

- Online plant reservations open 9am on Wednesday 3 May 2023 via <https://www.trybooking.com/CHKYP>
- Households can select up to 15 native plants. There is a limit of two (2) plants per species, per order.
- One order per household only. First order received will be deemed the valid order.
- Residents can only order from ONE timeslot and attend this pick-up timeslot.
- Reservations close Monday, 22 May 2023, or until all plants are allocated.
- Pick up times will be 45-minute timeslots on Saturday, 27 May between 8am - 1pm from Woodlupine Family and Community Centre, Forrestfield.
- Please ONLY attend in the timeslot allocated to you.

Find full terms and conditions via: <https://www.kalamunda.wa.gov.au/plants-for-residents>.

The following list of plants provided is correct at time of publishing – where possible the City of Kalamunda in partnership with Apace will strive to provide the plants selected. Where your preferred plants are not in stock or becomes unavailable, you will be provided with the closest substitute.

Within each plant summary on the Apace website, the suburbs that the plants are best suited to are listed below the description. You can also use the suburb selector <https://www.apacewa.org.au/suburb-selector/> to determine the soil type for your area, which may assist you with selecting suitable plants for your property. Also, Apace have created blogs that give advice on [creating a native garden](#) and [how to plant a successive verge garden](#) (some tips can be used in backyards too).

Below is a summary of each plant, in alphabetical order based on their common name.

-  Australian Bluebell (*Billardiera fusiformis*)
Sturdy climber. Flowers blue/white/pink, Nov-Dec or Jan-Feb. Coastal areas, disturbed water crossing sites. Prefers moist, well-drained, humus-rich, lime-free soil. Bush tucker plant - fruits are edible when bright blue in colour. Shade tolerant and butterfly attracting.
Apace plant summary: <https://apacewa.org.au/plant/billardiera-fusiformis/>
-  Bacon and Eggs (*Gastrolobium capitatum*).
Prostrate to low, bushy shrub up to 1m high. Red (orange) and yellow (brown) pea flowers, Jun-Sept. Sandy to loamy soils, laterite, granite. Slopes, outcrops, swampy areas, plains. Bee attracting, shade tolerant and dieback resistant.
Apace plant summary: <https://www.apacewa.org.au/plant/gastrolobium-capitatum/>
-  Candle Banksia (*Banksia attenuata*)
Lignotuberous tree-shrub, 0.4-10 m high, with epicormic buds. Flowers yellow, Oct-Dec or Jan-Feb. White, yellow, brown or pale red sand, sometimes over laterite. Sand dunes, sandplains. Considered to be a bush tucker plant. Insect and bird attracting, including Carnaby Cockatoos.
Apace plant summary: <https://apacewa.org.au/plant/banksia-attenuata/>

-  **Candle Hakea (*Hakea ruscifolia*)**
Lignotuberous shrub, 0.5-3 m high. Intense flowering stems of white/cream flowers in Dec/Jan to Apr/Jun. White, grey or red/brown sand, gravelly clay, laterite.
Apace plant summary: <https://www.apacewa.org.au/plant/hakea-ruscifolia/>

-  **Cliff Net Bush (*Calothamnus rupestris*)**
Erect, compact or spreading shrub or tree (occasionally), 0.9-4 m high. Flowers are pink-red, Jul to Dec. Gravelly skeletal soils. Granite outcrops & rocks, hillsides. Popular with honeyeaters and bees.
Apace plant summary: <https://www.apacewa.org.au/plant/calothamnus-rupestris/>

-  **Common Brown Pea (*Bossiaea eriocarpa*)**
Low shrub to 0.6 metres high with the leaves arranged in two opposite rows. Pea flowers yellow and brown/red Jul-Nov. Usually on sandy soils.
Apace plant summary: <https://www.apacewa.org.au/plant/bossiaea-eriocarpa/>

-  **Common Sheoak (*Allocasuarina fraseriana*)**
Dioecious, erect tree, 5-15 m high, bark fibrous, reddish-brown. Flowers are reddish brown, May to Oct. Lateritic soils, white, grey or yellow sand. Jarrah forest, sand dunes.
Apace plant summary: <https://www.apacewa.org.au/plant/allocasuarina-fraseriana/>

-  **Coral Vine (*Kennedia coccinea*)**
Twining or trailing shrub or climber. Grows about 30cm high and 3-4m wide. Flowers orange & pink/red & pink & purple, Aug to Nov. Often sandy soils and gravelly loam.
Apace plant summary: <https://www.apacewa.org.au/plant/kennedia-coccinea>

-  **Couch Honeypot (*Banksia nivea*)**
Shrub, 0.15-1.5 m high. Flowers are cream-yellow-orange-pink/red-brown, Apr/Jul to Nov. Sandy soils, gravel, laterite, granite. Plant in a sunny spot with good drainage. Attracts honeyeaters and other birds.
Apace plant summary: <https://www.apacewa.org.au/plant/banksia-nivea/>

-  **Darling Range Ghost Gum (*Eucalyptus laeliae*)**
Tree, 5-20 m high, bark smooth, powdery. Flowers white, Dec or Jan to Feb. Sandy clay, sandy loam. Granite outcrops & hills. Requires a consistent water supply.
Apace plant summary: <https://www.apacewa.org.au/plant/eucalyptus-laeliae>

-  Devils Pins (*Hovea Pungens*)
Erect, pungent shrub, 0.2-1.8 m high. Flowers blue-purple, May-Nov. Shallow soils on rock, sandy soils, laterite, gravel, clay & loamy soils. Well-drained soil including granite outcrops, coastal limestone, flats, undulating sandplains.
Apace plant summary: <https://www.apacewa.org.au/plant/hovea-pungens/>

-  Dune Guinea-Flower (*Hibbertia subvaginata*)
Erect, occasionally prostrate, spreading or straggling shrub, 0.15-1.2 m high. Flowers yellow, Jul-Dec. White, grey or yellow sand, granite, laterite. Sandplains, sand dunes, floodplains, outcrops. Ideal for rockeries and garden beds. Prune after flowering to maintain shape and promote new growth.
Apace plant summary: <https://www.apacewa.org.au/plant/hibbertia-subvaginata/>

-  Dune Moses (*Acacia lasiocarpa*)
Dense, compact fast-growing shrub, to 2m high. Flowers are yellow, May to Oct. Variety of well-drained soils, laterite. Drought tolerant. Bird attracting.
Apace plant summary: <https://www.apacewa.org.au/plant/acacia-lasiocarpa/>

-  Dwarf Candle Banksia (*Banksia attenuata dwarf*)
Shrub 1 metre high x 2 metres wide. Yellow cone flowers in spring & summer honey eater attracting. Full sun/part shade in well-drained soil. Trim to desired shape or cut flower. Drought tolerant. Avoid areas prone to water-logging.
Friends of Kings Park plant summary:
<https://www.friendsofkingspark.com.au/product/banksia-attenuata-slender-banksia-dwarf-form/>

-  Dwarf Firewood Banksia (*Banksia menziesii dwarf*)
A showy shrub 1m high x 1m across. Great as an ornamental for the garden or pot as it has large flower heads and serrated grey to green coloured foliage. The large flowers start off pink/red, changing to yellow as they open. Attracts nectar eating birds. Sandy soils, drought tolerant. Full sun/part shade. Often grown for cut flowers.
Plant summary: <https://www.lullfitz.com.au/banksia-menziesii-dwarf>

-  Dwarf Saw Tooth Banksia (*Banksia prionotes dwarf*)
Small bushy shrub to 1.5m high x 1.5m across. Trim to shape. Large orange flowers in Autumn. Honey eater attracting. All soils, including sand and drought tolerant. Full sun.
Plant summary: <https://www.lullfitz.com.au/banksia-prionotes-dwarf>

-  Flame Pea (*Chorizema cordatum*)
Erect, straggling or climbing shrub, 0.3-1.5 m high. Flowers yellow & orange & red/pink, Jul-Dec. Grey-brown sandy gravel, red-brown sandy loam or clay, over granite or laterite. Near rock outcrops, on hills, along streams and watercourses, winter-wet flats. Tip pruning is beneficial after flowering. Full sun/part shade. Attracts birds.
Apace plant summary: <https://www.apacewa.org.au/plant/chorizema-cordatum/>

-  Graceful Honeymyrtle (*Melaleuca radula*)
Shrub, 0.3-2.4 m high. Flowers are pink-purple/white, Jul-Nov. Sandy, often gravelly soils over granite or laterite. Associated with granite rocks or watercourses. Sunny, well-drained position. Attracts bees and birds.
Apace plant summary: <https://www.apacewa.org.au/plant/melaleuca-radula/>

-  Green Kangaroo Paw (*Anigozanthos viridis - Green*)
Low growing plant with flower stems up to 65cm tall. Green flowers from Aug-Oct. Sand, loam, clay. Winter-wet areas. Full sun/part shade. Bird-attracting plant.
Apace plant summary: <https://www.apacewa.org.au/plant/anigozanthos-viridis/>

-  Green Stinkwood (*Jacksonia sternbergiana*)
Erect, weeping shrub or tree, 1.5-5 m high. Flowers yellow-orange, Jan-Dec. Sandy soils. Along rivers & creeks, near swamps, flats, dunes. Attracts birds, bees and butterflies.
Apace plant summary: <https://www.apacewa.org.au/plant/jacksonia-sternbergiana/>

-  Grevillea Green Carpet (*Grevillea crithmifolia upright*)
Dense, hardy, fast growing shrub 1.5-2m high x 2-3m wide. Bears masses of sweet smelling, cream flowers in winter and spring. Waterwise and tough for any well-drained soil type. Can be used as a screen or hedge. Bird, bee and butterfly attracting. Some shade tolerance. Best in sandy soils in suburbs not in the foothills.
Apace plant summary: <https://www.apacewa.org.au/plant/grevillea-crithmifolia/>

-  Grey Cottonheads (*Conostylis candidans*)
Rhizomatous, perennial, grass-like or herb, 0.05-0.4 m high. Flowers yellow, Jul-Nov. Sand, sandy loam, limestone well-drained soils. Full sun, shade tolerant. Attracts birds.
Apace plant summary: <https://www.apacewa.org.au/plant/conostylis-candidans/>

-  Harsh Hakea (*Hakea prostrata*)
Erect to spreading non lignotuberous shrub 0.3 to 3 metres high. White flowers winter to spring. A shade tolerant and bird and bee attracting plant.
Apace plant summary: <https://www.apacewa.org.au/plant/hakea-prostrata/>

-  Honey Bush (*Hakea lissocarpha*)
Erect to sprawling, pungent, lignotuberous shrub, 0.4-1.5(-3) m high. Flowers are white-cream/yellow/pink, May to Sep. White, grey or yellow sand, sandy loam, granitic soils, laterite. Full sun or shade. Drought tolerant (once established). Bird, bee and butterfly attracting.
Apace plant summary: <https://www.apacewa.org.au/plant/hakea-lissocarpha/>

-  Lesser Bottlebrush (*Callistemon phoeniceus*)
Tall to small tree or shrub, 2-6 m high. Flowers. red, Sep-Dec/Jan. Sandy soils, laterite. Often along watercourses. Honey eating bird attracting.
Apace plant summary: <https://www.apacewa.org.au/plant/callistemon-phoeniceus/>
-  Mangles Kangaroo Paw (*Anigozanthos manglesii*)
WA's floral emblem. Rhizomatous, perennial, herb, 0.2-1.1 m high. Flowers are green & red, Aug-Nov. White, yellow or grey sand, sandy loam. Attracts nectar-loving birds.
Apace plant summary: <https://www.apacewa.org.au/plant/anigozanthos-manglesii/>
-  Marno (*Daviesia divaricata*)
Erect, spreading shrub, 0.4-2 m high, 0.45-4 wide. Flowers are yellow/orange & red/purple, Aug-Nov. Sand, limestone, laterite. Woodlands, low open heath, roadside sandplain, gentle slopes. Waterwise and attracts birds with its interesting flowers.
Apace plant summary: <https://www.apacewa.org.au/plant/daviesia-divaricata/>
-  Marri (*Corymbia calophylla*)
A large tree that can grow up to 40m high. Brown to grey-brown rough, tessellated bark. Large urn shaped (honky) nuts with flowers predominantly towards the end of summer. Red-brown clay loam, orange-brown sandy clay, gravel, grey sand over limestone, granite, laterite. Flats, hills, slopes, breakaways, wetlands, fringing salt marches, beside drainage lines.
Apace plant summary: <https://www.apacewa.org.au/plant/corymbia-calophylla/>
-  One-sided Bottlebrush (*Calothamnus quadrifidus*)
Erect compact or spreading shrub to 1m to 2m high. Deep red flowers winter to summer. Attracts birds. Wide variety of soils and habitats.
Apace plant summary: <https://www.apacewa.org.au/plant/calothamnus-quadrifidus/>
-  Pincushion Hakea (*Hakea laurina*)
A tree that grows 2-6m tall. It produces red and white pin cushion shaped flowers from Apr-Aug. Sand, sandy clay soils.
Apace plant summary: <https://www.apacewa.org.au/plant/hakea-laurina/>

-  **Pointed Leaved Acacia (*Acacia urophylla*)**
Erect, slender, open shrub, (0.6-)1-3(-5) m high. Flowers yellow/cream-white, May-Oct. Often in lateritic soils. Drought and frost tolerant, but grows best in moist soil.
Apace plant summary: <https://www.apacewa.org.au/plant/acacia-urophylla/>

-  **Prickly Conostylis (*Conostylis aculeata*)**
Rhizomatous perennial grass-like herb. Tufted relative of Kangaroo Paws. Grows up to 0.5m tall. Occurs in dry and wetland soils. Yellow globular flowers in spring. Shade tolerant.
Apace plant summary: <https://apacewa.org.au/plant/conostylis-aculeata>

-  **Prickly Moses (*Acacia pulchella*)**
A shrub to 1.5 m tall, branching freely; branchlets spine tipped, slightly flexuose, pale green, glabrous or with sparse, to 3 mm long, erect hairs.
Apace plant summary: <https://apacewa.org.au/plant/acacia-pulchella/>

-  **Prickly Poison (*Gastrolobium spinosum*)**
tLow and bushy to erect and open, prickly shrub, to 3.5 m high. Flowers yellow/orange/red, May/Aug-Dec/Jan. Sandy and clayey soils, gravel, laterite, granite. Stony slopes, outcrops, breakaways.
Apace plant summary: <https://www.apacewa.org.au/plant/gastrolobium-spinosum/>

-  **Scarlet Honeymyrtle (*Melaleuca fulgens*)**
Shrub, 0.4-3 m high. Flowers red-pink/white, Jul to Dec. Sandy or skeletal soils, loam or gravel, granite, sandstone. Granite outcrops, sandplains, along watercourses.
Apace plant summary: <https://apacewa.org.au/plant/melaleuca-fulgens>

-  **Sea Urchin Hakea (*Hakea petiolaris*)**
Erect shrub or tree, to 9 m high. Flowers pink & cream, Mar-Jul. Loam, granite outcrops. Shade tolerant and attracts birds and bees.
Apace plant summary: <https://apacewa.org.au/plant/hakea-petiolaris/>

-  **Silky Leaved Blood Flower (*Calothamnus sanguineus*)**
Erect to open spreading shrub, 0.2-2 m high. Flowers red, Mar-Nov. Sandy or lateritic soils. Sandplains, limestone ridges, rocky outcrops
Apace plant summary: <https://apacewa.org.au/plant/calothamnus-sanguineus>

-  Snake Bush (*Hemiandra pungens*)
Small shrub up to 1m tall. Has Mauve or white flowers through spring and summer. Shade tolerant, may attract butterflies. Dieback resistant and can resprout after fire.
Apace plant summary: <https://www.apacewa.org.au/plant/Hemiandra-pungens/>

-  Swamp Tea Tree (*Pericalymma ellipticum*)
A small, erect shrub up to 3m high. Produces white/pink wax flowers with a pink/red centre from spring to summer. Shade tolerant and typically grows on seasonally damp soils.
Apace plant summary: <https://apacewa.org.au/plant/pericalymma-ellipticum>

-  Swan River Myrtle (*Hypocalymma robustum*)
Erect shrub, 0.4-1(-1.5) m high. Flowers pink/pink-red, Jun-Nov. Gravelly lateritic soils, sandy soils. Undulating terrain, ridges. Full to partial sun. Annual pruning encouraged.
Apace plant summary: <https://www.apacewa.org.au/plant/hypocalymma-robustum/>

-  Tar bush (*Eremophila glabra*)
Shrub, 0.1-3 m high. Fl. green-yellow-orange-red-brown, Mar to Dec. Sand to clay soils, sometimes saline, stony loam, limestone. Winter-wet depressions, sandplains & dunes.
Apace plant summary: <https://apacewa.org.au/plant/eremophila-glabra>

-  Two-leaf Hakea (*Hakea trifurcata*)
Rounded or open, non-lignotuberous shrub, 1.5-3 m high, to 3.5 m wide. Flowers. white/cream-pink, Apr-Oct. White, grey/brown sand over limestone or laterite, loam, gravel. Good habitat for wildlife. Well-drained soil.
Apace plant summary: <https://www.apacewa.org.au/plant/hakea-trifurcata/>

-  Wandoo (*Eucalyptus wandoo*)
Tree, 3-25 m high, bark smooth, powdery or non-powdery. Flowers white-cream, Dec/Jan-May. Sandy loam, clay loam, gravel, laterite, granite. Stony rises, undulating terrain.
Apace plant summary: <https://apacewa.org.au/plant/eucalyptus-wandoo/>
