Plus much more...

# Message from the Mayor

Greetings and a warm welcome to 2019! It is with great excitement we enter a new year of opportunity, challenges and growth.

I would like to welcome Councillor Kathy Ritchie on board, who joins us following the recent extra-ordinary election.

2019 is shaping up to be a big year for capital works, with over 20 projects currently scheduled for completion this year alone.

Safety will be improved on the City's road network with six major road projects scheduled to get underway in the first half of the year.

Seven pathway projects are now under construction and two more are set to kick off by February.

Designs for the Kalamunda Community Centre and Kalamunda Tennis Club Toilet buildings are in progress and are due for completion this year.

The second stage of the Woodlupine Brook revamp will conclude in early 2019, with the completion of a half basketball court, outdoor exercise area as well as irrigation and grassing of the open spaces adjacent to the

living stream in Wattle Grove.

Clubrooms and ovals are some of the other locations to undergo upgrades in 2019.

We're looking at the way we approach our planning to enhance environmental and sustainability outcomes and would like your input. Have your say at [engage.kalamunda.wa.gov.au](http://engage.kalamunda.wa.gov.au).

On this engagement portal you'll also find our Innovative Housing survey. Do you think our community could benefit from a greater range of housing types like tiny homes on wheels or co-operative developments? Share your views with us today.

We look forward to seeing some of our major planning items make significant progress over the next six months, including the Forrestfield North Local Structure Plan, Maida Vale Master Plan and Community Facilities Plan.

We are eager to celebrate and recognise the local heroes and good neighbours of our City and encourage you to nominate someone you know that goes over and above for their community and others. Head to our website to learn more.

Whilst you're there, don't forget to check out the events page for all of the amazing happenings around your City this summer. Come and join the fun! I look forward to seeing you there.

## Kalamunda Wins Gold for Tourism

A commitment by the City of Kalamunda to develop and promote local tourism has been rewarded with the Perth Hills Visitor Centre taking home Gold at the 2018 Perth Airport WA Tourism Awards.

The City was recognised for its work in the field, assisting Tourism operators, undertaking events and in the establishment and delivery of the Experience Perth Hills brand.

Located in the Cultural precinct, the Visitor Centre is an integral part of promoting the Perth Hills, and offers visitors up-to-date information on where to go, where to stay and what to do in the Perth Hills.

Included in the centre is a retail outlet offering a diverse selection of quality locally-made merchandise including pottery, woodwork, bags, books, cards, arts and crafts, and the renowned Zig Zag Gallery.

## Facilities for the Future

The City has been working with the community to develop the Community Facilities Plan 2019 – 2039; a plan that will guide the future provision of community facilities within the City.

The plan will consider the needs of the broader community, identify any facility provision gaps and review the existing community, sport and recreation opportunities within the City.

This will identify the current standard and future requirements of sport, recreation and community facilities.

Consultation was undertaken in late 2018 and feedback is now being reviewed. The community's input will help shape the first draft of the Plan.

The draft Community Facilities Plan 2019-2039 will be advertised to the public for comment in mid 2019.

## Corymbia Returns to Hartfield

Forrestfield's biggest multicultural festival, Corymbia, returns to Hartfield Park on Saturday 9 March.

The festival, funded by the City of Kalamunda, boasts an impressive program of free family entertainment from carnival rides to fireworks.

Visit the Corymbia Facebook page for more information.

## Kalamunda Top Pick for Entertainers

An increasing number of Australia's A-List entertainers are heading to Kalamunda Performing Arts Centre (KPAC).

Some big names to grace the stage at the Centre in 2018 included stand-up comedians Arj Barker, Jimeoin and Bob Franklin, and award-winning musicians James Blundell, Lior and The Grigoryan Brothers.

Stage shows including the acclaimed National stage show 'Menopause the Musical – Women on Fire' played to sold out crowds and provided residents an opportunity to catch top-quality stage productions in a small local-friendly setting.

The start of 2019 at the KPAC heralds a fresh new program with the comedieness Peter Rowsthorn and Fiona O'Loughlin in their hilarious stage show 'Ron and Brenda go Country' and celebrated Australian stand-up funny-man Akmal later in May.

On the first Wednesday of each month the theatre comes to life with the entertaining Morning Music. It is a highlight for many of our residents and particularly popular with those who are now enjoying their retirement.

For the full 2019 Kalamunda Performing Arts Centre programme, visit [www.kalamunda.wa.gov.au](http://www.kalamunda.wa.gov.au) or call the team on 9257 2558.

You can also follow KPAC on Facebook to keep up to date with the latest shows and information.

## Adelaide Street

High Wycombe's Adelaide Street will receive a facelift this March as works commence to install traffic calming measures.

The hoon hot-spot will be reconfigured to include an additional slow point and median islands at the Stirling Crescent and Foxton Boulevard intersections. Improvements to the existing slow points, line-marking and signage will also be carried out.

Mayor John Giardina explained that when it comes to roads, the community's safety is of utmost priority.

"This is a built up area, with children, pedestrians and residents. Traffic calming measures will help mitigate the reckless driving and speeding often seen at this location."

The City has committed \$220,000 to the project, which will be implemented in the first quarter of 2019.

## Pedestrian Refuge for Kalamunda Road

Works to install a pedestrian refuge island on Kalamunda Road, High Wycombe are expected to get underway in February 2019.

The \$35,000 project will include making the road wider, constructing a refuge island in the middle of the road, with pram ramps and a path to the bus stop.

The work will improve the safety for people crossing Kalamunda Road, near the Hillview Lifestyle Village.

Mayor John Giardina said, "Kalamunda Road is very busy at this location and needs a clearly

defined pedestrian crossing point to enable safe access to the public transport facilities."

The refuge is welcomed by local community members, particularly

Hillview Lifestyle Village who see a large number of residents and visitors requiring access to the bus stop on the northern side of Kalamunda Road.

# Forrestfield North Residential Update

The Draft Local Structure Plan for Forrestfield North's Residential Precinct was endorsed by Council at December 2018's Special Council Meeting.

The Plan has now progressed to the Western Australian Planning Commission (WAPC) for final approval.

In the meantime, the City has been working on the Development Contribution Scheme (a levy on new developments to ensure the costs of extra demand on

Council infrastructure from the development are not imposed on the community).

The Scheme will cover the Residential Precinct and the adjacent Transit Oriented Precinct and will therefore be finalised following completion of the Transit Oriented Precinct Local Structure Plan. This plan is expected to go to community for comment later this year, before Council and WAPC endorsement is sought.

The community has been asked

to help with the official name of the suburb (which is currently referred to Forrestfield North), with \$500 on offer for the winning suggestion.

First round submissions closed in late 2018 and are currently being reviewed. The finalists will be released to the community in 2019 for a final vote.

To register for updates on Forrestfield North, visit [engage.kalamunda.wa.gov.au/Forrestfield-North](http://engage.kalamunda.wa.gov.au/Forrestfield-North).

## Maida Vale Master Plan Endorsed

The Maida Vale Reserve Master Plan was endorsed by Council in December 2018.

Some of the short term recommendations of the plan include upgrading Norm Sadler Pavillion, upgrading the site's

power, baseball batting cages, lighting and connecting the site to sewer.

The longer term vision includes upgrades to the existing netball courts, improved car parking and upgraded skate park.

## Community Help Shape Scott Reserve's Future

Residents have helped guide the direction of Scott Reserve's future by participating in the first stage of community consultation for the Reserve's Master Plan.

The City called for community input in late 2018, asking for its needs to meet current and future demands.

The feedback is currently being collated to inform the first draft of the Master Plan. The draft is expected to be advertised to the public for comment by mid 2019.

## Lighting Up Kala Sports Precinct

Kalamunda's Sporting Precinct will this quarter receive lighting improvements that will bring Koster Oval to competition standard and the new Hedley Jorgensen Oval to training standard.

Jointly funded by the State Government, City of Kalamunda and local club contributions, the project involves upgrading the site's power supply and existing lighting towers and installing new training lights.

Kalamunda Sporting Precinct is considered to be one of the City's major reserves, used heavily each week of the year by sporting clubs, schools and others for sporting activities.

The new flood lighting will allow more teams to train and play simultaneously and reduce ongoing maintenance costs of the playing surface.

## Community Centre Design Underway

Wheels are in motion for the \$6.65 million Kalamunda Community Centre project, with consultants secured and design development underway.

Construction of the Kalamunda Community Centre is funded by the Federal and State Governments, Lotterywest, the Kalamunda Community Learning Centre and the City.

The building will replace the existing Jorgensen Park Pavillion, which has now reached its end of practical life.

The initial concept design, developed in consultation with the Kalamunda Community Learning Centre and other potential users of the site, includes approximately 1,000m<sup>2</sup> of floor space, activity rooms, a crèche and outdoor play spaces.

The new premises will be accessible for a wide range of user groups of all ages and abilities. The design is expected to be finalised in the first half of 2019.

## Planning Kalamunda's Town Centre

The City of Kalamunda is establishing a vision for the redevelopment and regeneration of the Kalamunda Activity Centre (KAC).

The vision is being set out in the City's Kalamunda Activity Centre Plan, a strategic document that will be put to Council to endorse for community feedback in mid-2019.

The Plan is being developed based on input from the community who assisted with extensive consultation in 2018.

For more information on the history of Kalamunda's Activity Centre Plan, visit the Major Projects page of the City's website or contact the City via phone on 9257 9999 or email [enquiries@kalamunda.wa.gov.au](mailto:enquiries@kalamunda.wa.gov.au).

# History Village Draws Big Crowds

Voted number one of the top fifteen things to do in Kalamunda on TripAdvisor, the Kalamunda History Village attracted over 17,000 local, country WA and international visitors in 2018.

A popular excursion for schools and child care centres, the Village has hosted 131 schools and day care centres from across the State and globe.

The Village was pleased to host three groups of primary and secondary school students visiting from Beijing in March and August 2018.

Committed to providing a useable space for the community, the Village is fast becoming an in demand location for Wedding ceremonies, and a sought-after backdrop for photos.

To find out more about the Kalamunda History Village, contact the team on 9293 1371 or email [enquiries@kalamunda.wa.gov.au](mailto:enquiries@kalamunda.wa.gov.au).

## Village Locomotive Works Underway

Works to remediate, conserve and refurbish the Kalamunda History Village's locomotive are now underway.

The City received a \$180,000 Heritage and Conservation Grant from Lotterywest to carry out the works.

The locomotive has been shrink wrapped since November 2016 after the identification of asbestos material during painting works.

Qualified professionals have been contracted to carry out the initial asbestos removal, which involves the construction of airtight enclosures around the locomotive.

The locomotive will be relocated to a suitable area by crane in order to construct the surrounding enclosures.

Works are expected to be complete by April 2019.

Mon–Fri: 9am–4pm, Sat–Sun: 10am–4pm  
50 Railway Road, Kalamunda (08) 9257 9998  
[zzgallery@kalamunda.wa.gov.au](mailto:zzgallery@kalamunda.wa.gov.au) [www.zzcc.com.au](http://www.zzcc.com.au)

## Road Network Upgrades

The road network in the Forrestfield North industrial precinct will undergo major changes, with approximately \$1.5 million in improvements in 2019.

The project scope includes upgrades to the Dundas Road/Berkshire Road/Milner Road, Milner Road/Nardine Close and Berkshire Road/Ashby Close intersections and an extension of Nardine Close.

Intersection works involve carriageway rehabilitation, localised road widening, line-

marking and signage installation. The Nardine Close extension will require the construction of a new carriageway, drainage swales and footpath.

The works complement the Ashby Close/Nardine Close modifications currently underway.

When complete, the industrial precinct's road network will better accommodate larger vehicle classes such as road trains. The City is on target to advertise separately the intersection and

road extension works by way of public tender in early 2019. Tender award will be subject to Council consideration, placing project commencement in mid-2019.

Funding of the works has been secured under the Forrestfield North Industrial Development Scheme.

For more information visit [engage.kalamunda.wa.gov.au/](http://engage.kalamunda.wa.gov.au/) FFHW or phone 9257 9999.

## \$6.47 Million Upgrade for Hale Rd

Works to transform Hale Road in Wattle Grove are one step closer with the detailed design nearing finalisation and Western Power applications submitted.

The \$6.47 million project, funded by the Cell 9 Wattle Grove Development Scheme over two financial years, will see Hale Road widened between Welshpool Road East and Tonkin Highway.

To facilitate the upgrades, median islands, pedestrian refuges, crossing points, footpaths, line-marking and signage will be installed. Overhead power infrastructure on the northern side of Hale Road will be undergrounded and trees will be planted in verges.

An additional \$57,000 will be allocated to the construction of the Arthur Road pathway from Hale

Road. The path will be located on the south-western side of Arthur Road and will improve safety for pedestrians.

Construction of the path will get underway in late January, whilst the Hale Road widening is expected to commence in late 2019 following the public tender process and Council consideration.

## Berkshire Road Pedestrian Crossing

Since its upgrade in 2016, Berkshire Road has become a more efficient route for road users. Crossing the road on foot, however, has remained a challenge.

To improve pedestrian safety, the City of Kalamunda is funding a \$40,000 pedestrian crossing on

Berkshire Road in the vicinity of Ilex Way.

To accommodate the crossing, localised road widening and a median island will be constructed. The island will include a refuge area, pram ramps and pathway connections.

## Skate, Scooter and BMX Clinics

Whether you're a pro skater or just starting out, the City of Kalamunda regularly hosts skate, scooter and BMX clinics for all ages and abilities.

These clinics are run in partnership with proskate groups Freestyle Now and Skateboarding WA and are held at the Kalamunda, High Wycombe and Forrestfield Skate Parks.

To find your next clinic, head to [www.kalamunda.wa.gov.au/youth](http://www.kalamunda.wa.gov.au/youth) or call 9257 9968.

## Multimillion Dollar Enhancements Put to Community

Community feedback on the multimillion dollar concept design for Cambridge Reserve is currently under review.

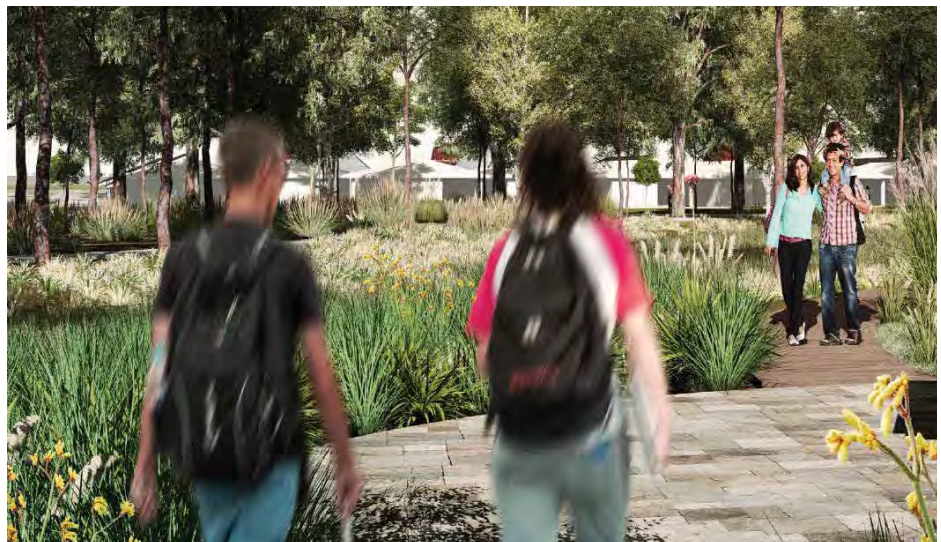

Submissions and comments are being considered to confirm if the project has community support to proceed and if so, what design changes should be examined.

The City sought feedback on the concept design in mid-2018, following earlier community visioning exercises.

The aim of the design was to deliver an intergenerational public open space that can be used and enjoyed by all ages.

Key features include a living stream, half basketball court, enclosed dog exercise area, footpaths, grassed areas, barbecue facilities, playground, revegetated areas and preservation of existing bushland of environmental value.

The delivery of the multimillion

dollar enhancements would only be made possible through the sale of some of the Reserve's vast 10.98 hectares.

The concept suggests some of that land be dedicated to an aged care site, to help address the significant shortfall of aged care housing facilities in the area.

A smaller portion of that land is proposed for over 55's and

residential development. The passive surveillance provided by the park-facing residential developments are likely to help mitigate the anti-social behaviour currently reported to be occurring at the Reserve.

Assessment of the community's feedback and a report to Council is expected to be delivered in 2019.

## Half a Million in Upgrades Underway on Canning Road

Shoulder widening works have commenced on Canning Road between Pomeroy Road and Welshpool Road East.

Works involve widening the road shoulders to up to one metre either side of the carriageway. Safety barriers, markers and line-marking will also be installed.

The increased shoulder width and safety barrier protection will help to reduce road run-off crashes.

Over \$300,000 has been allocated to the project as part of the State

government's BlackSpot Program.

Almost \$200,000 has been provided by the City, totalling over

\$500,000 in road improvement funding.

## Cockatoo Nest Boxes Attract Birds at Vernallen Reserve

City of Kalamunda Friends of Vernallen Reserve volunteer group have been working with renowned Environmentalist, Simon Cherriman, to install two artificial Cockatoo nest boxes in Lesmurdie bushland as habitat options for endangered Cockatoo species.

One of the biggest challenges faced by Cockatoos is the availability of nesting hollows.

Without these hollows, the birds are unable to successfully breed, placing the endangered animal at further risk.

Following the nest box installation, the Friends Group initiated a monitoring program. Seven local families volunteered to spend one day a week observing for nesting activity during September and October.

The monitoring suggested an increase in Cockatoo activity, evidenced by swathes of chewed gum-nuts, twigs and leaves.

An unexpected but excellent outcome from the nest box installation was the sighting of 12 other birds using the reserve. These included Red Wattle Birds, Magpies, Butcher Birds, Ring-necked Parrots, Brown Honey Eaters, Boobook Owls, Australian Ravens, Kookaburras, Rock Doves, Willie Wagtails, Bronzewing Pigeons and Tawny Frog mouths!

The City of Kalamunda would like to thank Chris, Peta, Abbie and Cara Shaw; Ilona and Eloise Old; Denise Ludemann and Norman Faraday; Gerard, Kelly, Kai and Hayley Monks; Dave Ryder; Brendon and Jeanie Lovel and Friends Group Coordinator Darrell McCarthy for their work.

## Patterson Road Improvements Kick Off

One kilometre of shoulder widening works are underway on Patterson Road, between Bracken Road and Walnut Road in Pickering Brook.

The tender for the \$350,000 project was awarded in December 2018 under delegated authority

and is jointly funded by the Federal Government Roads 2 Recovery Project and City of Kalamunda.

The scope of works includes new stormwater V-drains, line-marking, marker posts and shoulder widening of up to 6000mm each side of the carriageway.

## Mundaring Widening Works on Target for Second Quarter

Upgrades to Mundaring Weir Road shoulders are on schedule to commence in the first quarter of 2019, with an item to go to Council in relation to the tender award in January 2019.

Shoulders will be widened to between 0.6m and 1.2m from

Fern Road to the City's boundary, covering over nine kilometres of road.

The \$2.5 million State BlackSpot project, jointly funded by the State government and City of Kalamunda, will help mitigate road run-off crashes.

## Path Upgrades for Pickering Brook Road

Pedestrian safety is the focus of a new \$85,000 City of Kalamunda funded pathway upgrade to Pickering Brook Road.

Frequented by children, the path

will be upgraded to include a safe pedestrian crossing point in the vicinity of Cunnold Street.

The path will also be extended between Cunnold Close and

Cunnold Street.

The work is expected to commence in February 2019, following completion of the detailed design.

## Draft Environmental Land Use Planning Strategy

The City of Kalamunda is calling for comment on a Draft Environmental Land Use Planning Strategy (ELUPS) to improve environmental outcomes through strategic and statutory planning to meet the needs of the community into the future.

The overarching purpose of the Strategy is to identify the environmental factors that will influence planning processes in the City and how these factors can be addressed during the assessment of development applications and subdivisions.

A key goal is to improve biodiversity and promote more sustainable planning practices which are sensitive and complementary to the existing natural ecosystem.

Mayor John Giardina said, "The Strategy will form a component of the City's new Local Planning Strategy, which will provide direction for areas of housing,

activity centres, environmental planning, planning incorporating industrial zones, infrastructure and servicing."

Read the Draft Strategy and have your say online today at

[engage.kalamunda.wa.gov.au](http://engage.kalamunda.wa.gov.au).

Hard copies of the Draft Strategy and feedback forms are available at the City of Kalamunda Administration, 2 Railway Road in Kalamunda and all City Libraries.

## Innovative Housing Options

Rising populations, living costs and environmental consciousness have resulted in innovative housing solutions being developed around the globe. From Tiny Homes on Wheels (THOW) to Cooperative Developments, the alternative housing movement is progressing in leaps and bounds.

The City of Kalamunda is exploring ways to make these options more accessible to community members and is calling for your input.

Mayor John Giardina said, "Property developments are governed by a set of policies and guidelines. Some

of the alternative housing solutions such as THOW fall into a grey area of policy. Our aim is to gather community feedback to assist with refining the policies to make the pursuit of these housing alternatives much easier for those that would like to go down that path. We are also seeking community feedback to develop a strategic plan to guide the City's approach to new development types."

A community feedback survey has been established online and written submissions are invited from community members.

To access the online survey, visit the engagement portal [engage.kalamunda.wa.gov.au](http://engage.kalamunda.wa.gov.au). Hard copies of the survey are also available at the Administration Centre and local libraries.

Submissions can be addressed to the City via email at [enquiries@kalamunda.wa.gov.au](mailto:enquiries@kalamunda.wa.gov.au) or posted to City of Kalamunda, PO Box 42, WA 6926.

For more information, please contact the City of Kalamunda on 9257 9999.

# Secure Your Pool for a Safe Summer

West Australian laws require the owner or occupier of a property with a private swimming or spa pool to install barriers around the structure for the protection of young children who may enter that area with or without the knowledge or consent of the owner/occupier. Owners or occupiers are required to maintain the barrier in such a condition that it functions always.

For more information about pool safety contact the City via phone on 9257 9999 or email [enquiries@kalamunda.wa.gov.au](mailto:enquiries@kalamunda.wa.gov.au).

## Youth Shine a Light on Mental Health

The City of Kalamunda's Youth Action Kalamunda (YAK) have banded together in support of mental health awareness, raising over three hundred dollars for the Black Dog Institute at their Tee or Tie 4 Black Dog event.

The YAK, a group of 20 community minded young leaders aged 12 to 20 who live, work or study in the City of Kalamunda, invited guests to show support for mental health issues by dressing up in tie, or dressing down in a tee.

The Tee or Tie 4 Black Dog is just one of many charitable events put on by the YAK, who collaborate quarterly to plan and implement a community initiative that benefits other young people or the wider City of Kalamunda community.

## Local Heroes Recognised for Outstanding Contributions

Three City of Kalamunda locals who have made extraordinary contributions to the community have been recognised at the City's 2018 Thank a Volunteer Day. Celia Cheffins, Damien Lee and Tobias Bailye were presented with \$500 by Mayor John Giardina, each taking home the title of Local Hero of the Year for their age group.

Mayor John Giardina said, "This year the City introduced a new program called Local Heroes. The City of Kalamunda, in partnership with the Forrestfield and High Wycombe Community Bank Branches of the Bendigo Bank have been announcing monthly winners in our three categories this financial year."

"It gives me great pleasure to recognise our three overall winners, Celia, Damien and Tobias. Their acts of good will, commitment and generosity have made our community a better place to live and belong."

Senior local hero, Celia Cheffins, has been the driving force behind the Zig Zag Festival for over a decade. The Festival is highly regarded, drawing thousands of attendees each year. As a

volunteer, much of Celia's work requires full-time focus with her efforts also including the Zig Zag Community Arts Inc. which host a range of activities throughout the year.

Recipient of the overall Community Local Hero, Damien Lee, is recognised for his extraordinary effort in saving the life of an 18-month old child. On an ordinary walk with his dog, Damien spotted the child lying in the water and immediately jumped in to save her, commencing CPR. Doctors reported that if he had stepped in just 30 seconds later, the child would have suffered brain damage.

Young Local Hero, Tobias Bailye, decided to host a bake sale, where he gathered ideas from customers on how to improve the community. Tobias donated the bake sale funds to the City of Kalamunda to make these ideas a reality.

Mayor John Giardina expressed his gratitude to the winners and all nominees for helping to make the community a happier, healthier and safer place to live.

# Free Plants for Residents 2019

City of Kalamunda residents are invited to come along and collect their free plants in May 2019 from High Wycombe or Gooseberry Hill!

Whether you are looking to replace those water hungry plants in your yard, want to attract more birds to your garden or have removed a weedy creeper from your fence and want a slow growing native to replace it, come and choose from a selection of hardy, local native plants!

Residents can collect 15 plants per rateable property, and will also be able to ask our knowledgeable staff questions about how and where to plant their selections.

Food plants for residents will be available again this year, so if you are looking to establish a winter garden, the time will be just right to get your garden going in preparation for a Spring harvest.

Residents will need to bring photo ID or equivalent (proof of address required), a container to put your plants into and be prepared to be in line for a short period, as the event is always popular.

Kids are welcome - there will be

activities available to keep them entertained.

- Saturday 18 May, 9am - 12 noon at High Wycombe Community and Recreation Centre, 200 Newburn Road, High Wycombe
- Sunday 26 May, 9am - 12 noon at Gooseberry Hill Hall, 42 Ledger Rd, Gooseberry Hill

See the City of Kalamunda's web [www.kalamunda.wa.gov.au](http://www.kalamunda.wa.gov.au) for more information.

## Jump "In The Mix"

In The Mix is a music program for emerging young artists looking to develop their skills, collaborate with other young musicians and learn about the West Australian music industry through performing at a large outdoor concert.

The program includes music workshops which focus on performance and skill development, song writing and tips for the music industry.

The City of Kalamunda is currently looking for local bands, soloists, duets and DJs to take part in the program. In the Mix participants will also be eligible to win 1 of 5 Music Scholarships valued at \$500.

If you're interested in joining the In the Mix program, contact the City of Kalamunda today for more information on 9257 9999 or [enquiries@kalamunda.wa.gov.au](mailto:enquiries@kalamunda.wa.gov.au).

## Financial Assistance for Kids in Sport

KidSport enables eligible Western Australian children aged 5 to 18 years to participate in community sport and recreation by offering them financial assistance of up to \$150 per calendar year towards club fees.

Funding covers the cost of registration fees to join a nominated club to a maximum of

\$150 per child once per calendar year. If you hold a valid Health Care Card/Pensioner Concession card you can apply for KidSport online by visiting [www.dsr.wa.gov.au/kidsport](http://www.dsr.wa.gov.au/kidsport).

For more details phone 9359 1700 or visit [www.kalamunda.wa.gov.au/recreation](http://www.kalamunda.wa.gov.au/recreation).

## Lots on Offer at City Libraries

City of Kalamunda Libraries are stocked full of great resources, services and activities to meet everyone's needs and interests and it's all free.

Here, you can do much more than borrow books. Did you know you can explore Ancestry databases,

join English conversation classes, check out free author talks and information events or participate in activities like knitting and crochet?

There's plenty of fun stuff for kids too, from school holiday activities, rhyme or story time and Knight

Owl Quest.

If you're unable to attend a library, a delivery service may be offered.

All you need is a library card – come and connect with us today.
