: 32 Calcite Place, Forrestfield

Overview

Let Go intends on becoming the Exclusive Managing Agent for the property located at **32 Calcite Place, Forrestfield.**

We are a short-term accommodation management company with many years' experience in the industry and a proven track record of a 4.7+/5-star review record having hosted approximately 600 stays per year and over 7000 nights on Airbnb.

We are submitting this development application seeking approved use of the above-mentioned premises for the purpose of short-term accommodation.

Airbnb and short-term accommodation deliver a staggering economic contribution to Western Australia and to its Local Government Authorities. In a 56-page report commissioned by Deloitte's into the economic effects of Airbnb in Western Australia, it was revealed that in just one year in Western Australia 171,500 Airbnb guests spent \$155m supporting 780 jobs and \$100 million in GSP. These figures have grown exponentially in recent years and are of enormous benefit to local businesses, residents, guests and the tourism sector.

Part of our management procedures include providing local recommended tips for nearby shops, restaurants, cafes, restaurants, entertainment, sights, attractions & much more. This local spending allows local business in your council area to thrive and continue or expand their operations. Something that the owners and staff are very grateful for, we often find after often meeting face to face with them.

Booking requirements

This property is a three-bedroom, two-bathroom home with two allocated garage parking bays. We would specify in our listings a provision of two car-bays allocated only and we also find that our short-term guests will often either have just one hire car or no car at all or possibly for their short stays. Further, we provide details for ride share companies such as Uber and Ola. We also promote taxis.

We anticipate that we may get approximately one booking per week and our average trip length is between 3-5 nights. This is based on the performance of our other similar listings that we manage.

We specify a minimum trip length of two (2) nights as we find this significantly deters any unwanted targeting for parties or gatherings. We also have a booking cut-off time after 7:00pm so that we can't allow last minute and late-night bookings to occur from opportunistic and likely undesirable guests.

Guest screening procedures

When a guest requests or books a stay with us, we can view the guest's profile including their required verification steps:

- Contact details including full name(s), phone number & e-mail address
- Acceptance of our stipulated house rules
- Confirmed payment
- Profile photo (if set)
- Government issued ID (such as driver's licence or passport)
- Written reviews/recommendations from other hosts
- Their overall star rating which can be categorised for items such as observance of house rules, cleanliness & communication
- Total number of guests & location based
- Their reason for visiting Perth & booking the property
- We can further screen the potential guest by cross referencing linked social media accounts + more

Once we have carried out a thorough check of the prospective guest, we then have a right to refuse, accept or cancel the reservation.

Our minimum set of house rules are displayed both on the online listing and in our comprehensive guest handbook (provided). We can add additional house rules to suit the property, location, neighbourhood or landlord's desires.

The Airbnb platform is currently the only platform we intend listing on and most of our communication is done through the application itself as we are backed by Airbnb's amazing platform, support and \$1m USD host guarantee & host protection insurance underwritten by Lloyd's of London. Once a guest is confirmed, our direct phone numbers are automatically exchanged for any further required communication. We privately message our guests before, during and after their stays and all the correspondence is saved for our own records. When a guest's reservation is approved, they will then be provided with the check-in details (check-in is at 2:00pm or 3:00pm and check-out is at 10:00am) which includes property address, clear written & visual check in instructions, parking instructions, WiFi details and more all included in our online handbook. There will be a lockbox on site for the guests to check-in safely and securely and the code will be regularly changed for security.

When a guest checks in, they are to read the 'Guest Handbook' (copy prepared and attached for your information). The Guest Handbook provides them with all the important information they need to know to have an enjoyable, safe & respectful stay. This lists emergency contact details, emergency plan, house rules, parking rules, bin collection days, public transport, nearby amenities, sights and attractions in the area and more. The guest handbook is also considered part of the management plan.

Regarding check-in, we also like to find out when their estimated time of arrival will be and may offer to meet the guest from time to time to welcome them to the property if required.

The guest handbook which we have created is very comprehensive which significantly mitigates any risk and issues regarding the stays.

For peace of mind and assurance of how rare significant issues are, Brent Thomas, Head of Public Policy of Airbnb Australia has said that just a mere 0.004% of claims through Airbnb are for amounts exceeding \$1000.

How do we manage complaints?

We are contactable 24/7 and our phone numbers and e-mail addresses are provided to our guests on confirmation of booking. We are more than happy

to provide these contact details to nearby neighbours for us to be even more effective in managing our properties.

In our online Airbnb listing, which the guest(s) must agree to before booking with us and the also included in the guest handbook, we have extensively listed our house rules in respect to the property, complex and other nearby residents of the surrounding area & amenity. Priority is given to adherence of our noise and parking policy.

If we receive any complaints about guests, they will be dealt with immediately. We will contact the guests informing them of the situation and any breach of house rules and based on severity of the breach then the reservation may be terminated, and the Police may be called in extreme circumstances. If there are also any issues regarding the long-term residents, either party may notify us immediately and the situation will be dealt with accordingly.

Short stay accommodation is not subject to the same stringent rules of the Residential Tenancy Act 1987 and therefore we have significant power to be able to evict guests for unsocial behaviour.

We are financial members of ASTRA (Australian Short Term Rental Accommodation Association) and agree to abide by their comprehensive National Code of Conduct.

You can always be assured of our best intentions and respect of the public amenity and neighbourhood.

Please reach out to me at the below contact details should you seek any further clarity or additional information relating to the management of the property.

Yours faithfully,

Stephen Yarwood

Airbnb rating system

As a **'Superhost'** we try to do everything we can to create a positive experience and ensure that the properties we manage meet and hopefully exceed your expectations. Excellent reviews enable us to continue offering homes as a safe, comfortable and economical place for visitors to stay.

Please note: Airbnb ratings are not like hotel ratings. An overall rating of 5-stars means that you were happy with your stay *based on the price you paid* – please do not compare this accommodation to the Ritz or other Airbnb properties as hosts all around the world offer different experiences! Airbnb considers a score less than 5 as a 'fail' and if our average rating drops below an average of 4.8 overall, we will lose our **Superhost status**, and if it drops further below that, we risk having Airbnb remove our listings from the platform altogether! (This is unfortunately no joke!).

The 'Overall Experience' star rating is based on the question, *"How did your stay at Steve & Kiri's listing compare to your expectations?"*

Possible answers	Overall rating given to host	How Airbnb sees it
Much better than I expected	5 stars ★★★★★	Acceptable
A bit better than I expected	4 stars ★★★★	Not good enough
About the same as I expected	3 stars ★★★	Bad
A bit worse than I expected	2 stars ★★	Terrible
Much worse than I expected	1 star ★	Totally unacceptable

Of course, if you are disappointed or dissatisfied with any aspects of your stay, please feel free to communicate this with us at your earliest opportunity so that we are provided with the opportunity to address the issue and ensure your stay is a 5-star experience.
