Message from the Mayor

As Mayor, I am honoured to share an overview of the City of Kalamunda's achievements and strategic initiatives over the past year.

This has been a period of resilience and collaboration as we have worked to enhance the quality of life for our community. We were delighted to welcome Anthony Vuleta as our new CEO in June 2024. Anthony's extensive experience and dedication to community will be invaluable as we continue to progress toward our vision for Kalamunda.

I express my heartfelt thanks to our Acting CEOs Gary Ticehurst (July 2023 to December 2023) and Nathan Ritchie (January 2024 to May 2024), for providing steadfast leadership during this transitional period, ensuring continuity and stability in our services and programs. Additionally, we remember our former CEO, Rhonda Hardy, who, after many years of dedicated service to the City, sadly passed away earlier this year. Rhonda's legacy of commitment to public service will always be treasured, and her impact on Kalamunda will endure.

In 2023–2024, the City has made significant strides across key areas, including Approval Services, Strategic Planning,

and Asset Maintenance. Our planning and approvals teams have continued to provide high-quality, efficient services, supporting our residents, businesses, and future development in alignment with Kalamunda's growth goals. This year, our strategic planning efforts have advanced long-term projects to secure sustainable, vibrant spaces that reflect our community's needs and aspirations.

Our focus on better understanding our asset renewal and maintenance programs will also ensure our parks, facilities, and public spaces remain safe, accessible, and enjoyable. Community programs and events, which remain a cornerstone of our City's identity, have continued to flourish, bringing people together and fostering the spirit of Kalamunda.

It is a privilege to lead this community, and I am deeply grateful to our Councillors, City staff, and residents for their commitment and support. I look forward to another successful year of collaboration and growth for the City of Kalamunda.

Mayor Margaret Thomas JP

Message from the Chief Executive Officer

An annual report provides a valuable opportunity to reflect on our achievements, challenges, and shared commitment to the community. As CEO of the City of Kalamunda, I am proud to present this report, which showcases the strides made over the past year in delivering critical projects and services to enhance our residents' quality of life.

This has been a year of growth, transition, and meaningful progress. I want to extend my gratitude to Gary Ticehurst and Nathan Ritchie, who served as Acting CEOs before my appointment in June 2024. Their steady leadership ensured continuity and success during a pivotal period for the City.

Gary's leadership was instrumental in delivering major infrastructure projects, including the opening of the new library at Hawaiian's Forrestfield Shopping Centre. This modern, welcoming space has quickly become a hub for the community, attracting a significant increase in patronage. He also oversaw the revitalisation of the Stirk Park Playground and the Rotary Kalamunda Skate Park, as well as the reopening of the much-loved slides at the Kalamunda Water Park. These facilities have become vibrant centres for recreation, connection, and enjoyment for residents of all ages.

Building on this momentum, Nathan successfully led the launch of the Fleming Reserve Playground, providing another exceptional recreational space for local families. His leadership also ensured the seamless progression of critical operational priorities, including refining the City's budget-setting process, advancing advocacy efforts, and streamlining the Capital Works program to align with strategic objectives.

This year also brought moments of deep reflection, particularly as we mourned the loss of the former CEO, Rhonda Hardy. Rhonda's legacy remains an enduring inspiration.

As I step into this role, I am energised by the City's potential and the shared commitment of our community, staff, and Councillors. Together, we will continue to focus on delivering high-quality services, maintaining and enhancing our assets, and strengthening the programs that make a thriving, connected community.

Anthony Vuleta
Chief Executive Officer

Our City

The City of Kalamunda is approximately 24 kilometres (under 30 minute drive) from Perth's CBD, located in the foothills of Perth's eastern suburbs and part of the Darling Ranges.

The area features natural bushland, amazing views and beautiful countryside. With a long history, proud artistic identity, fresh produce, and an abundance of recreational opportunities such as bush walks and mountain bike trails, the City of Kalamunda offers a unique lifestyle for its residents.

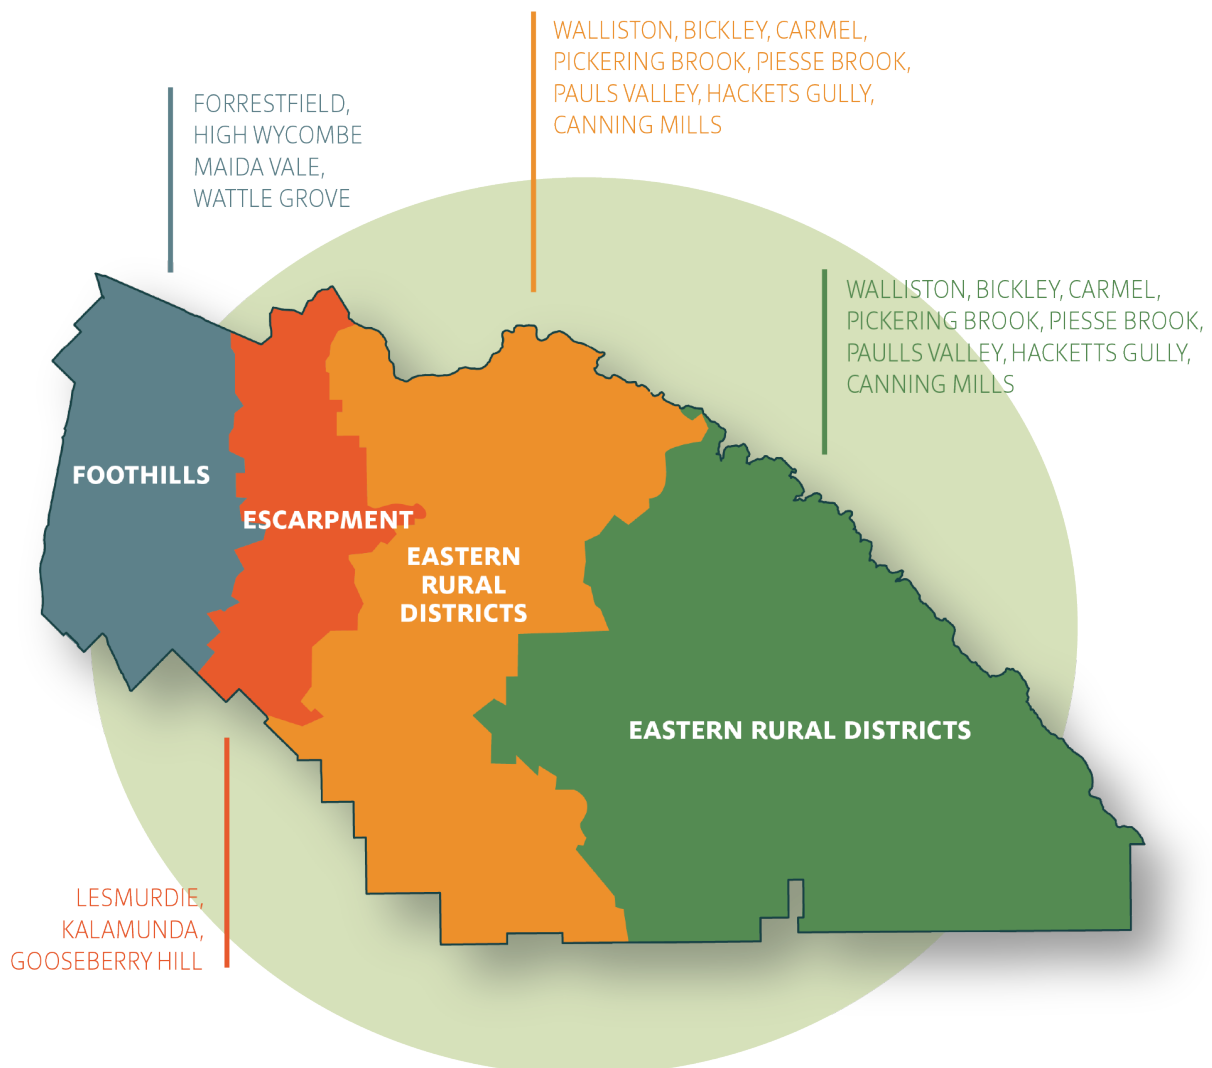

The City of Kalamunda is bounded by the City of Swan in the north, the Shire of Mundaring in the east, the Cities of Armadale and Gosnells in the south, and the Cities of Canning and Belmont in the west.

2023–2024 Financial Highlights

Statement of Comprehensive Income – Surplus for the year \$8.7 Million

Income

- › The City ended the Financial Year with \$71.2 million in Operating Revenue
- › In comparison with actual results for 2022–2023, revenue increased by 3%.
- › Revenue from Rates increased by 6% overall with 1.74% coming from interim rates.
- › Operating Grants, Subsidies and Reimbursements reduced by \$1.5 million. The variance is mainly due to:
 1. \$820K decrease in Commonwealth Financial Assistance Grant Scheme (FAGS) received for 2023–2024
 2. The difference is made up of lower contributions and expenditure reimbursements
- › Interest earnings increase by \$1.3 million due to the higher interest rates offered in the market during the year and increased investment amounts available due to lower Capital Works spend.

Figure 1. Operating Income for 2023–2024

Table 1. Operating Revenue Comparisons by Nature or Type comparison 2022–2023 to 2023–2024

Revenue from Ordinary Activities	Actual 2023 \$	Budget 2024 \$	Actual 2024 \$
Rates	42,322,457	43,866,164	44,727,353
Operating grants, subsidies and contributions	5,816,673	2,883,830	4,348,284
Fees and charges	18,008,646	17,423,848	18,621,952
Interest earnings	1,995,594	880,529	3,285,422
Other revenue	963,342	127,500	294,777
Total	69,106,712	65,181,871	71,277,788

Expenditure

- › The City ended the Financial Year with \$78.8 million in Operating Expenditure
- › Operating expenditure increased by 4% or \$5.1 million, half of which was due to an increase in depreciation as a result of the revaluation of infrastructure assets and a further \$2.6 million to asset disposal relating to infrastructure
- › Materials and contract costs decreased by \$3.1 million, the variance due to lower Waste collection charges of \$600K, and various programs \$2.1 million.
- › Other Expenditure increased by \$1.6 million, the increase was due to;
 - a. Loss on discounting of Eastern Metropolitan Regional Council (EMRC) receivable on City's withdrawal from EMRC (\$1.0 million), and
 - b. Loss on prior year correction of Building Assets balance (\$0.8 million).

Figure 2. Operating Expenses 2023-2024

Table 2. Operating Expenses Comparisons by Nature or Type comparison 2022-2023 to 2023-2024

Expenses from Ordinary Activities	Actual 2023 \$	Budget 2024 \$	Actual 2024 \$
Employee costs	26,093,369	27,807,178	27,559,877
Materials and contracts	27,702,293	23,994,581	24,586,015
Utility charges	2,015,613	2,436,817	2,027,109
Depreciation on non-current assets	14,349,530	13,684,765	16,875,730
Interest expenses	274,006	230,650	259,317
Insurance expenses	709,839	762,437	766,237
Other expenditure	178,460	211,306	1,813,505
Loss on Asset Disposal	2,331,446	-	4,901,126
Total	73,654,556	69,127,734	78,788,916

Non-operating Grants and Contributions

Non-operating grants increased by \$10.8 million. The variance is due to the increase in gifted assets (by developers) -\$5.6 million funding received for construction of Stirk Park; \$2.5 million Developer Contributions from Cell 9 and Forrestfield Industrial Area of \$1.5 million.

Net Surplus

The City has strengthened its financial position, achieving an \$8.7 million surplus compared to the budget. This result was driven by higher Operating Results of \$6.4 million, along with reduced Capital Works expenditure and Reserve transfers.

Statement of Financial Position – Net Assets of \$671 Million Demonstrate Financial Strength

- › Net Assets have increased by \$7 million.
- › Higher cash and cash equivalents increased by \$10.4 million mainly due to lower Capital Works expenditure which is evident by reduced non-current assets position by \$4.2 million.
- › Capital expenditure during the year amounted to \$19.5 million.
- › Asset classes invested in during the year were as follows:

Figure 3. Asset classes invested in during the year

The value of the Property, Plant & Equipment and Infrastructure assets decreased by \$4.4 million mainly due to the total disposals and deprecation being higher than the amount spent on additions.

Conclusion

In 2023–2024 the City continued to deliver on key strategies adopted by Council and maintains a high level of services across all programs, while ensuring an increased focus on roads and associated infrastructure as well as renewing assets at sustainable levels.

Table 3. Capital Grants, Subsidies and Contributions Received for Replacing/Renewal of Assets 2020–2021 to 2023–2024

Revenue from Ordinary Activities	Actual 2021 \$	Actual 2022 \$	Actual 2023 \$	Actual 2024 \$
Capital Grants, subsidies and contributions	10,907,932	9,853,085	5,273,774	16,094,453

Note: Grants received each year are tied to specific projects and are only recognised in the financial statements once the associated project is completed.

Priority 1: Kalamunda Cares and Interacts

Looking after our people and providing the community with opportunities for social and cultural enjoyment

1.1

To be a community that advocates, facilitates, and provides quality lifestyle choices.

1.1.1 Ensure the community has access to information, facilities, and services.

1.1.2 Empower, support and engage all of the community

1.1.3 Facilitate opportunities to pursue learning

Social Inclusion Plan

The Inclusive Kalamunda - Social Inclusion Plan (2021-2025) includes initiatives to promote age-friendliness, inclusion, and accessibility across the City. The City is committed to continuously improving accessibility and inclusivity.

Access and Inclusion Initiatives

Community Art Mural

Funded by International Day of People with Disability (WA), this mural, themed "My Life; Our Community," was co-designed by a local artist and a person with a disability. Over 40 community members contributed to its creation, fostering inclusivity and collaboration. The vibrant mural serves as a testament to Kalamunda's community spirit.

Charging Stations

Mobility device charging stations are available at Hartfield Park Recreation Centre and Kalamunda Library, offering free charging. Users should bring their own off-board charger, with a maximum charge time of two hours.

Accessible Events

An Accessible Events Guide was developed and distributed to all event organisers, ensuring improved accessibility

at local events. During the annual Plants for Residents program, the City provided staff and volunteer support for residents with additional access needs.

Communication Boards

Chat with Me Communication Boards were installed at Stirk Park's junior section and the All-Abilities Playground at Magnolia Reserve to assist individuals with communication needs, allowing them to express choices and ideas during play.

Disability and Carers Advisory Committee

The Disability and Carers Advisory Group (DACAG) meets quarterly to advise Council on improving access and inclusion. Notable achievements include enhancing footpaths, installing handrails at community facilities, and consulting on the development of the All-Abilities Playground.

Pictured: Legacy Portraits Art Opening

Pictured: Community Art Mural

Senior/Age-Friendly Services, Events, and Activities

The City collaborates with seniors, volunteers, community groups, and businesses to offer a variety of services and activities. These include:

Podiatry, Hairdressing, and the popular Coffee Lounge at the Woodlupine Family and Community Centre, with new volunteers always welcome.

Seniors' Events

Free information sessions and activities throughout the year, such as:

May 2024	Estate Planning Workshop (with simply Estate and Furlion Legal)
April 2024	StrokeSafe Talk
Ongoing	Supported programs with Darling Range Hub
November 2023	Seniors Week Activities
October/November 2023 March/May 2024	All-ages Barista Workshops with Dome Kalamunda

Carers Event

To celebrate Carers Week, the City partnered with Kalamunda Kalability and Building Friendships to host a Carers Morning Tea, honouring unpaid carers. Students from Kalamunda Secondary Education Support Centre provided a delightful high tea, while carers engaged in flower-making activities for a mural.

Kalamunda Youth Plan

The Kalamunda Futures: Youth Plan 2023–2028 is designed to empower young people in the community, ensuring they feel connected, active, and represented.

Youth Engagement Initiatives

Barista Workshops

Dome Kalamunda continues its partnership with the City to offer free barista training workshops for local youth. These hands-on sessions provide participants with foundational hospitality skills.

Young Creatives Month – Medley of You

The Medley of You exhibition featured 150 young artists and highlighted the journey of self-expression and identity. An Overflow Exhibition at the Kalamunda Library allowed even more young artists to showcase their work.

Schools Out Event

The annual School's Out Pool Party at Kalamunda Water Park attracted 300 students and families, featuring the upgraded slides, music entertainment, a giant inflatable, and a sausage sizzle to celebrate the end of the school year.

Youth & Community Assistant Role

The City's Youth team continues to offer entry-level employment through the annual Youth & Community Assistant position, providing invaluable work experience for a recent local high school graduate.

Pictured: Barista Workshop

Pictured: Young Artist Awards

Community Engagement and Support

The City hosts and supports a range of community engagement events and programs:

Community Organisation Support

The Connecting Communities event at Hartfield Park featured over 70 stallholders and a live broadcast from Kalamunda Community Radio, with activities such as fire truck and RAC Helicopter visits and a free sausage sizzle.

Careers Week

This year's Careers Week focused on STEM (Science, Technology, Engineering, and Mathematics) careers through a panel event featuring experts from various STEM fields. The week culminated with the launch of the SEED Young Entrepreneurs Program.

Council Chambers Tours

The Youth team hosted a series of Council Chambers Tours for local students, giving them insight into local government operations and a chance to participate in a mock council meeting.

Student Leadership Program

The Student Leadership Day included a Local Government 101 session, leadership workshops, and a Mock Council Meeting. Students created and pitched their own Local Action Programs to a panel of the City's Councillors and Mayor.

City of Kalamunda Student Citizenship Awards

The 2023 City of Kalamunda Student Citizenship Awards recognized 25 students for exemplary citizenship. Students were nominated by their schools and awarded a certificate and \$40 book voucher. The awards were presented by a Councillor during their school's end-of-year ceremony.

1.2

To provide safe and healthy environments for the community to enjoy

1.2.1 Facilitate a safe community environment.

1.2.2 Advocate and promote healthy lifestyle choices by encouraging the community to become more active citizens.

1.2.3 Provide high quality and accessible recreational and social spaces and facilities

Pictured: Kalamunda Water Park

Environmental Health

The City's Environmental Health team works to ensure environments are safe, promoting public health, safety, and well-being. Through services such as food contamination prevention, public health monitoring, and event safety assessments, the team plays a crucial role in protecting the community.

In addition, the Senior Project Officer presented at the International Environmental Health World Congress on a successful feral pig surveillance program, which helps detect mosquito-borne diseases like Japanese Encephalitis Virus (JEV).

The program has since been adopted in metropolitan areas to improve early detection of diseases.

Pictured: Health Safety Officer

Food Recall

This year, City Environmental Health Officers (EHOs) investigated a complaint regarding an imported noodle product with incorrect allergen labelling. This posed a health risk to consumers, leading to a national recall and removal of affected products from sale.

Illegal Dumping

In a significant illegal dumping case, the City discovered 13 tonnes (33m³) of waste dumped illegally on a City reserve. The City worked with state agencies to identify the perpetrators, who were ordered to remove the waste, and legal actions are being pursued for additional penalties.

Community Health and Wellbeing Plan Initiatives

The City's Community Health and Wellbeing Plan 2018–2022, which aims to enhance residents' health and wellbeing, is currently under review. Input from WAPOL, DoH, Healthy WA, and NGOs, along with extensive community feedback, will shape the updated plan, which is expected to be adopted by the Council soon.

Community Safety

The City's Community Safety team is dedicated to maintaining a positive environment for residents. This includes Rangers Services, Community Bushfire Preparedness & Compliance, and Emergency Management.

Pictured: City of Kalamunda Rangers

Rangers Services

Rangers ensure community safety through services such as parking management, animal control, and litter prevention. They also monitor CCTV, respond to alarms, assist with dangerous animals, and provide education on responsible pet ownership. Rangers attend court to provide evidence in compliance-related cases.

Ranger Services Key Statistics

Three Rangers were honoured with service awards at the WA Rangers Association Conference:

- Gary Melia (20 years)
- Angie House (15 years)
- Sarah Stampalia (10 years)

The City thanks its Rangers for their dedication to ensuring a safe community.

Community Bushfire Preparedness & Compliance

Bushfire is a serious threat to the community. Fire Control Officers (FCOs) have been instrumental in providing education and assistance through demonstrations, street meetings, and private property consultations. The City's social media campaigns and direct mailings further support bushfire awareness efforts.

This year, over 3,000 property inspections were carried out. A review of the Fire Hazard Reduction Plan led to the introduction of an updated 5-year plan with enhanced community education and engagement.

2023 Bushfire Community Day

The City partnered with the Department of Fire and Emergency Services (DFES) for the 2023 Bushfire Community Day at the Bushfire Centre of Excellence. The event focused on preparing for bushfire season and included engaging activities. Kalamunda will host the 2024 Bushfire Community Day at the Kalamunda Community Centre in Jorgensen Park.

2023/2024 Bushfire Key Statistics

(down by 13 vs. LY)

Emergency Management

The Local Emergency Management Committee (LEMC) meets quarterly, ensuring compliance with legislative requirements while enhancing community preparedness. The City secured funding through an AWARE Grant for electronic fire danger rating signs, which will provide real-time messaging in emergencies.

Bush Fire Advisory Committee (BFAC)

BFAC advises on matters related to bushfire prevention and control. Volunteer emergency services, including the Kalamunda Volunteer Bush Fire Brigade and the Kalamunda State Emergency Service, continue to provide exceptional service, with the Kalamunda Brigade contributing 13,373 volunteer hours.

Pickering Brook Fire Station

The Pickering Brook area is prone to fire risks, prompting advocacy for a new fire station. The City's efforts aim to build infrastructure to better serve this high-risk area.

Pictured: City of Kalamunda Bushfire team

Pictured: Skaters Meet and Greet

Community Development

Youth Week: Connecting Communities - Foothills Fiesta

The Youth Week program was a city-wide collaboration, featuring the Youth Zone as part of the Connecting Communities Event. The program, supported by a grant from the Department of Communities, included activities for all ages, Youth Artisan Stalls, and entertainment. Over 500 attendees enjoyed the festival, which included over 75 stalls from organisations like Reconciliation WA, Multicultural Futures, and the Darling Range Seniors Hub.

Find a Fairy and the Foothills Fairies Expansion

The 'Find a Fairy Kalamunda' Fairy Door Trail, established in 2017 in partnership with The Clip Joint, continues to grow in popularity. The trail map and clues are now available both online and at The Clip Joint and the Perth Hills Visitors Centre. A new 'Foothills Fairies' Trail has also been launched in collaboration with Hawaiian Forrestfield, the Woodlupine Family Centre, and Make it Special.

Kidsport

The City successfully facilitated the distribution of Kidsport funding, enabling junior participation in local sport and recreation clubs.

708 vouchers were processed for 574 children across participating clubs. To be eligible, participants must hold a Health Care Card or Pensioner Concession Card and register with a Kidsport-approved club.

Skaters Meet and Greets

The new Kalamunda Rotary Skatepark at Stirk Park hosted monthly skater meet-and-greets, fostering connections between skaters and City staff. Young skaters also provided input on skatepark etiquette, which is displayed on signage. Additionally, a 3-hour skate clinic led by Freestyle Now experts offered tips on skating, scootering, and BMX riding.

Working with Schools

Youth Services worked directly with schools, providing workshops, events, and assemblies to engage students. Highlights included a Careers Expo at Mazenod College and lunch-time engagement at local schools. The Principal's Forum, bringing together local primary and secondary schools, facilitated discussions on opportunities and shared information.

Key Infrastructure Projects

New Scott Reserve Pavilion and Norm Sadler Pavilion Redevelopment

In December 2023, Council endorsed the final designs for the Scott Reserve Pavilion and the redevelopment of the Norm Sadler Pavilion at Maida Vale Reserve. These projects aim to provide modern, accessible, and inclusive sports facilities. Key highlights include:

- Facilities for AFL, Cricket, Diamond Sports, and Football (Soccer)
- State Government support, including a \$1.3 million grant from the Community Sporting and Recreation Facilities Fund for Scott Reserve Pavilion

Ray Owen Oval Expansion

In May 2024, Council adopted the final designs for the Ray Owen Oval Expansion. This significant project will include:

- New LED lighting
- Enhanced drainage and irrigation systems
- Additional space for football and cricket

Generous support has been received from the State Government through the Department of Local Government, Sport and Cultural Industries and the City of Kalamunda.

Ray Owen Pavilion Changeroom Upgrade

The Ray Owen Pavilion, a key facility for AFL and Cricket at Ray Owen Reserve, will see improvements to changeroom facilities, ensuring an inclusive and welcoming environment for all players. This project includes:

- Two new unisex changerooms
- A first aid room
- Additional storage facilities
- A universal toilet for accessibility

The upgrade is supported by the Department of Local Government, Sport and Cultural Industries and the City of Kalamunda.

Hartfield Park Master Plan (HPMP) Stage 2A

In April 2023, Council adopted a strategy to allocate \$5.4 million in Federal Government funding to complete the Hartfield Park Master Plan Stage 2, which includes:

- A new AFL/Little Athletics Pavilion and upgraded parking
- Unisex changerooms for Rugby League and Football (Soccer)
- Co-location of Bowls and Tennis facilities
- New Foothills Men's Shed

This stage will also include new infrastructure for Little Athletics, completed in December 2023, and two new lit tennis courts.

Kalamunda Water Park

The 2023–2024 season of the Kalamunda Water Park was a success, with the reopening of the water slides and the completion of minor repairs and repainting of the 50m pool, wading, and toddler pools. With 45,000 visitors, the park remains a popular destination for local families and swimming clubs. Managed by Belgravia Leisure, the park continues to provide a fun, community-oriented space.

High Wycombe Community Hub

The City has secured \$60 million in funding from the State and Federal Governments for the High Wycombe Community Hub. This comprehensive center will provide:

- Aquatic facilities
- Sports courts
- Fitness and community spaces

This funding ensures continued financial support.

Hockey Lighting at Hartfield Park

Thanks to funding from the Community Sporting and Recreation Facilities Fund and the Kalamunda Districts Hockey Club, new LED floodlights are being installed at Hartfield Park to improve visibility and energy efficiency.

Recreation Centres and Community Programs

The City's recreation facilities continue to offer a range of programs catering to diverse needs, including:

- Active Seniors classes
- Strength for Life 50+ gym program
- Social sports such as Volleyball, Squash, Badminton, Netball, Table Tennis, and Pickleball

Playground and Park Upgrades

Significant upgrades have been made across various parks and playgrounds:

Stirk Park Playground and Skate Park (opened November 2023)

Funded by Lotterywest, Rotary of Kalamunda, the Federal Government, and the City of Kalamunda, this new facility includes an open bowl, junior skating area, and an intergenerational playground with accessible features.

Fleming Reserve Playground (opened May 2024)

A \$265,000 project funded through the City's cash-in-lieu program, providing inclusive play elements like the Liberty Swing.

Magnolia Reserve All Abilities Playground (opened September 2024)

Funded by the State Government, this inclusive playground features sensory elements and family-friendly amenities.

Other park upgrades include improvements at Robert Hewson Park, Scott Reserve, and Maida Vale Recreational Reserve, with a focus on accessibility, safety, and enhanced community spaces.

Sustainable Water Management

The City allocated 957,475 KL of groundwater, with 806,002 KL used. Efforts to improve irrigation systems, including new installations at Flora Terrace, Pine Tree, Juniper, and Scott Reserves, have been implemented for optimised watering.

Kalamunda Tennis Club

The City has replaced outdated fencing at the Kalamunda Tennis Club's front courts, enhancing both durability and aesthetics with new black powder-coated fencing.

1.3

Support the Active Participation of Local Communities

1.3.1 Support Local Communities to Connect, Grow, and Shape the Future of Kalamunda

1.3.2 Encourage and promote the active participation in social and cultural events in the City of Kalamunda

1.3.3 Empower community groups and sporting organisations to provide for their communities.

Pictured: In Conversation with Dianne Wolfer

Kalamunda Library Service

The Kalamunda Libraries are dedicated to engaging our community, promoting literacy, and fostering lifelong learning through a variety of programs and events. These initiatives create inclusive spaces to inspire people of all ages to explore new ideas, develop skills, and access valuable resources, fostering a sense of belonging and connection. Our activities—ranging from book clubs and workshops to author talks and children’s storytimes—ensure the libraries remain relevant in the digital age, evolving into vibrant community hubs of knowledge, creativity, and social interaction.

Data from this year highlights the diverse impact of our programs across the Kalamunda region’s libraries, showcasing our commitment to meeting the varied interests of the community.

Kalamunda Library hosted popular events, including author talks by Dianne Wolfer and Megan White, a Romantasy panel, and a comic workshop with Aska. Wildlife sessions, such as “Which Bird is That?” and “How to Attract Birds to Your Garden,” were also well received. Kalamunda held a total of 287 sessions, with 2,887 attendees.

Forrestfield Library offered an array of activities, from the popular Knit N Yarn group to sustainability workshops like “Waste-Free Festivities.” This location saw the highest attendance, with 383 sessions drawing 5,046 attendees. The Film Club was a notable favorite among patrons.

High Wycombe Library focused on mental health, parenting, and environmental topics. Highlights included Helping Minds sessions on social media’s impact, parenting workshops by Lisa Henry, and birding and cultural workshops. High Wycombe held 364 sessions, attracting 3,055 attendees.

Lesmurdie Library contributed 82 sessions attended by 723 people, rounding out the network’s community engagement efforts.

Across all four libraries, 1,116 sessions were held with a total attendance of 11,711, underscoring the libraries’ role in community education, recreation, and social connection.

Through partnerships with local authors, environmental experts, mental health organisations, and cultural educators, as well as City departments such as Parks and Gardens, Waste Management, and Cultural Services, Kalamunda Libraries delivered a wide range of impactful programs. Events like the Dianne Wolfer talk, Romantasy panel, and birding and FOGO-related sessions benefited from these collaborations, enabling us to offer enriched, meaningful experiences tailored to the community.

Staff-led programs included a creative writing workshop, a gardening club, two book clubs, two philosophy groups, and a special Little Red Riding Hood Storytime that attracted 50 guests.

Technology Update

Forrestfield LibCabinet: Located at the Hawaiian Shopping Centre, this kiosk allows members to collect reserved items at their convenience using their library card. With daily courier deliveries and regular restocking by staff, members are notified by SMS or email when items are ready for collection. The full library catalogue is accessible through the kiosk, in-house, or online via the library app, maximizing access for members despite limited space at the Forrestfield Library.

Princh Mobile Printing Solution: Since its introduction in June, Princh has completed over 650 print jobs, enabling patrons to print securely and conveniently from their own devices. This self-service option reduces paper waste, minimises troubleshooting issues, and allows library staff to focus on other tasks. Plans to extend Princh and Envisionware CloudNine to the Kalamunda and High Wycombe libraries are underway.

Arts and Culture

The City of Kalamunda continues to successfully implement its 2023–2028 Arts and Culture Strategy, supporting creativity, nurturing local talent, preserving cultural heritage, and enriching our community. Through the Zig Zag Gallery, Kalamunda Performing Arts Centre, and other programs, the City remains dedicated to fostering a vibrant artistic landscape.

Public Art

In November 2023, the City adopted its inaugural Public Art Masterplan, designed to transform public spaces into vibrant galleries that celebrate Kalamunda's unique heritage, cultural diversity, and natural beauty. This plan outlines key areas where public art can enhance the urban landscape, build civic pride, and strengthen community connections. The Masterplan emphasises commissioning or acquiring art that resonates with local communities to ensure innovative, high-quality outcomes.

Alongside new installations, the Masterplan reaffirms the City's commitment to preserving its existing collection and educating the community on these pieces. Interpretive signage was added to notable sculptures including Kalamunda Library Stained Glass Window, Women's Pioneer, The Secret, and Family Group. These installations are part of the Kalamunda Public Art Trail, published in 2022.

Additionally, the City restored The Scarp 1 + 2, two jarrah timber screens created in 2011 from recycled purlins from the Midland Railway Workshop. These screens, featuring UV-coloured glass insets, mark the entrance and exit of the Zig Zag Cultural Centre.

Kalamunda Performing Arts Centre

The Kalamunda Performing Arts Centre (KPAC) is a key cultural hub with a 257-seat proscenium arch theatre, a black box theatre, Kalamunda Agricultural Hall, and the historic Lesser Hall. Over the past year, KPAC attracted more than 95,000 visitors, including attendees of markets, events, exhibitions, rehearsals, and performances.

The Centre hosted 38 performances and events, selling over 5,500 tickets. Highlights included Light House Girl by Theatre 180, a unique collaboration with the Kalamunda Library featuring an author talk with Dianne Wolfer, and a lively Ceilidh dance event by the Jarrah Celts in the Agricultural Hall. The monthly Morning Music series, a favourite social event with a tea and concert, continued to receive glowing reviews from regular patrons.

KPAC has seen audience growth, drawing both local residents and visitors from surrounding areas. The venue's success was further supported by a younger, more dynamic programming approach and exciting new genres added to its lineup.

Kalamunda Performing Arts Centre Completes Lighting Upgrade

The Kalamunda Performing Arts Centre completed a \$300,000 lighting upgrade, significantly enhancing the venue's capabilities. With the installation of LED fixtures and DMX-controlled moving lights, KPAC has modernised from outdated incandescent bulbs to a more energy-efficient, cost-effective setup. This upgrade will reduce operational costs, lower the venue's carbon footprint, and improve comfort by minimising heat output during performances.

The updated lighting also enhances the theatre's appeal for touring productions and private events, offering the technical capabilities required for contemporary performances. This successful upgrade reinforces KPAC's commitment to providing a premier arts experience and secures its role as a cultural asset for Kalamunda.

Zig Zag Gallery

The Zig Zag Gallery remains a cherished venue, showcasing a range of exhibitions by community-based, emerging, and established artists from Kalamunda and the wider Perth region. Over the past year, the gallery hosted 13 exhibitions, generating over \$65,000 in art sales.

The program featured four City of Kalamunda exhibitions (NAIDOC Community Exhibition, Senior Residents Exhibition, City of Kalamunda Art Awards, and Paper Treasures), as well as solo and group shows in diverse mediums.

As the gallery grows, it continues to support artists by facilitating talks and workshops, allowing them to engage with the community. The gallery also offers a residency space, enabling artists to work onsite, interact with visitors, and enrich the cultural experience.

A standout event was the City's Paper Treasures exhibition, a celebration of independent print and risography communities. Launched in May, the exhibition showcased works by collectives and artists from around the world, including Neighbourhood Press, Glom Press, RETRO JAM, and Risolana. Complementing the exhibition was a Zine Fair, which brought together artists like Ayamizu Konishi, Billie Bushby, and Carmen Selam, highlighting the diversity in independent printmaking.

The City extended its engagement through a series of risography and zine workshops held at the gallery and libraries, further connecting with the community.

Pictured: Paper Treasures Workshop

Pictured: Chill Out Zone

Youth Action Kalamunda (YAK)

The City of Kalamunda's Youth Services facilitates the Kalamunda Youth Advisory Council, known as Youth Action Kalamunda (YAK), for young people aged 12 to 20. YAK serves as a platform for youth to voice their opinions, propose initiatives, and deliver events and programs within their community, while also advocating for their needs within Council.

Over the past year, the two branches of YAK have continued to expand. The High School YAK group remains hosted at Kalamunda Senior High School, while the second branch, established in collaboration with the Kalamunda Secondary Education Support Unit, has grown from 10 to 20 members, enhancing opportunities and local impact for young people with disabilities. Plans are underway to launch a third branch for Primary School students in the 2024-25 financial year.

Zig Zag Early Years Partnership

The City of Kalamunda actively facilitates and provides administrative support for the Zig Zag Early Years Partnership. Notable highlights from the year include the Families Week Pop-Up Play Day, which featured a take-home flyer with ideas for replicating activities at home, as well as the continuation of the Teddy Bears Picnic Pop-Up Play Day and the Hills Healthy Bears Hub in collaboration with the UWA Teddy Bear Hospital.

Additionally, the City supports the presence of three Child Health Nurses in Kalamunda, High Wycombe, and Forrestfield, ensuring vital health services for our youngest residents.

Clubs 4 Life

The Club Development team successfully secured funding from the Department of Local Government, Sport and Cultural Industries through their 'Every Club' grant program. This funding enables the City to enhance support for local clubs by providing educational resources and motivational workshops.

In the 2023-2024 year, the City hosted two complimentary workshops for representatives from local sporting clubs and community groups. The first workshop featured five-time Paralympian Brad Ness OAM, who spoke on the significance of cultivating a positive club culture and promoting inclusivity. The second workshop, led by an expert from MAD Enterprises, focused on governance, effective committee operations, and tools for running successful clubs.

Both workshops received positive feedback and fostered networking opportunities, helping club representatives enhance their knowledge and skills for sustainable club management. The Clubs 4 Life program is essential for maintaining strong, sustainable clubs that provide our community with a diverse range of sporting and recreational activities.

Chill Out Zone

The Community Development team has introduced a "Chill Out Zone" activation for events, creating a sensory-friendly space for individuals who may feel overwhelmed or need a break during City events.

Community Events

July 2023

NAIDOC Week

The City celebrated NAIDOC Week with cultural performances, storytelling sessions, and art exhibitions, highlighting the rich history and contributions of Aboriginal and Torres Strait Islander peoples. Community workshops encouraged participation and education on Indigenous culture, drawing significant attendance and fostering greater awareness.

2023–2024

Film Kalamunda

The City worked closely with the film industry to attract a range of projects, including TV series, feature films, and advertisements. By promoting Kalamunda's unique landscapes, the initiative aims to boost tourism and local economic activity through increased exposure and collaboration with filmmakers.

January 2024

Australia Day Celebration at Kalamunda Water Park

This vibrant event included a traditional smoking ceremony honouring Aboriginal culture, alongside a "How to Make the Best Damper Ever!" workshop. Temporary Dreamtime artworks added visual storytelling elements, drawing a large crowd and creating a festive celebration of the community's diverse heritage.

September 2023

Stirk Park Playground Opening

The new Stirk Park playground, designed for safety and accessibility, opened in September 2023 and has quickly become a favourite destination for families. With modern play equipment, a state-of-the-art skate bowl, and a basketball court, the playground was inaugurated by the Mayor, Councillors, local officials, and residents.

Summer 2023–2024

Sunset Series

For the first time, the Sunset Series of outdoor movies was held in partnership with local schools. Attracting over 2,000 attendees, this popular event featured family-friendly films, picnic areas, and kids' activities, creating a lively community atmosphere. Proceeds from the event supported local school P&Cs, reinforcing the City's commitment to education.

City Sponsored Events

October 2023

Forest Festival

Celebrated the beauty of our natural spaces and demonstrated the City's commitment to local reserve stewardship.

October & April each year

Kalamunda Open Studios

Showcased the work of local artists in their studios, offering art enthusiasts a behind-the-scenes look at creative processes.

Various

Mary's Mount Twilight Market & Falls Road Primary School Moonlight Market

These events, held in partnership with the City's Sunset Movie Series, provided delightful evenings filled with community spirit.

First Sunday each Season

Kalamunda Garden Festival

This well-attended event attracted around 5,000 people and featured gardening expert Costa Georgiadis. Attendees enjoyed informative talks covering sustainable gardening practices and plant care techniques.

Local businesses reported increased sales during these events, highlighting their positive economic impact. Partnerships with local schools and organisations fostered community ownership, encouraging ongoing participation in City activities.

The City's events effectively engaged residents, celebrated local culture, and contributed to economic growth. Initiatives like Film Kalamunda, combined with ongoing investment in community programs, further elevated the City's profile.

Community Funding Program

The Community Funding Program supports local sporting clubs, community groups, and individuals who contribute positively to the City of Kalamunda. Funding is allocated for projects and activities designed to develop and enhance our community.

The Community Funding Program assisted 65 clubs, groups, and individuals, providing a total of \$25,500 in grant funding. This support fosters the growth of sustainable local communities and ensures ongoing development of community initiatives.

Priority 2: Kalamunda Clean and Green

Delivering environmental sustainability and maintaining the integrity of the natural environment

2.1

To protect and enhance the environmental values of the City.

2.1.1 Implementation of the Local Environment Strategy.

2.1.2 Development and Implementation of the Urban Forest Strategy.

2.1.3 Development and implementation of the Local Biodiversity Strategy

2.1.4 Increasing and protecting local biodiversity and conservation, wherever possible, through integrating ecosystem and biodiversity protection into planning processes including schemes, policies and strategies.

2.1.5 Community engagement and education in environmental management.

DBCA Community River Grant – Kadina Brook

Now in its second year, the Kadina Brook River Care Project is a collaborative effort between the Friends of Kadina Brook and the Department of Biodiversity, Conservation, and Attractions (DBCA). With a total grant of \$31,177.92 spread over four years (concluding in 2026), the project focuses on restoring Kadina Brook—a vital waterway that flows through Gooseberry Hill National Park and semi-rural areas, linking to the Swan River in Guildford.

This project prioritises ecological restoration through weed control, revegetation, and construction of leaky weirs to slow water flow and enhance the brook's ecosystem. Kadina Brook is ranked ninth out of 197 local natural areas for its ecological value in the Draft 2020 Kalamunda Local Biodiversity Strategy.

DBCA Community River Grant – Spring Road

The Spring Road River Care Project, launched this year with a grant budget of \$28,068.85, is a partnership between the Friends of Jorgensen Park and DBCA. This ephemeral waterway flows through Jorgensen Park, a multi-use park managed by the City and Friends of Jorgensen Park. Through community efforts, 3,200 native sedges have been planted along the creek, and riffles have been created to reduce erosion.

This initiative supports the long-term health of the creek and surrounding parkland by addressing the impacts of erosion, invasive species, and land degradation.

Fire and Biodiversity Procedures Project (LES Action)

The City secured \$43,449 from the State Government's Natural Resource Management Program to develop fire and biodiversity procedures for managing Local Natural Areas (LNAs). This project addresses the specific needs of fire-sensitive species and ecosystems, documenting best practices to mitigate fire risk while preserving biodiversity.

Kalamunda Dieback Management Program (LES Action)

With a grant of \$56,363, the City is working to assess and manage dieback across 10 hectares of LNAs annually. The program includes training, treatments, signage, and hygiene stations to protect against the spread of this destructive disease, which poses a significant threat to the region's native flora.

Urban Greening Grant Program – 'Keeping It Cool'

The City's 'Keeping It Cool' project, funded by a \$55,664.60 grant, aims to combat urban heat by planting 12,500 tube stock trees and understory plants with the help of local volunteers. The project, including the installation of irrigation and the planting of 85 Marri trees, promotes shade and cooling, benefiting both residents and the environment.

Pictured: Kadina Brook

Pictured: Friends Group

Friends Groups, Schools, and Commemorative Tree Planting

Friends Group Program

The Friends Group Program plays a pivotal role in supporting local community efforts to protect and enhance our natural areas. Various Friends Groups contributed significantly through activities such as weed control, planting, and environmental education. Some highlights of their key achievements:

Friends of Jorgensen Park

This group has made notable strides in removing woody weeds, such as *Polygala* and *Acacia pycnantha*, particularly around the granite rock area near the Bibbulmun Track. In March 2024, they celebrated their 12th year of volunteer efforts by planting 3,200 wetland species along Spring Road Creek, as part of their ongoing workdays.

Friends of Gunbar Way

After their successful 2022 revegetation project, the Friends of Gunbar Way have continued their efforts to remove invasive weeds. They also installed interpretive signage about the Noongar six seasons, enriching the community's understanding of local biodiversity and culture.

Friends of Kadina Brook

As part of their Rivercare Grant project, the Friends of Kadina Brook successfully constructed a second riffle, helping to stabilise the Brook's banks and protect a large Marri tree. This project has improved the Brook's natural structure and encouraged sediment buildup, contributing to the health of the ecosystem.

Friends of John McLarty Park

This group worked diligently to plant native seedlings, spread mulch, and install interpretive signage. Their activities aim to educate the community about local biodiversity while enhancing the habitat for wildlife.

Friends of Woodlupine Brook

Supported by an environmental grant from Komatsu Australia, this group planted native vegetation and removed waste along the Brook. Their efforts in stabilising the banks have bolstered local wildlife habitats and contributed to the overall ecological health of the area.

Friends of Robert Road (Crumpet Creek)

Focusing on the restoration of Crumpet Creek, this group has concentrated their efforts on planting native species and removing debris to maintain water flow, thus supporting the local Bandicoot population.

Friends of Piesse Brook

The Friends of Piesse Brook have made remarkable progress in weed control at Shipp Road Reserve. Their work in managing invasive species has led to a more stable and less erosive environment on the reserve's sloped areas.

Friends of Over Avenue

Focused on rubbish clean-ups and weed control, this group has achieved impressive results in regenerating the area following a controlled burn. Their efforts are helping to restore the local ecosystem and maintain the health of Over Avenue.

Friends of Spring Road

Working closely with the City of Kalamunda, this group planted along the roadside of Jorgensen Park, using soil wetters to ensure a higher survival rate for new plantings, thus enhancing the biodiversity of the area.

Friends of Kalamunda Railway Heritage Trail

This group dedicated their efforts to managing woody weeds and documenting the key values and threats to the Railway Heritage Reserve. Their work contributed to updating the Reserve's Action Plan, ensuring the trail remains a valuable community asset for years to come.

The ongoing commitment of these Friends Groups is invaluable in preserving and enhancing the natural beauty and biodiversity of the City of Kalamunda. Their collective efforts continue to make a lasting impact on our local environment.

Commemorative Tree Planting

In addition to ongoing conservation projects, the City facilitates Commemorative Tree Planting to honour significant local individuals and events. These plantings provide lasting tributes to the community while contributing to the City's broader urban greening goals. They help enhance the public landscape and provide ecological benefits, such as improved air quality, habitat creation, and increased canopy cover.

Commemorative tree planting programs offer residents and families a meaningful way to contribute to the community's environmental legacy, while also enhancing the City's natural beauty for future generations.

Schools

The Adopt-A-Patch Program continues to be a successful collaboration between the City and local schools. Six schools across Kalamunda participated in conservation activities that promoted environmental stewardship. This program included educational incursions, clean-up projects, and practical conservation efforts, providing students with the opportunity to engage in meaningful environmental action.

- Kalamunda Secondary Education Support College students participated in clean-ups and created Bandicoot Bungalows to support the Quenda population.
- Mary's Mount Primary School focused on reserve clean-ups and conservation action planning at Currawong Drive Reserve, while learning about the importance of nest boxes for wildlife.
- Mazenod College promoted environmental sustainability at the Kalamunda Show by encouraging recycling and offering native plants in exchange.

These school initiatives foster a deeper connection with nature, educating the next generation about the importance of preserving local biodiversity.

Pictured: Adopt-A-Patch Program

Pictured: Plants for Residents Program

Environmental Programs and Initiatives

Feral Animal Control – Foxes

Fox control remains a critical part of the City's biodiversity protection efforts, especially on City-managed lands. This year, the City worked with contractors to trap foxes in the Railway Heritage Reserve, addressing the negative impact of foxes on native wildlife. The City will continue to partner with DBCA and the Shire of Mundaring to implement further control measures.

Plants for Residents Program

The Plants for Residents event continues to be a beloved community initiative, celebrating over 25 years of providing free native plants to local residents. In May 2024, over 13,000 native plants were distributed to 1,000 residents, supporting local biodiversity and urban canopy expansion. The event's success was due to extensive planning, community coordination, and strong partnerships, particularly with APACE Nursery.

Fire Mitigation Program

The City's Fire Mitigation Program has faced challenges due to changing weather patterns, but efforts to manage fire risks through hazard reduction burns and Dead Flammable Material (DFM) removal continue. Collaborative efforts with local and state government teams, including the involvement of Aboriginal trainees, have focused on removing woody weeds and mitigating fire risks in vulnerable areas.

Street Tree Powerline Clearance Program

Each year, the City prunes trees to ensure they don't encroach on powerlines, helping to prevent power outages and improve safety. Across the City, 14,024 trees were pruned, contributing to both safety and the health of urban green spaces.

Street Tree Planting Program

The City planted 261 street trees to replace those lost to development or natural causes. New specifications for planting were introduced, increasing soil preparation to support healthier tree growth and improve survival rates. The focus was on suburbs with low canopy cover, including Forrestfield, High Wycombe, and Wattle Grove.

Roadside Clearance Pruning

The Roadside Clearance Pruning project ensures safe passage for heavy-duty vehicles, cyclists, and pedestrians by maintaining clear zones along key roads. Work along Grove Road in Walliston improved safety and access by clearing vegetation along roadsides.

2.2

To improve environmental sustainability through effective natural resource management.

2.2.1 Manage the forecast impacts of a changed climate upon the environment

2.2.2 Work towards a Carbon Neutral Footprint of City-operated areas

2.2.3 Produce cost-effective solutions to reduce the reliance and volume of potable and ground water used by the City

Pictured: EV Charging Stations at Kalamunda Library

Climate Adaptation and Resilience Planning

The City is committed to adapting to climate change by enhancing the resilience of natural assets and mitigating the impacts of extreme weather events. Key actions include improving biodiversity through strategic vegetation management, with a focus on species that thrive in changing climatic conditions, and ensuring green spaces can provide shade and cooling.

Carbon Neutrality Strategy

The City is actively working towards achieving carbon neutrality in its operations, focusing on energy-efficient practices, renewable energy sources, and carbon offset programs. Initiatives include transitioning to LED street lighting, implementing energy-efficient systems in City buildings, and investing in solar power solutions.

Tree Canopy and Shade Program

The City is increasing its tree canopy through strategic planting initiatives. In collaboration with the Green S Force community volunteers, the Environmental Team has planted 12,500 trees, contributing to shade and cooling, helping mitigate the urban heat island effect. This is especially critical as temperatures rise due to climate change.

Electric Vehicle (EV) Integration:

The City is exploring the integration of electric vehicles into its fleet, reducing the carbon footprint from its transport operations. This aligns with broader sustainability goals and will contribute to a reduction in greenhouse gas emissions.

Sustainable Building Practices

All new City buildings and major renovations are being designed and constructed with sustainability in mind, adhering to green building standards and incorporating energy-efficient designs.

Water Efficiency Program

The City has implemented a range of initiatives to reduce its dependence on potable water. These include using recycled water for irrigation, enhancing water management systems, and promoting water conservation measures across City facilities and public spaces.

Stormwater Harvesting Projects

Several stormwater harvesting projects are underway, collecting and reusing rainwater for irrigation and other non-potable uses. These projects aim to reduce the demand on both potable and ground water, helping the City to manage water resources more sustainably.

Water-wise Landscaping

The City has incorporated drought-tolerant, native plants in its landscaping to reduce water usage and promote sustainable gardening practices. This includes the creation of water-efficient public gardens that demonstrate the benefits of using native species to local residents.

Pictured: Juniper Reticulation

2.3

To reduce the amount of waste produced and increase the amount of reuse and recycling of waste.

2.3.1 Implement the City's Waste Plan aligned to the State Waste Avoidance and Resource Recovery Strategy

Waste Reduction Initiatives

The City is committed to reducing waste through the implementation of its Waste Plan, which aligns with the State Waste Avoidance and Resource Recovery Strategy. This includes strategies to reduce the overall amount of waste generated, encourage better waste separation, and increase the volume of waste reused or recycled.

Kerbside Recycling and Green Waste Programs

The City offers kerbside collection services for recycling and green waste, ensuring materials such as paper, cardboard, plastic, and green waste are diverted from landfill. This contributes to the broader goals of reducing waste volumes and increasing the recovery of valuable materials.

Public Education Campaigns

To support the Waste Plan, the City runs educational campaigns to raise awareness about proper waste disposal practices and recycling. This includes distributing guides to residents on how to reduce household waste, recycle correctly, and compost.

Recycling Infrastructure and Facilities

The City is expanding its recycling infrastructure, by installing more recycling bins in public spaces and improving access to recycling points. This also includes collaborating with local businesses to increase recycling and reduce single-use plastics.

Community Recycling Hub

The City is working on establishing a community recycling hub where residents can drop off items harder to recycle through the standard kerbside service, such as e-waste, batteries, and textiles. This initiative will support the diversion of more materials from landfill.

Pictured: Cleanaway Incursion

Pictured: FOGO Bins Rollout

Waste-to-Energy and Circular Economy Initiatives

In alignment with the State's strategy, the City is exploring opportunities for waste-to-energy projects, where appropriate, to help turn waste into renewable energy. This includes investigating the feasibility of local waste-to-energy solutions and fostering partnerships with businesses to support the circular economy model, where waste is seen as a resource rather than a burden.

FOGO Rollout

We have successfully organised the logistics for a comprehensive FOGO (Food Organics and Garden Organics) rollout. This initiative involved securing over 23,000 140L general waste bins, kitchen caddies, and new lids for FOGO bins. Our efforts ensure that every aspect of the rollout is addressed, from bin distribution to providing essential accessories, facilitating a smooth and efficient implementation of the FOGO program. Additionally, we have launched a FOGO waste education program to inform and engage the community about the benefits and best practices of FOGO waste management.

Walliston Transfer Station

The damaged storage shed at the Walliston Transfer Station has been removed, and a new sea container installed. This upgrade is part of ongoing improvements to enhance the functionality of the site and support better waste management practices.

Clean Up Australia Day

In February, two successful Clean Up Australia Day events for local businesses were organised. The first cleanup took place near the City's Operations Centre on Laurence Road, Walliston, and the second around the Water Park/ Administration Building in Kalamunda. At the Walliston site, 11 volunteers collected eight full bags of waste, along with three tyres, wood, and rubble, totalling 129.2 kg of waste. At the Kalamunda site, eight volunteers gathered four full bags, a bike, metal items, and a box, weighing a total of 44.4 kg.

Walliston Transfer Station – Wood Recycling

The Waste Team has begun collecting recyclable wood at the Walliston Transfer Station. Untreated and unstained wooden items, such as pallets, are now accepted for recycling, contributing to our ongoing efforts to reduce waste and increase material recovery.

Walliston Transfer Station – Battery Recycling

Ecocycle (Ecobatt) is now providing alkaline and lithium battery recycling services at no cost, funded by the Battery Stewardship Scheme. Initially, we received two steel galvanized safety boxes designed to minimise fire risks associated with mixed household batteries. This new service eliminates the disposal costs for battery recycling that were previously incurred through EMRC. Residents can now access recycling hubs around the City, which will be emptied into the Ecobatt storage, or visit the transfer station at no charge to dispose of their batteries.

2.4

To ensure contaminated sites are safe.

2.4.1 Identify, examine, and manage risks associated with contaminated sites

Pictured: Careers Day

The City remains committed to assessing and remediating contaminated sites in order to support future land use and meet the requirements of the *Contaminated Sites Act 2003*.

Former Brand Road and Dawson Avenue Landfill Sites

Investigations at the Brand Road Landfill site are focused on understanding the extent of soil, landfill gas, and groundwater contamination, which will guide future remediation efforts. Similarly, Detailed Site Investigations (DSIs) at the Dawson Avenue Landfill sites include groundwater and landfill gas sampling. These ongoing assessments are crucial in developing strategies for landfill gas extraction and leachate management to address potential contamination risks.

Site Safety Audits

Over 40 site safety audits were conducted to support these investigations. As a result, targeted safety improvements have been implemented, including the installation of signage, enhanced site security measures, CCTV, and staff education materials to ensure the safety of workers and the public.

Priority 3: Kalamunda Develops

Supporting sustainable urban development that strengthens our local economy and community and manages and protects our diverse natural environment.

3.1 To plan for sustainable population growth.

3.1.1 Plan for diverse and sustainable activity centres, housing, community facilities and industrial development to meet future growth, changing social, economic and environmental needs.

The Approval Services team at the City of Kalamunda is responsible for statutory functions across several critical areas, including Statutory Planning, Building, Pool Compliance, Development Compliance, and Development Engineering.

Statutory Planning

In the 2023–2024 period, the Statutory Planning team processed 633 development applications—a 3.5% decrease from the previous year. Below is a summary of the average processing times for various application categories and their compliance with statutory timeframes:

Application Type	22/23 Average	23/24 Average	22/23 Compliance	23/24 Compliance
Basic Application (20 days)	14 days	26 days	91%	69%
Standard Application (60 days)	27 days	45 days	91%	90%
Complex Application (90 days)	45 days	63 days	94%	94%

Note: The 20-day target for basic applications is not a statutory requirement, but it provides a benchmark for processing efficiency.

Although the compliance rate has been maintained, processing times increased significantly (+85% for basic applications, +67% for standard applications, and +40% for complex applications). This is largely due to updated Residential Design Codes, which have added considerable complexity to assessments without corresponding State Government planning reforms. Additionally, Kalamunda’s unique planning constraints—such as topography, soil conditions, bushfire risks, and groundwater protection areas—often require more detailed technical information, further extending processing times.

Application Complexity	21/22	22/23	23/24	3-year complexity trend
Basic Application (20 days)	19%	11%	23%	4% increase
Standard Application (60 days)	52%	61%	46%	6% decrease
Complex Application (90 days)	29%	28%	31%	2% increase

Subdivision Applications

38
subdivision
applications
(+58%)

28
subdivision
clearance
applications
(-33%)

Subdivision clearance applications are expected to stabilise, with potential increases in building permits anticipated for 2024–25 and further growth in 2025–26.

Development Assessment Panel (DAP) Applications

The Statutory Planning team processed four DAP applications and expects to reach seven by year’s end. This trend mirrors the growth in strategic areas like the Maddington Kenwick Strategic Employment Area and Forrestfield industrial zones, as well as increasing demand for childcare facilities.

Reform

New R-codes

The State Government introduced amendments to *State Planning Policy 7.3* Residential Design Codes ('R-Codes') to deliver better housing choice across Perth to reflect our changing lifestyles and housing needs and create more vibrant communities. The changes enable the provision of new smaller and accessible housing to meet the changing needs of Western Australia's communities. The amendments to the R-Codes became operational in April 2024.

Residential Design Codes	Single Houses	Grouped Dwellings	Multiple dwellings (includes dwelling components of mixed-use developments)
Volume 1	All single house development	All grouped dwelling development	R60 and below residential component of mixed use development
Volume 2	N/A	N/A	R60 and above Residential component of mixed use development

Ancillary Dwellings

The State Government introduced reforms to the provisions relating to Ancillary Dwellings within the Residential Design Codes (R-Codes) to provide greater housing diversity, affordable housing options and more support for ageing in place.

The following changes were introduced to the Ancillary Dwelling provisions of the R-Codes:

- Removal of the minimum 350sqm lot size requirement and
- Permitted in grouped dwellings / strata lots for all density codes in Volume 1.

Therefore, ancillary dwellings can now be built on a property of any size, if it meets the deemed-to-comply requirements of the R-Codes.

The changes were released in March 2024 and became operational in April 2024.

The City received 18 applications for Ancillary Dwellings, compared to 20 in 2023 and 12 in 2022. Combined with the planning reform for Short Term Rental Accommodation the City expects the number of applications for Ancillary Dwellings to grown in the next 12 months.

Duty Planner Appointments

In June 2024, the City transitioned to an appointment-based system for duty planner consultations, enhancing service by:

- Reducing wait times,
- Improving service quality through pre-prepared information,
- Enabling better cross-departmental coordination, and
- Optimising workflow management for staff.

Revocation of LPP33

Local Planning Policy 33 was revoked in March 2024. The City now implements a range of development approval exemptions per the Planning and Development (Local Planning Schemes) Regulations 2015, while employing strategies like the Urban Forest Strategy and Local Biodiversity Strategy to maintain environmental standards.

Building Services

The City issued 928 building permits, marking a slight decrease of 1.69% from the previous year. The total permit value rose by over \$43 million, indicating sustained demand and increased construction costs.

Average Permit Processing Times:

- Certified Applications: 5 working days
- Demolition Permits: 5 working days
- Uncertified Applications: 15 working days

Permits were issued for 165 new houses. This is a reduction of 8% (181). New house permits declined by 8%, attributed to the clearing of backlogged projects from the COVID-19 period. Permit numbers are expected to stabilise in the coming years.

The highest volume of new residential development in foothills suburbs was Forrestfield (202) followed by High Wycombe (152), Wattle Grove (96), and Maida Vale (72).

The highest volume of new residential development in escarpment suburbs was Kalamunda (151) followed by Lesmurdie (131), Walliston (16) and 108 across the remaining areas (Carmel, Bickley Valley, Gooseberry Hill, Piesse Brook).

The City issued 36 demolition permits, compared with 31 in 2022–2023. Most demolitions occur to facilitate infill development, which is consistent with the 38 subdivision applications (although not all are directly related).

Building Reforms

In the past 12 months, the State Government has introduced several significant reforms in the building industry, aimed at enhancing safety, transparency, and regulatory efficiency.

1. Building Commissioner's Enhanced Powers

The Building Commissioner now has broader authority, including the ability to issue directives on technical issues, enter construction sites, notify authorities about serious non-compliant work, and impose stricter penalties for offences. These changes are part of a broader effort to enforce higher standards in building practices and ensure better compliance with regulations.

2. Design and Documentation Improvements

New standards have been set for building design documentation, particularly for complex and high-risk buildings. This includes mandatory third-party reviews of structural and fire safety designs and new registration requirements for designers. The goal is to ensure that all critical aspects of building safety are thoroughly vetted before construction begins.

3. Mandatory Inspections

A phased introduction of mandatory inspections has been implemented, particularly targeting high-risk constructions such as multi-story apartments. This is intended to increase oversight and reduce the risk of structural failures or other safety issues.

4. Private Swimming Pools and Safety Barriers

The Building Amendment Regulations 2023 introduced changes specifically for private swimming pools and associated safety barriers. These include new compliance options for boundary barriers, clarification

of responsibilities for safety during construction, and updated requirements for inspections of safety barriers. The regulations also introduced new fees and reporting requirements for local governments to ensure consistent enforcement across the state.

These reforms have been rolled out with significant industry consultation, ensuring that they are practical and gradually implemented to minimise disruption and allow local governments to adjust resourcing to provide these mandatory services.

Building Compliance

The Approval Services team handled 31 cases of unlawful building works. The *Building Act 2011* allows for Building Approval Certificates to be issued for existing structures, though this often requires structural modifications to meet compliance.

Private Swimming Pools and Spas

At the end of 2023–2024, the City had 5,945 registered private swimming pools and spas—an increase of 60.

Approval Services issued permits for 108 new pools and spas. As with much of the construction industry, the completion of these pools has been delayed due to limited availability of trades and materials.

During this period, 50 pools and spas were removed. Reasons for removal include disrepair or to make way for new developments, such as outbuildings or subdivisions.

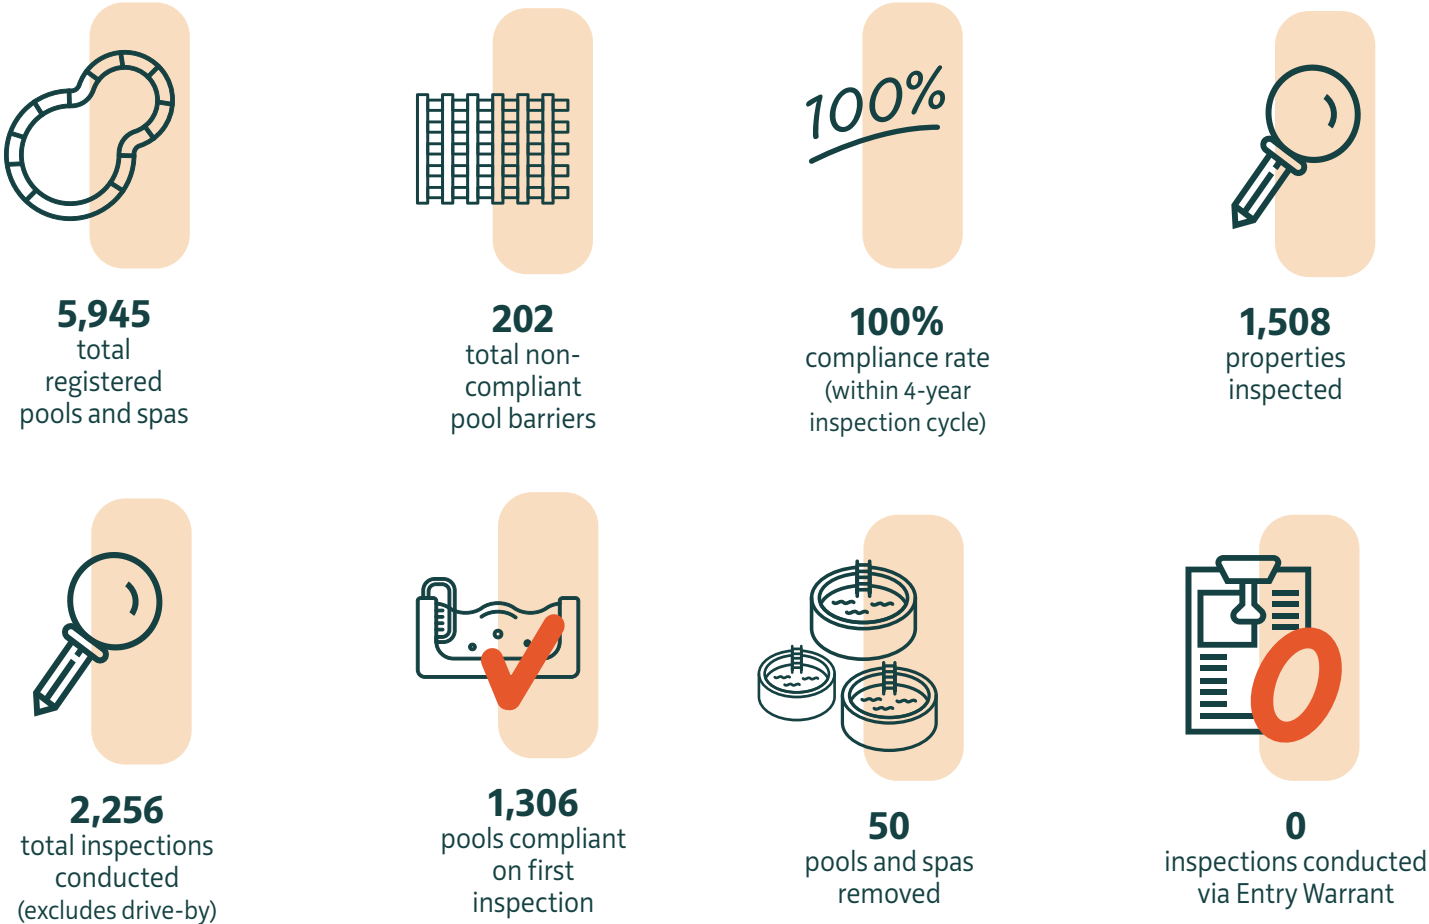

The State Government requires that all private pools and spas within local government boundaries are inspected at least once every four years. To meet this requirement, the City of Kalamunda employs a full-time Swimming Pool Fencing Compliance Officer, who inspects an average of 16 properties per day. As the number of pools increases, the

City will need to consider additional resources to continue meeting regulatory standards.

Most pool and spa owners in the City comply with safety regulations, although inspections often reveal non-compliant or deteriorating security fencing. Despite these challenges, 86% of pools were found to have compliant barriers on the first inspection.

The City continues to work with landowners to address non-compliance. In cases where property owners fail to comply, Infringement Notices with a penalty of \$5,000 may be issued. If standard access is not provided, Entry Warrants can be obtained to allow inspection. Although two Entry Warrants were secured this year, they were ultimately unnecessary as property owners granted access amicably.

2023–2024 Snapshot

Pictured: Pickering Brook

Development Compliance

While Approval Services deals with approving development, it has an equal responsibility under planning and building legislation to ensure ongoing compliance with those approvals, as well as a general responsibility to ensure that development is 'consistent with the Scheme'. This means that where approval is required, landowners obtain approval prior to commencing works or use of land. It also means that when landowners commence works or use land without necessary approval, that the land is brought back into compliance with the Scheme – either by obtaining the necessary approval, or by ceasing the works or use.

In 2023–2024 Approval Services Compliance Officers dealt with 327 incoming compliance matters, with a total of 348 resolved matters and the remainder subject to ongoing action.

The table below breaks down the broad categories of the compliance matters. Please note that the majority of tree removal requests were dealt with while LPP33 was active.

Unapproved Development	50	Signage/Flagpole	11
Tree Removal Requests/Investigations	19	Stock Issues	3
Unapproved Use	21	Sea Containers	4
Commercial Vehicle Parking	30	DA Condition Follow-ups	55
Breach to DA Condition	22	Civil Matters Neighbour Disputes	11
Home Business	27	Miscellaneous (access/easements/ crossovers/reserves issues)	35
Unkempt Property	7	TOTAL	348
Water Run-off issues	29	PINS (fines) issued	11
Builders Rubbish	24	Retro Planning Applications	25

The City received 25 Development Applications as a result of compliance investigations.

While most Compliance matters are dealt with directly with landowners either ceasing the unapproved works/use or seeking development approval for the existing works, the City in rare cases is required to pursue other means to ensure it is effectively implementing the Scheme.

For the City to pursue prosecution of a landowner, the matter will typically be significant, and it would be in the interests of the community to pursue resolution of the matter. The City does not advance to prosecution unless it exhausts all lesser options, and the landowner does not engage to resolve the issue. The City may proceed to prosecution if a landowner or business shows a reckless disregard for the planning framework and/or completes works which cannot be undone. This can be seen when the health and safety of the community is put at risk, or business interests are prioritised over impacts on the community and environment.

Of the 348 matters resolved, only one was addressed through prosecution, marking a significant decrease compared to the previous year. The City maintained a 100% success rate for prosecutions, with 11 Penalty Infringement Notices issued.

Development Engineering

Approval Services Development Engineering team continued to see significant development activity and continues to provide high quality advice and assessment services to developers, consultants, and to internal departments on matters relating to Stormwater Management Plan (SMP), District Water Management Strategy (DWMS), Local Water Management Strategy (LWMS), Urban Water Management Plan (UWMP), transport impact assessment, roads and crossover design, lighting, retaining walls, public open space design and related infrastructure assets.

Development Engineering dealt with 74 development applications, 15 JDAP applications, and 78 small and large subdivision matters. These were assessed (and approved where necessary) with engineering conditions for transport impact assessment, urban stormwater management, new roads and drainage construction, public open space and upgrading of existing roads. Of the 167 assessments, 98% were processed within a timeframe of 21 days – to meet regulatory and business timeframes.

A total of 91 Building Applications were assessed for stormwater and crossover locations, with 99% of assessments processed within three days, ensuring compliance with regulatory timeframes.

The Development Engineering team has been engaged to investigate and model 15 complex stormwater drainage matters and as a result has provided technical advice and

solutions on those matters.

Additionally, the Development Engineering team achieved several key outcomes during the year:

Assessed and Approved Applications:

- 368 applications for third-party works, including those from the Water Corporation, Western Power, Telstra, NBN, and Alinta Gas.
- 83 crossover applications.
- 15 outstanding works applications, including POS and subdivision infrastructure, as well as defect liability bonds (specific to subdivisions, excluding asset protection bonds).

Stakeholder Support:

- Provided assistance through ICS, ECM, email, face-to-face interactions, and phone calls, ensuring responses within three days to meet customer service standards.

Traffic Management Plans:

- Processed and authorised 345 Traffic Management Plans (TMPs) to facilitate construction within the City's road reserves, achieving 100% compliance with the 14-day processing target.

Kalamunda District Activity Centre

The draft Kalamunda Activity Centre Plan (KACP) provides a long-term vision for town centre development. After extensive community and business engagement, the Council adopted the draft KACP in March 2020, pending modifications. Following statutory updates to Local Planning Scheme No. 3 (LPS3) and subsequent approvals, the WAPC endorsed the KACP (now the Kalamunda Activity Centre Precinct Structure Plan or KACPSP) in October 2023. Final adjustments are pending WAPC approval.

88 Hale Road, Forrestfield

In 2021, the City commissioned a study to explore strategic land use options for 88 Hale Road, Forrestfield. The site's redevelopment opportunities align with the Kalamunda Advancing – Strategic Community Plan. Amendment 109 to LPS3 was approved by the Minister for Planning in November 2023, rezoning the site as a District Centre and enabling community engagement on potential development scenarios.

High Wycombe South Residential Precinct Local Structure Plan

The Local Structure Plan (LSP) for High Wycombe South seeks to facilitate coordinated, high-density residential development near the High Wycombe Train Station. Amendment No. 1 to the LSP was approved in August 2023, establishing a planning framework for future infrastructure projects.

Pictured: Forrestfield

Development Contribution Plan

A Development Contribution Plan (DCP) will ensure equitable funding for essential infrastructure in the Residential Precinct. The City plans an advocacy campaign to reduce DCP-area infrastructure costs through pre-funding collaborations with the State Government and service agencies.

METRONET East High Wycombe Project Area

DevelopmentWA's Draft METRONET East High Wycombe Structure Plan envisions a community-focused hub, integrating residential, commercial, and community spaces and protecting key environmental areas, including central wetland and Poison Gully Creek.

Pickering Brook and Surrounds Sustainability and Tourism Strategy

The Pickering Brook Taskforce aims to sustainably expand Pickering Brook townsite and boost tourism in the surrounding rural areas. A Council request to rezone 14 hectares for residential expansion is under agency review, pending evaluations of geotechnical data and bushfire risks.

Urban Forest Strategy 2023–2043

Adopted in August 2023, the Urban Forest Strategy (UFS) provides a roadmap to achieve 30% canopy cover by 2043. It includes community engagement, public tree planting initiatives, and incentives for private land care to support a greener, healthier Kalamunda.

3.2

To connect community to key centres of activity, employment and quality amenities.

3.2.1 Ensure existing assets are maintained to meet community expectations

3.2.2 Develop improvement plans for City assets such as parks, community facilities, playgrounds to meet the changing needs of the community

3.2.3 Provide and advocate for improved transport solutions and better connectivity through integrated transport planning.

Pictured: KWP New Gelcoat Applied

The Facilities Maintenance team has consistently delivered on its scheduled maintenance programs while enhancing systems to better support the facilities under our care. This year saw a high volume of reactive maintenance activity. In addition to routine issues like blocked toilets, burst pipes, graffiti, and vandalism repairs, we managed several major incidents.

Dome Café Ceiling

In January, strong easterly winds caused a portion of the Dome Café ceiling to collapse into the dining area, resulting in extensive damage. Fortunately, no one was present at the time. The team quickly secured the area and coordinated with contractors to manage the cleanup. Thanks to efficient planning, the café resumed operations with just a one-day closure. All repairs, including painting and lighting, were handled with minimal disruption. The team's efficiency was further highlighted by the successful insurance claim, which fully covered the expenses.

Kalamunda Archery Club

During a routine inspection at the aging Kalamunda Archery Club, structural issues were identified. An engineer's assessment deemed part of the building unsafe, prompting immediate action. Working closely with Property Services, we implemented a temporary solution to allow the club to continue operating safely. Remediation work is ongoing, and we have maintained open communication with the club while preparing to present the matter to Council for further direction.

22 Falls Rd – Lightning Strike

In June, a lightning strike at 22 Falls Rd caused considerable damage to facilities used by the Lesmurdie Tennis Club, Kalamunda Men's Shed, and SKAMP Hall. The Tennis Club was particularly impacted, with its underground power lines severely damaged. The City responded promptly, restoring power within days and initiating repair work. The insurance claim for this incident is currently in progress.

Capital Works

The Facilities Maintenance team delivered several capital works projects this year, with the largest being the refurbishment of the Kalamunda Water Park slides and swimming pool. Additional projects included enhancements at Carmel Scout Hall, Kalamunda Performing Arts Centre, Zig Zag Cultural Centre, and Pickering Brook Sporting Club, among others.

Reactive Maintenance

Throughout the year, we addressed a range of reactive maintenance needs, including plumbing, electrical work, and pest control. Significant resources were dedicated to managing vandalism, break-ins, and roof leaks. Notably, vandalism at public toilets declined following the trial of earlier closing times. However, the extended rainy season resulted in an increase in roof leak issues. Facilities in Forrestfield faced multiple break-ins, requiring extensive repairs and security upgrades.

Planned Maintenance

Our planned maintenance program includes statutory and scheduled services to ensure safety, compliance, and quality across City facilities. Statutory maintenance covers essentials like fire equipment checks, RCD testing, and asbestos register management. Programmed maintenance encompasses general cleaning, gutter clearance, and air conditioner servicing, all contributing to safe and well-maintained facilities.

Infrastructure Maintenance

The Infrastructure Maintenance team conducted both planned and reactive work this year, including need assessments, permitting, material coordination, and repairs.

Drainage Lid Replacement

Proactively addressing drainage needs, the team replaced numerous rusted drainage lids and reinforced failing concrete structures with support bars to enhance durability.

Flood Rectification

Regular maintenance of open drains and swales helped manage stormwater flow. While blockages caused by debris remain challenging during intense weather, the team continues monitoring and clearing efforts to prevent localized flooding.

Road Shoulder Maintenance

Scheduled road shoulder maintenance on rural roads without curbing prevented erosion and safeguarded the road structure.

Crash Barriers and Wire Rope Repairs

To maintain road safety, crash barriers and wire ropes were installed and repaired along winding hillside roads that are prone to accidents.

Road and Footpath Repairs

Depending on the scope, repairs to roads and footpaths were handled by either contractors or our internal crew. Smaller footpath issues were efficiently addressed through grinding.

Regrading Gravel Roads

The City's gravel roads underwent annual inspections, with regrading performed as needed. Resident maintenance requests were also addressed promptly.

Bus Shelter Upgrades

In partnership with the Public Transport Authority, we upgraded bus shelters in Wattle Grove and Lesmurdie, improving safety and accessibility.

Asset Management

Throughout the year, the City continued its commitment to robust asset management practices. These included condition assessments, planning asset renewal projects, and systematically recording asset details for newly constructed or replaced infrastructure. Using industry-standard unit rates, the City achieved accurate asset valuations that align with accounting standards.

Traffic Engineering

The City has identified the intersection of Railway Road and Elizabeth Street as a candidate for the Blackspot Program following community feedback from the prior year. Likewise, the intersection of Welshpool Road East and Lewis Road, noted for frequent crashes and traffic flow issues, is slated for a safety upgrade that includes a comprehensive treatment plan.

Pictured: Ilex Way grate when clean

3.3

To develop and enhance the City's economy.

3.3.1 Facilitate and support the success and growth of businesses.

3.3.2 Attract and enable new investment opportunities

3.3.3 Plan for strong activity centres and employment areas to meet the future needs of the community, industry, and commerce.

3.4

To be recognised as a preferred tourism destination

3.4.1 Facilitate, support and promote, activities and places to visit

3.4.2 Advocate and facilitate Agri Tourism opportunities for rural properties to flourish

The City continues to lead in collaboration, proudly showcasing the unified Experience Perth Hills brand across five local governments: the City of Kalamunda, Shire of Mundaring, City of Swan, City of Armadale, and Shire of Serpentine Jarrahdale. A recent refresh of the regional website has boosted traffic and introduced a more dynamic search function, enabling quick and easy access to regional information. The website serves as an economic driver, highlighting the area's natural beauty.

The City is also an active participant in the regional network Link WA, partnering with the City of Belmont, City of Swan, and City of Canning. This collaboration focuses on promoting and developing the Inland Freight and Logistics Hub and Corridor, acknowledging the freight and logistics industry's economic significance. The City continues to work alongside Westport and the State Government in planning new port facilities and integrated road and rail freight systems.

Through a Memorandum of Understanding with the Kalamunda Chamber of Commerce, the City supports key business initiatives, including the Farmers and Night Markets, the Annual Kalamunda Business Awards, industry events, training opportunities, and networking. This partnership is vital in building business capacity, further supported by the Invest Kalamunda prospectus.

The KalaCash initiative continues to encourage the local community to support City businesses, with a new digital card in development to streamline purchases and promote local spending.

Pictured: *Isopogon Dubius*

Pictured: Lesmurdie Falls

Tourism is a vital sector for the Perth Hills, and the City-owned Perth Hills Kalamunda Visitor Centre continues to experience growth in visitation. Overall visitation increased by 4.57%, despite a 44% drop in international visits.

Encouragingly, intrastate visitation rose by 23.4%, reflecting the City and the Perth Hills Tourism Alliance's (PHTA) efforts to promote the Perth Hills as a desirable destination for WA residents.

Key regional partnerships remain essential to the Region's growth, with the PHTA working to position the Perth Hills as a major regional tourism precinct.

In June 2024, the Experience Perth Hills website was relaunched with a refreshed design and improved functionality. The PHTA also began developing the first Perth Hills Visitor Guide.

Additionally, social media engagement for Experience Perth Hills saw positive growth.

The Visitor Centre undertook a review of the City's walking trails, with all trails to be re-walked and maps updated. It remains committed to supporting Australian-made and locally crafted products for resale, with merchandise sales from local makers increasing by 5.61%.

The Visitor Centre's volunteer base has grown slightly over the year. These dedicated volunteers offer invaluable local knowledge, and the Centre continues to welcome community members interested in joining the team.

The City's economic development and tourism initiatives are having a positive impact, supporting local businesses and promoting the region as a key tourist destination.

The Kalamunda History Village continues to attract significant interest from regional visitors and schools across the metropolitan area, with increased numbers from both groups this year. The education programme has become an annual event for many participating schools, and requests to film in the Village have highlighted its historical value and authenticity.

Priority 4: Kalamunda Leads

Providing good government/governance and leadership

4.1

To provide leadership through transparent governance.

4.1.1 Provide good governance.

4.1.2 Build an effective and efficient service based organisation

Risk Management

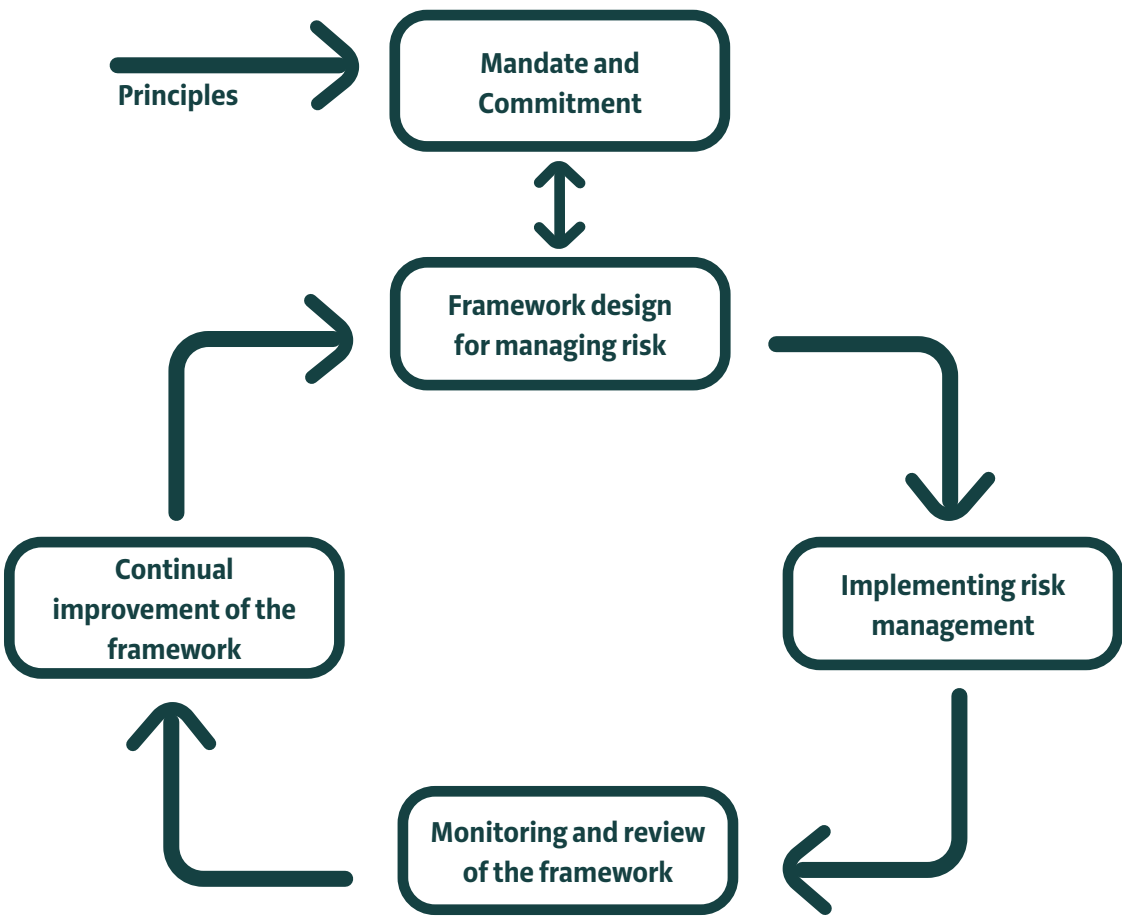

The City is committed to comprehensive, organisation-wide risk management, integrating risk assessment consistently and effectively into decision-making processes. The City updated its Risk Appetite Statement, reinforcing a "risk-averse" approach and re-evaluated key strategic risks to align with current priorities.

Ongoing efforts aim to embed risk management into daily operations and strategic planning, supporting well-informed decisions that consider both risks and opportunities. As the City's risk management practices continue to mature, we will further enhance our internal reporting and risk management processes to ensure a robust approach.

The City's Risk Management Framework, aligned with the Australian Standard for Risk Management (AS/NZ/ISO 31000:2018), prioritises:

- Upholding the integrity of City services
- Safeguarding the City's assets, including employees, elected members, finances, and property
- Ensuring compliance with legislative, regulatory, and professional standards, and codes of conduct
- Building a proactive risk management culture across all teams
- Demonstrating responsible, transparent risk management aligned with best practices to address uncertainties and drive continuous improvement

The Audit and Risk Committee reviews the Strategic Risk Register biannually and performs an annual assessment of the City's Internal Audit Plan to ensure ongoing accountability and risk management effectiveness.

Information, Communications, and Technology Services

The City's Digital Strategy 2022–2027 outlines five strategic objectives to support the Strategic Community Plan, focusing on strengthening digital capabilities, cybersecurity, and operational efficiency. Key initiatives include consolidating core systems and implementing a new enterprise resource planning (ERP) system, which is expected to improve both customer satisfaction and service efficiency.

Significant progress has been made, with recent digital infrastructure upgrades—including network enhancements and new data centre—providing stronger disaster recovery and business continuity capabilities. An ICT Governance Framework was also introduced, ensuring the Digital Strategy's benefits are fully realised and objectives remain in focus.

Cybersecurity remains a top priority. This year, the City conducted an initial assessment using the Essential Eight Maturity Model, part of our ongoing commitment to protect against cyber threats. The model aims to minimise risks associated with internet-connected systems, and we will continue to improve our maturity level over time to enhance our defences.

Building an Effective, Service-Driven Organisation

To deliver high-quality, responsive services to our community, the City is focused on creating a streamlined, service-oriented organisation which prioritises efficiency and customer satisfaction. Key initiatives driving this commitment include:

Process Optimisation

The City is actively reviewing and refining internal processes to eliminate redundancies, reduce wait times, and improve service delivery. By enhancing operational workflows and embracing automation where feasible, we aim to create a seamless experience for residents and stakeholders.

Empowering Our Workforce

Continuous professional development and skills training are central to equipping our staff to deliver effective, service-driven results. New training programmes ensure employees understand their role in enhancing community interactions and have the tools to meet diverse needs.

By embedding efficiency and service excellence into our organisational culture, the City strives to meet the community's evolving needs and set new standards in local government service delivery.

Performance Monitoring and Accountability

The City has implemented clear performance metrics and service benchmarks to guide decision-making and foster accountability. Regular assessments and feedback help identify areas for improvement and reinforce our commitment to delivering on our service promise.

Customer-Centric Technology

We are investing in new technologies to enhance service efficiency and accessibility, with a focus on digital solutions that simplify interactions, improve response times, and expand the range of services available online.

4.2

To proactively engage and partner for the benefit of the community.

4.2.1 Actively engage with the community in innovative ways.

4.2.2 Increase advocacy activities and develop partnerships to support growth and reputation

Pictured: FOGO Pop Up at Hawaiian's Forresterfield

The City continues to engage with the community in diverse and creative ways. Highlights include the launch of the Reconciliation Action Plan and a public naming competition for the eagerly anticipated Stirk Park Skate Park.

The City also advanced community consultation through the 'Big Picture' vision, which captures a long-term outlook on facilities spanning past, present, and future projects. Topics of particular interest included the Dog Exercise Area Management Plan, the Cat Local Law Amendment, and the City's Safe & Healthy Kalamunda Plan for community health and wellbeing.

Community engagement activities included drop-in sessions across City locations, such as libraries, recreation centres, and shopping centres. Additionally, the Community Engagement Team collaborated with the Waste Team on the FOGO (Food Organics, Garden Organics) three-bin system, hosting displays at events and drop-in sessions to prepare the community for the transition.

Digital Engagement

The City of Kalamunda experienced strong online engagement through its website and social media channels, as shown in the metrics below:

Website – kalamunda.wa.gov.au

Pictured: Engage Website Homepage

Engage.kalamunda

The City had a total of 41 projects open for public comment on the engage.kalamunda online portal. These projects spanned a wide variety of the City’s services, policies, facility and amenity consultations.

Highlights

Top projects (survey responses)

Project	Visitors	Responses
Vote to Name the New Skate Park at Stirk Park	1,833	411
Safe & Healthy Kalamunda	2,314	207
Dog Exercise Area Management Plan	1,008	203
Development Proposal: Funeral Parlour and Office - Lot 192 (No. 326) Hale Road, Wattle Grove (DA23/0499)	2,976	162
Commemorative Planting Day 2024	269	127
Development Proposal Restaurant/Café – Lot 500 (2) Welshpool Road East, Lesmurdie (DA24/0024)	374	125
Kalamunda Art Awards 2024	135	112
Road Management Plan Review	209	103
Name the New Skate Park in Stirk Park	304	24
Draft Service 9 – Sporting and Community Group Leases Policy	395	23

Advisory Groups

The City sought public expressions of interest for five advisory groups, encouraging community members to self-nominate. These advisory groups were established to enhance collaboration and address specific community needs:

- Kalamunda Arts Advisory Group
- Kalamunda Economic and Tourism Development Advisory Group
- Strategic Sport and Recreation Advisory Group
- Disability and Carers Advisory Group
- Kalamunda Environmental and Sustainability Advisory Group

Awards & Recognition

The City was honoured with several award nominations and a notable win in 2023–2024:

Winner

Palliative Care WA Awards
Compassionate Community Award
November 2023

Awards	Category	Date	Status
Palliative Care WA Awards	Compassionate Community Award	November 2023	Won
Aware Super Warlang Award 2023	Workplace Wellbeing - GROW Kalamunda	November 2023	Nominated

IPWEA WA Excellence Award	Excellence in Environment & Sustainability - Diversion of Waste to Second Chance at Walliston Transfer Station	January 2024	Nominated
Planning Institute Awards 2023	Strategic Planning Project -High Wycombe South	May 2024	Nominated
Planning Institute Awards 2023	Climate Change and Resilience - Urban Forest Strategy	May 2024	Nominated
Planning Institute Awards 2023	Community Wellbeing and Diversity - Urban Forest Strategy	May 2024	Nominated
Planning Institute Awards 2023	Stakeholder Engagement - Urban Forest Strategy	May 2024	Nominated

Pictured: Wayfairers Conversation Cafe

Kalamunda WayFairers and Conversation Cafes

The Kalamunda WayFairer Project, funded by the Department of Communities and facilitated by Inclusion Solutions in partnership with the City of Kalamunda, is a five-year initiative aimed at fostering community connections and encouraging residents to actively contribute to local life. Focused on the involvement of older residents, this project seeks to build a stronger, more connected community.

The primary objective of the WayFairer Project is to align the knowledge, skills, and interests of residents aged 50 and above with community organisations in need of support. By engaging older residents in volunteer opportunities, the project helps address staffing gaps in these organisations while strengthening overall community resilience.

In response to a growing need for social connection following COVID-19, the City introduced Conversation Cafes as a welcoming space for people to gather and socialise over coffee. The first café, launched in Forrestfield, quickly grew in popularity, leading to additional locations in Kalamunda and High Wycombe. These cafes have successfully created new avenues for connection and community support. The project concluded on 30 June 2024.

SEED Young Entrepreneurs Program

The SEED Young Entrepreneurs Program—a collaboration between the City of Kalamunda, the Kalamunda Chamber of Commerce, and Hawaiian—supports aspiring young entrepreneurs aged 16-25. This year, the program expanded with the involvement of Curtin University and local businesses, further extending opportunities for participants.

The program connects young entrepreneurs with mentors from the Chamber of Commerce, guiding them through a series of Business Basics Workshops. The program culminates in a pitch competition where finalists present their business ideas to a panel, competing for seed funding. This year, the three finalists received a total of \$2,500 in funding from Hawaiian to grow their ventures. Additionally, the winner was awarded a Curtin Ignition Program Scholarship valued at \$3,500, providing further support for their entrepreneurial journey.

Pictured: SEED Young Entrepreneurs Program

Compassionate Communities

With funding from the Department of Health, the City of Kalamunda launched the Compassionate Communities Initiative to enhance understanding and foster supportive networks around end-of-life matters. Through meaningful events and programs, this initiative has brought residents together in supportive and compassionate ways:

Artist-in-Residence Program

Partnering with Kalamunda Hospital's Palliative Care Unit, artist Eleisha Pirouet created a series of eight portraits that capture the stories and experiences of patients, families, and staff, deepening empathy and understanding within the community.

Community Workshops

Facilitated by Eleisha Pirouet, these workshops provided safe, open spaces for discussing end-of-life topics, celebrating life, and fostering supportive community connections.

Forum – Living Well, Ending Well

Held on Dying to Know Day, this forum brought together experts and community members to discuss life, aging, and community support, fostering greater understanding around these topics.

Legacy Portraits Exhibition

The artist's work culminated in an exhibition of the legacy portraits, celebrating the lives and stories of community members.

Kalamunda Compassionate Communities Working Group

This newly formed group works to strengthen community bonds and organise supportive events. One highlight was the Legacy Lantern Ceremony, where participants wrote messages of love and remembrance on lanterns and released them onto Stirk Park Lake in memory of loved ones. This symbolic event reflects the unity and compassion that are at the heart of our city.

Pictured: Legacy Lantern Event

Pictured: Connecting Communities Event

Building Strong Local Partnerships

Over the past year, the City of Kalamunda has continued to strengthen connections with local organisations, working closely with groups like the Darling Range Hub, Gosnells Community Legal Centre through the Financial Wellbeing Collective, Woodlupine Family Centre, Meerilinga High Wycombe, and Make It Special. Kalamunda Senior High School and Kalamunda Secondary Education Support Centre have also hosted the City's Youth Advisory Committee meetings, enhancing youth engagement within the community.

We extend our gratitude to Dome Kalamunda and the Clip Joint Kalamunda for their community contributions. Dome facilitated community Barista Workshops, while the Clip Joint organised the Find A Fairy Kalamunda trail doors, enriching the community experience.

Our partnerships were further celebrated at the Connecting Communities event, which welcomed 70 stallholders, including groups like the Kalamunda Volunteer Bush Fire Brigade, Kalamunda Community Radio, Reconciliation WA, Kalamunda Community Learning Centre, Uthando Project, Head to Health, and many more. Special thanks go to the Rapid Relief Team Australia for their generous catering support, making the event a memorable gathering for the community.

Supplementary Information

Record keeping and statutory requirements

Statement on the City of Kalamunda Record Keeping Plan

The City of Kalamunda is dedicated to managing government records in alignment with legislative requirements and best practice standards. The City's Record Keeping Plan was approved by the State Records Commission on 8 April 2020, with a scheduled resubmission on 8 April 2025.

Electronic Document Records Management System

Altus ECM, the City's Enterprise Content Management System, serves as the official repository for records. To enhance document retention and disposal according to the General Disposal Authority for Local Government, the City has implemented Microsoft 365 Compliance for documents created in OneDrive, Teams, and SharePoint.

The City is also rolling out a new Electronic Document Records Management System as part of the broader Enterprise Resource Planning (ERP) implementation. This rollout will occur in stages over the next three years.

Data Protection and Information Privacy

The City of Kalamunda is developing policies and procedures in alignment with the Privacy Act and State Government guidance. Sensitivity labels are applied to secure records appropriately.

Training

The City provides ongoing records management training for all staff, including a comprehensive Records Induction Training. Training covers staff responsibilities in record keeping, identifying business emails, City-specific records business rules, and navigating the Records System. Altus ECM training videos are also available on the City's intranet.

The City uses Litmos as its Learning Management System, offering online courses on Records Management with quizzes to reinforce learning. These courses are designed to expire annually to ensure that all staff maintain a baseline knowledge.

KPI and Performance Management

Records and information staff undergo annual performance evaluations, with regular updates provided through daily meetings.

Freedom of Information Statement

The City of Kalamunda's Information Statement was updated in June 2024 and is available on the City's website and at the Administration Centre.

During the 2023–2024 financial year, the City received 27 Freedom of Information (FOI) requests, with 1 for personal information and 26 for non-personal information. The average time to process an FOI request was 18 days.

Western Australia

City of Kalamunda

Financial Report

for the year ended 30 June 2024

Local Government Act 1995

Local Government (Financial Management) Regulations 1996

Statement by Chief Executive Officer

The accompanying financial report of the City of Kalamunda has been prepared in compliance with the provisions of the *Local Government Act 1995* from proper accounts and records to present fairly the financial transactions for the reporting period ended 30 June 2024 and the financial position as at 30 June 2024.

At the date of signing this statement the particulars included in the financial report are not misleading or inaccurate.

Signed on the 7th day of November 2024.

Chief Executive Officer

Anthony Vuleta

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 1. Basis of preparation

The financial report of the City of Kalamunda, which is a Class 2 local government, comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

The *Local Government (Financial Management) Regulations 1996* provide that:

- land and buildings classified as property, plant and equipment; or
- infrastructure; or
- vested improvements that the local government controls;

and measured at reportable value, are only required to be revalued every five years. Revaluing these non-financial assets every five years is a departure from AASB 116 Property, Plant and Equipment, which would have required the City to assess at each reporting date whether the carrying amount of the above mentioned non-financial assets materially differs from their fair value and, if so, revalue the class of non-financial assets.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the

application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
- Property, plant and equipment - note 8
- Infrastructure - note 9
- Expected credit losses on financial assets - note 22
- Measurement of employee related provisions - note 15

Fair value hierarchy information can be found in Note 24.

The local government reporting entity

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 30 to these financial statements.

Initial application of accounting standards

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

- *AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates*

This standard resulted in terminology changes relating to material accounting policies (formerly referred to as significant accounting policies).

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- *AASB 2014-10 Amendments to Australian Accounting Standards-Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 1. Basis of preparation (continued)

- *AASB 2020-1 Amendments to Australian Accounting Standards -Classification of Liabilities as Current or Non-current*
- *AASB 2021-7c Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]*
- *AASB 2022-5 Amendments to Australian Accounting Standards -Lease Liability in a Sale and Leaseback*
- *AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants*

These amendments are not expected to have any material impact on the financial report on initial application.

- *AASB 2022-10 Amendments to Australian Accounting Standards -Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*

These amendment may result in changes to the fair value of non-financial assets. The impact is yet to be quantified.

- *AASB 2023-1 Amendments to Australian Accounting Standards - Supplier Finance Arrangements*

These amendments may result in additional disclosures in the case of applicable finance arrangements.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 2. Revenue and expenses

(a) Revenue

Contracts with customers

Recognition of revenue is dependent on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/refunds/warranties	Timing of revenue recognition
Grants, subsidies or contributions	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations
Fees and charges - licences, registrations, approvals	Building, planning, development and animal management.	Single point in time	Full payment prior to issue	None	On payment and issue of the licence, registration or approval
Fees and charges - waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	On entry to facility
Other revenue - private works	Contracted private works	Single point in time	Monthly in arrears	None	At point of service
Fee and charges for other goods and services	Library fees and reinstatements	Single point in time	Payment in full in advance	None	At point of service

Consideration from contracts with customers is included in the transaction price.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 2. Revenue and expenses (continued)

- Restricted cash and cash equivalents	17a	29,840,361	16,657,329
Total		43,325,236	32,935,495

MATERIAL ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Term deposits are presented as cash equivalents if they have a maturity of three months or less from the date of acquisition and are repayable with 24 hours notice with no loss of interest.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions.

Restrictions are specified in an agreement, contract or legislation.

This applies to reserve accounts, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement and for which no liability has been recognised.

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 4. Other financial assets

	Note	2024 \$	2023 \$
(a) Current assets			
Financial assets at amortised cost		10,716,382	10,189,458
Total current financial assets		10,716,382	10,189,458
Financial assets at amortised cost			
Self supporting loans receivable		9,646	13,889
Term deposits	17a	10,706,736	10,175,569
		10,716,382	10,189,458
Held as			
- Unrestricted other financial assets at amortised cost		9,646	13,889
- Restricted other financial assets at amortised cost	17a	10,706,736	10,175,569
Total		10,716,382	10,189,458
(b) Non current assets			
Financial assets at amortised cost		32,327	44,458
Financial assets at fair value through other comprehensive income		166,342	162,979
Total non-current financial assets		198,669	207,437
Financial assets at amortised cost			
Self supporting loans receivable		32,327	44,458
		32,327	44,458
Financial assets at fair value through other comprehensive income			
Units in Local Government House Trust		166,342	162,979
		166,342	162,979

Loans receivable from clubs/institutions have the same terms and conditions as the related borrowing disclosed in Note 28(a) as self supporting loans. Fair value of financial assets at fair value through profit and loss is determined from the net asset value of the units held in the Trust at balance date as compiled by WALGA.

MATERIAL ACCOUNTING POLICIES

Other financial assets at amortised cost

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at a mortised cost fair values are based on discounted cash flows using a current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 24(i)) due to the observable market rates.)

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 4. Other financial assets (continued)

Financial assets at fair value through profit or loss

The City has elected to classify the following financial assets at fair value through profit or loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the Council has not elected to recognise as fair value gains and losses through profit or loss.

Impairment and risk

Information regarding impairment and exposure to risk can be found at Note 22.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 5. Trade and other receivables

		2024	2023
	Note	\$	\$
Current			
Rates and statutory receivables		3,273,621	2,377,431
Trade receivables		534,137	419,903
GST receivable		240,899	673,990
Receivables for employee related provisions	15	282,035	112,498
		4,330,692	3,583,822
Non-current			
Rates and statutory receivables		1,154,816	1,048,725
Eastern Metropolitan Regional Council (EMRC) receivable		29,550,669	—
		30,705,485	1,048,725

EMRC receivable:

The City of Kalamunda was a participant in the Eastern Metropolitan Regional Council (EMRC) and had a share in the Net Assets of EMRC. The City's interest in the EMRC was calculated by the EMRC as of 30 June 2023 was 17.29% representing its share of Net Assets \$30,718,215 (refer to Note 21(a)). On the 22 November 2022, the City issued its Notice of Withdrawal from the EMRC. The effective date of the withdrawal is after 30 June 2023. Consequently, the withdrawal took effect 1 July 2023. The City's equity entitlement is subject to a different valuation methodology and process prescribed in the Establishment Agreement for withdrawing participants. This process is ongoing and is planned to be finalised and paid by 31 July 2025 as such the nature of this investment has been transferred to non-current asset receivable (refer to note 5) and discounted to the present value of \$29,550,669. The difference of \$1,167,546 is accounted for as a loss on divestment (refer to note 2b) worth \$1,033,131 and revaluation adjustment worth \$134,416 (refer to note 16).

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 5. Trade and other receivables (continued)

Disclosure of opening and closing balances related to contracts with customers

Information about receivables from contracts with customers along with financial assets and associated liabilities arising from transfers to enable the acquisition or construction of recognisable non financial assets is:

	30 June 2024 Actual \$	30 June 2023 Actual \$	1 July 2022 Actual \$
Trade and other receivables from contracts with customers	534,137	419,903	438,841
Allowance for credit losses of trade receivables	(4,601)	(3,275)	(2,547)
Total trade and other receivables from contracts with customers	529,536	416,628	436,294

MATERIAL ACCOUNTING POLICIES**Rates and statutory receivables**

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

Trade and other receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations as part of the ordinary course of business.

Other Receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers including grants for the construction of recognisable non financial assets.

Measurement

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 22.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 6. Inventories

	2024 \$	2023 \$
Current		
Fuel and materials	131,633	116,736
Land held for resale		
- Cost of acquisition	725,360	—
Total current inventories	856,993	116,736
Non-current		
Land held for resale		
- Cost of acquisition	828,872	914,232
- Development costs	16,046	16,046
Total non-current inventories	844,918	930,278

The following movements in inventories occurred during the year:

Balance at beginning of year	1,047,014	529,621
Additions to inventory	654,896	517,393
Balance at end of year	1,701,910	1,047,014

MATERIAL ACCOUNTING POLICIES**General**

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.

Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

(*) The prior year error of \$1.28 million was due to an overstatement of revaluation surplus and property, plant and equipment (buildings) during last year's infrastructure assets revaluation. The amount however is immaterial; therefore comparative figures have not been restated. Instead, the error has been corrected in the current financial year by reducing the buildings and revaluation surplus by \$1.28 million (refer to note 16)

continued on next page ...

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 8. Property, plant and equipment (continued)

(b) Carrying Amount Measurements

Asset class	Fair value hierarchy	Valuation technique	Basis of valuation	Date of last valuation	Inputs used
(i) Fair Value - as determined at the last valuation date					
Land	Level 2	Market approach using recent observable market data for similar assets	Independent registered valuer	June 2020	Average price for square meter / sales proceeds of comparable properties.
Improvements to Land - vested in and under the control of Council	Level 3	Improvements to land valued using cost approach using current replacement cost	Independent registered valuer	June 2020	Improvements to land using construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3) inputs.
Buildings - specialised	Level 3	Improvements to building valued using cost approach using current replacement cost	Independent registered valuer	June 2020	Improvements to building using construction costs and current condition (Level 2), residual values and remaining useful life assessments (Level 3) inputs.

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs. The valuation techniques applied to property subject to lease was the same as that applied to property not subject to lease.

Asset class	Valuation technique	Basis of valuation	Date of last valuation	Inputs used
(ii) Cost				
Furniture and equipment	Not Applicable	Cost	Not Applicable	Not Applicable
Plant and equipment	Not Applicable	Cost	Not Applicable	Not Applicable

Note 10. Fixed assets (continued)

MATERIAL ACCOUNTING POLICIES

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the City's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Revaluation

Land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes

improvements (i.e. vested improvements) on land vested in the City.

Whilst the regulatory framework only requires a revaluation to occur every five years, it also provides for the City to revalue earlier if it chooses to do so.

For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity.

Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset.
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Impairment

In accordance with *Local Government (Financial Management) Regulations 17A(4C)*, the City is not required to comply with *AASB136 Impairment of Assets* to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.

In other circumstances where it has been assessed that one or more of these non-financial assets are impaired, the asset's carrying amount is written down immediately to its

continued on next page ...

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 10. Fixed assets (continued)

recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

Total lease liabilities	28c	694,637	586,178

Secured liabilities and assets pledged as security

Lease liabilities are effectively secured, as the rights to the leased assets recognised in the financial statements revert to the lessor in the event of default.

continued on next page ...

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 11. Leases (continued)

MATERIAL ACCOUNTING POLICIES

Leases

At inception of a contract, the City assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

All contracts that are classified as short-term leases (i.e. a lease with a term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Details of individual lease liabilities required by regulations are provided at Note 28(c).

Right-of-use assets - measurement

Right-of-use assets are measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (i.e. not recognised in the Statement of Financial Position). The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which are reported at fair value.

Refer to Note 10 under revaluation for details on the significant accounting policies applying to vested improvements.

Right-of-use assets - depreciation

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shorter. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the City anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Deferred Salary Scheme - Employee Contribution	17,824	14,546
Total non-current trade and other payables	17,824	14,546

MATERIAL ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are initially recognised at fair value when the City becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and any consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services.

The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises income for the prepaid rates that have not been refunded.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 13. Other liabilities

Expected satisfaction of capital grant/contribution liabilities

Less than 1 year	5,052,941	3,419,056
	5,052,941	3,419,056

Performance obligations in relation to capital grant/contribution liabilities are satisfied as project milestones are met or completion of construction or acquisition of the asset.

MATERIAL ACCOUNTING POLICIES

Contract Liabilities

Contract liabilities represent the the City's obligation to transfer goods or services to a customer for which the City has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Capital grant/contribution liabilities

Capital grant/contribution liabilities represent the City's obligations to construct recognisable non-financial assets to identified specifications to be controlled by the City which are yet to be satisfied. Capital grant/contribution liabilities are recognised as income when the obligations in the contract are satisfied.

Fair values for non-current capital grant/contribution liabilities, not expected to be extinguished within 12 months, are based on discounted cash flows of expected cashflows to satisfy the obligations using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 24(i)) due to the unobservable inputs, including own credit risk.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 14. Borrowings

	Note	2024			2023		
		Current \$	Non-current \$	Total \$	Current \$	Non-current \$	Total \$

Secured liabilities and assets pledged as security

Debentures, bank overdrafts and bank loans are secured by a floating charge over the assets of the City of Kalamunda. Other loans relate to transferred receivables. Refer to Note 5.

The City of Kalamunda has complied with the financial covenants of its borrowing facilities during the 2024 and 2023 years.

MATERIAL ACCOUNTING POLICIES**Borrowing costs**

The City has elected to recognise borrowings costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 24(i)) due to the unobservable inputs, including own credit risk.

Risk

Information regarding exposure to risk can be found at Note 22.

Details of individual borrowings required by regulations are provided at Note 28(a).

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 15. Employee related provisions

	2024 \$	2023 \$
(a) Employee related provisions		
Current provisions		
Employee benefit provisions

	5,532,000	5,360,095

Expected reimbursements of employee related provisions from other WA local governments included within other receivables

5 282,035 112,498

MATERIAL ACCOUNTING POLICIES

Employee benefits

The City's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes

continued on next page ...

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 15. Employee related provisions (continued)

in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Note 18. Contingent liabilities

In compliance with the *Contaminated Sites Act 2003* Section 11, the City has listed the following sites to be possible of contamination.

Alan Anderson Reserve

180, Lawnbrook Road, Walliston, WA, 6076

Ledger Road Reserve

42, Ledger Road, Gooseberry Hill, WA, 6076

Old Quarry Dam

Lot 1879 on plan 168945, Piesse Brook, WA, 6076

Brand Road

65, Brand Road, High Wycombe, WA, 6057

101, Brae Road, High Wycombe, WA, 6057

29, Smokebush Place, High Wycombe, WA, 6057

39, Smokebush Place, High Wycombe, WA, 6057

Road Reserve, High Wycombe, WA, 6057 adjacent to;

39, Smokebush Place, High Wycombe, WA, 6057

29, Smokebush Place, High Wycombe, WA, 6057

65, Brand Road, High Wycombe, WA, 6057

101, Brae Road, High Wycombe, WA, 6057

51, Brand Road, High Wycombe, WA, 6057

Dawson Avenue

155, Dawson Avenue, Forrestfield, WA, 6058

191, Dawson Avenue, Forrestfield, WA, 6058

Pioneer Park

120, Dawson Avenue, Forrestfield, WA, 6058

170, Dawson Avenue, Forrestfield, WA, 6058

Maida Vale Reserve

20, Ridge Hill Road, Maida Vale, WA, 6057

Transfer Station (Including Pistole & Riffle Club)

155, Lawnbrook Road, Walliston, WA, 6076

Hartfield Park Reserve

199, Hale Road, Forrestfield, WA, 6058

East Terrace Reserve

24, East Terrace, Kalamunda, WA, 6076

The City is in the process of conducting investigations to determine the presence and extent of contamination, assess risk, and agree with the Department of Water and Environmental Regulation on the need and criteria for remediation confirmed unacceptable risk. The City is unable to estimate the potential costs associated with remediation of these sites. This approach is consistent with the Department of Water and Environmental Regulation Guidelines.

The City uses the funds in the Waste Avoidance and Resource Recovery reserve (Note 29) to facilitate the evaluation, annual maintenance of contaminated sites and any future remediation work.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 19. Capital commitments

	2024	2023
	\$	\$
(a) Capital expenditure commitments		
Contracted for:		
- capital expenditure projects	1,776,506	3,723,122
- other	—	474,959
Total capital expenditure commitments	1,776,506	4,198,081
Payable:		
- not later than one year	1,776,506	4,198,081
Total capital expenditure commitments	1,776,506	4,198,081

At the end of each financial year the City reviews the position of its incomplete capital expenditure projects and the position of unexpended specific purpose grants. The City recognises the costs of major capital projects to be carried forward to the next financial year and transfers adequate funds to the unexpended capital works and specific purpose grants reserve. The reserve is fully cash backed and categorised under restricted cash.

Notes to and forming part of the Financial Report
for the year ended 30 June 2024

Note 20. Related party transactions (continued)

These amounts represent termination benefits paid to KMP (Note: may or may not be applicable in any given year).

Council member costs

These amounts represent payments of member fees, expenses, allowances and reimbursements during the year.

(c) Transactions with related parties

Transactions between related parties and the City are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts or guarantees exist in relation to related parties at year end.

	2024 Actual \$	2023 Actual \$
--	----------------------	----------------------

In addition to KMP compensation above the following transactions occurred with related parties:

Purchase of goods and services	–	4,228,542
	–	4,228,542

Amounts payable to related parties:

Trade and other payables	–	410,338
--------------------------	---	---------

Related parties

The City's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any council member, are considered key management personnel and are detailed in Notes 20(a) and 20(b).

ii. Other Related Parties

Outside of normal citizen type transactions with the City, there were no other related party transactions involving key management personnel and/or their close family members and/or their controlled (or jointly controlled) entities.

iii. Entities subject to significant influence by the City

There were no such entities requiring disclosure during the current or previous year.

Note 21. Investment in associates

(a) Investment in associates

Set out in the table below are the associates of the City. All associates are measured using the equity method. Western Australia is the principal place of business for all associates.

Name of entity	% of ownership 2024	interest 2023	2024 Actual \$	2023 Actual \$
Eastern Metropolitan Regional Council (EMRC)	-	17.29%	-	30,718,215
Total equity-accounted investments			-	30,718,215

Eastern Metropolitan Regional Council

The City of Kalamunda was a participant in the Eastern Metropolitan Regional Council (EMRC) and had a share in the Net Assets of EMRC. The City's interest in the EMRC, calculated by the EMRC as of 30 June 2023, was 17.29% representing its share of Net Assets \$30,718,215. On the 22 November 2022, the City issued its Notice of Withdrawal from the EMRC. The effective date of the withdrawal is after 30 June 2023. Consequently, the withdrawal took effect 1 July 2023. The City's equity entitlement is subject to a different valuation methodology and process prescribed in the Establishment Agreement for withdrawing participants. This process is ongoing and is planned to be finalised and paid by 31 July 2025 as such the nature of this investment has been transferred to non-current asset receivable (refer to note 5) and discounted to the present value of \$29,550,669. The difference of \$1,167,546 is accounted for as a loss on divestment (refer to note 2b) worth \$1,033,131 and revaluation adjustment worth \$134,416 (refer to note 16).

MATERIAL ACCOUNTING POLICIES

Investments in associates

An associate is an entity over which the City has significant influence, that is it has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

Investments in associates are accounted for using the equity method. The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the City's share of net assets of the associate. In addition, the City's share of the profit or loss of the associate is included in the City's profit or loss.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 22. Financial risk management

Financial risk management

This note explains the City's exposure to financial risks and how these risks could affect the City's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk - interest rate	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and debt investments	Aging analysis Credit analysis	Diversification of bank deposits, credit limits. Investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The City does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance department under policies approved by the Council. The finance department identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

(a) Interest rate risk

Cash and cash equivalents

The City's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the City to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the City to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts and non-interest bearing accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents, term deposits, and Treasury bonds held disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted average interest rate %	Carrying amounts \$	Fixed interest rate \$	Variable interest rate \$	Non interest bearing \$
2024					
Cash and cash equivalents	4.35%	43,325,236	3,629,482	34,059,150	5,636,604
Financial assets at amortised cost - term deposits	5.10%	10,706,736	10,706,736	—	—
2023					
Cash and cash equivalents	3.99%	32,935,495	3,464,630	21,499,544	7,971,321
Financial assets at amortised cost - term deposits	3.66%	10,175,569	10,175,569	—	—

continued on next page ...

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 22. Financial risk management (continued)

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

	2024 \$	2023 \$
Impact of a 1% movement in interest rates on profit or loss and equity *	340,592	214,995

(*) Holding all other variables constant

Borrowings

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The City manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The City does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 28(a).

(b) Credit risk**Trade and Other Receivables**

The City's major trade and other receivables comprise contractual non-statutory user fees and charges, grants, contributions and reimbursements. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The City manages this risk by monitoring outstanding debt and employing debt recovery policies.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade and other receivables. To measure the expected credit losses, receivables from grants, contributions and reimbursements are separated from other trade receivables due to the difference in payment terms and security.

The expected loss rates are based on the payment profiles of trade and other receivables over a period of 36 months before 1 July 2023 or 1 July 2024 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of users to settle the receivables.

The loss allowance as at 30 June 2024 and 30 June 2023 was determined as follows for trade and other receivables.

	Current \$	More than 30 days past due \$	More than 60 days past due \$	More than 90 days past due \$	Total \$
30 June 2024					
Trade receivables					
Expected credit loss	0.04%	0.05%	0.05%	0.86%	
Gross carrying amount	463,464	19,855	18,620	32,199	534,138

Gross carrying amount	—	—	—	—	—
Loss allowance	—	—	—	—	—

(c) Liquidity risk

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The City manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer.

Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 17(c).

The contractual undiscounted cash flows of the City's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Due within 1 year \$	Due between 1 & 5 years \$	Due after 5 years \$	Total contractual cash flows \$	Carrying values \$
2024					
Trade and other payables	10,132,019	—	—	10,132,019	10,132,019

	12,921,065	6,367,097	1,357,514	20,645,676	20,645,676

(*) Borrowings include the principal and interest repayments due.

Notes to and forming part of the Financial Report
for the year ended 30 June 2024

Note 23. Events occurring after the end of the reporting period

There have been no significant events after the reporting period that are to be included in 2023-24 Financial Report.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 24. Other Material Accounting Policies

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the City applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial report is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The City contributes to a number of Superannuation Funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the City would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

continued on next page ...

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Interest revenue

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

i) Fair value hierarchy

AASB 13 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one

Notes to and forming part of the Financial Report for the year ended 30 June 2024

Note 24. Other Material Accounting Policies (continued)

or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The City selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the City are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the City gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

j) Impairment of assets

In accordance with Australian Accounting Standards, the City's assets are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount except for non-financial assets that are:

- land and buildings classified as property, plant and equipment;
- infrastructure; or
- vested improvements that the local government controls, in circumstances where there has been an impairment indication of a general decrease in asset values.

These non-financial assets are assessed in accordance with the regulatory framework detailed in Note 10.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. *AASB 116 Property, Plant and Equipment*) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Notes to and forming part of the Financial Report

for the year ended 30 June 2024

Note 25. Function and activity

(a) Service objectives and descriptions

City operations as disclosed in these financial statements encompass the following service orientated functions and activities.

NAME AND OBJECTIVES**DESCRIPTION****GOVERNANCE**

To provide a decision-making process for the efficient allocation of scarce resources.

Includes the activities of members of Council and the administrative support available to the Council for the provision of governance of the district. Other costs relate to the task of assisting council members and ratepayers on matters which do not concern specific local government services.

GENERAL PURPOSE FUNDING

To collect revenue to allow for the provision of services.

Rates, general purpose government grants and interest revenue.

LAW, ORDER, PUBLIC SAFETY

To provide services to help ensure a safer and environmentally conscious community.

Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety including emergency services.

HEALTH

To provide an operational framework for environmental and community health.

Inspection of food outlets and their control, provision of meat inspection services, noise control and waste disposal compliance.

EDUCATION AND WELFARE

To provide services to disadvantaged persons, the elderly, children and youth.

Maintenance of child minding centre, playgroup centre, senior citizen centre and aged care centre. Provision and maintenance of home care programs and youth services.

COMMUNITY AMENITIES

To provide services required by the community.

Rubbish collection services, operation of rubbish disposal sites, litter control, construction and maintenance of urban storm water drains, protection of the environment and administration of town planning schemes, cemetery and public conveniences.

RECREATION AND CULTURE

To establish and effectively manage infrastructure and resources which will help the social wellbeing of the community.

Maintenance of public halls, civic centres, aquatic centre, beaches, recreation centres and various sporting facilities. Provision and maintenance of parks, gardens and playgrounds. Operation of library, museum and other cultural facilities.

TRANSPORT

To provide safe, effective and efficient transport services to the community.

Construction and maintenance of roads, streets, footpaths, depots, cycle ways, parking facilities and traffic control. Cleaning of streets and maintenance of street trees, street lighting etc.

ECONOMIC SERVICES

To help promote the local government and its economic wellbeing.

Tourism and area promotion including the maintenance and operation of a caravan park. Provision of rural services including weed control, vermin control and standpipes. Building Control.

OTHER PROPERTY AND SERVICES

To monitor and control operating accounts.

Private works operation, plant repair and costs.

Auditor General

INDEPENDENT AUDITOR'S REPORT

2024

City of Kalamunda

To the Council of the City of Kalamunda

Opinion

I have audited the financial report of the City of Kalamunda (City) which comprises:

- the statement of financial position as at 30 June 2024, the statement of comprehensive income, statement of changes in equity, statement of cash flows and statement of financial activity for the year then ended
- notes comprising a summary of material accounting policies and other explanatory information.

In my opinion, the financial report is:

- based on proper accounts and records
- presents fairly, in all material respects, the results of the operations of the City for the year ended 30 June 2024 and its financial position at the end of that period
- in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial report section below.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information

The Chief Executive Officer (CEO) is responsible for the preparation and the Council for overseeing the other information. The other information is the information in the entity's annual report for the year ended 30 June 2024, but not the financial report and my auditor's report.

My opinion on the financial report does not cover the other information and accordingly, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I did not receive the other information prior to the date of this auditor's report. When I do receive it, I will read it and if I conclude that there is a material misstatement in this information, I am required to communicate the matter to the CEO and Council and request them to correct the misstated information. If the misstated information is not corrected, I may need to retract this auditor's report and re-issue an amended report.

Responsibilities of the Chief Executive Officer and Council for the financial report

The Chief Executive Officer (CEO) of the City is responsible for:

- keeping proper accounts and records
- preparation and fair presentation of the financial report in accordance with the requirements of the Act, the Regulations and Australian Accounting Standards
- managing internal control as required by the CEO to ensure the financial report is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for:

- assessing the City's ability to continue as a going concern
- disclosing, as applicable, matters related to going concern
- using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the City.

The Council is responsible for overseeing the City's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial report. The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

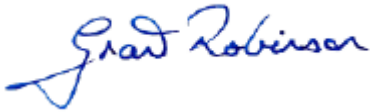

A further description of my responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor's report and can be found at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf.

My independence and quality management relating to the report on the financial report

I have complied with the independence requirements of the *Auditor General Act 2006* and the relevant ethical requirements relating to assurance engagements. In accordance with ASQM 1 Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements, the Office of the Auditor General maintains a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Matters relating to the electronic publication of the audited financial report

This auditor's report relates to the financial report of the City of Kalamunda for the year ended 30 June 2024 included in the annual report on the City's website. The City's management is responsible for the integrity of the City's website. This audit does not provide assurance on the integrity of the City's website. The auditor's report refers only to the financial report. It does not provide an opinion on any other information which may have been hyperlinked to/from the annual report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to contact the City to confirm the information contained in the website version.
