I feel so privileged to be able to represent you. We have worked together to address the climate emergency, protecting our trees, biodiversity & most recently, advocating for housing affordability. All this, we have achieved together. I heard you, this empowered me to stand for what benefits our community, not just now, but for future generations too. I am committed to asking the hard questions, & consistently seek transparency & accountability. My boys are now grown, I have so much more to give. It would be such an honour to continue to serve you; to ensure that what we have committed to is solidified; achieved. My commitment & dedication to ensuring that Kalamunda is a community for everyone continues. From investing in better facilities, safer roads to aged care provision; let's continue to work together to achieve an even better Kalamunda, reducing our emissions, planting trees, protecting biodiversity; a testament to our home in the forest.
