In 2023 the Gallery moved away from responsive programming to a planned and curated annual programme. In 2024 we will be continuing this.</p> <p>One key action identified in the report was to increase hanging space in the centre by replacing some of the glassed windows and turning them into permanent walls. Upon further review, although this would increase the hanging space, it would take away from the unique quality of having a bright inside/ outside feel to the venue. Instead, investigation has begun on the use of movable walls for larger exhibitions. The Gallery Curator is currently researching options for either purchase of bespoke walls that can be packed away, or what is available for hire.</p>	<p>75</p>	<p>50</p>
