I am community minded and belong to various volunteer organizations. and always interact with the community in general, and so I do have an understanding to their wants and needs.

Items that always come up, are unreasonable land rates increases.

In 9 years, the value my land has increase by 14.6 %, CPI 28%, land rates 48.8%. This totally inexcusable, I will insist as to why this is occurring, and do something about it.

Why are our verges always so untidy, what must tourists think. We need a cleanup.

Will push for Agritourism, as I believe we have the makings to make our community vibrant once again.
