What do you want from our Council and the City?

Clear communication? Accountability? Outcomes that reflect residents' expectations? **Me too.**

My commitment to you is to be a **channel of clear communication between the City and our community.** I will advocate for improvements in our neighbourhood while keeping an eye on long-term planning and ensuring value for the community.

I stand for solutions that **make our streets, parks, and public spaces safer, greener, and more welcoming. Places that are inclusive and easy for everyone to enjoy.** As a mum of two young children and with ageing parents, I understand the importance of building a community that works for everyone, at every stage of life.

I may be new to you, but I'm not new to pushing for change and engagement. *Voting for someone you know isn't always enough.* I'm here to listen, act, and advocate for our community. **I'm asking for your support so that together, we can create positive change.**
